Equal Rights Division**

**February 13, 2009  
Proposed Rule in Final Draft Form**

**Adjustment of Thresholds for Application of Prevailing Wage Rates**

**DWD 290.155 (1) CR 09-001**

The Wisconsin Department of Workforce Development proposes to amend s. DWD 290.155 (1), relating to the adjustment of thresholds for application of prevailing wage rates.

---

**Analysis Prepared by the Department of Workforce Development**

**Statutes interpreted:** Sections 66.0903 (5) and 103.49 (3g), Stats.

**Statutory authority:** Sections 66.0903 (5), 103.49 (3g), and 227.11, Stats.

**Explanation of agency authority.** The prevailing wage laws require that when a state agency or local governmental unit contracts for the erection, construction, remodeling, repairing, or demolition of a public works project, it must obtain a prevailing wage rate determination from the Department of Workforce Development and require that the contractors and subcontractors on the project pay their employees in accordance with those wage rates. Sections 66.0903 (5) and 103.49 (3g), Stats., set initial estimated project cost thresholds for application of the prevailing wage rate requirements and direct the Department to adjust the thresholds each year in proportion to any change in construction costs since the thresholds were last determined. Pursuant to s. DWD 290.15, the Department adjusts the thresholds based on changes in the construction cost index published in the *Engineering News-Record*, a national construction trade publication.

**Related statute or rule.** Section 66.0903, Stats., is the statute establishing the state prevailing wage program for local government projects. Section 103.49, Stats., is the statute establishing the state prevailing wage program for local highway projects.

Chapters DWD 290, 293 and 294, Wis. Admin. Code, are the state administrative rules for these programs.

**Plain language analysis of the proposed rule.** Section DWD 290.155 (1) currently provides that the prevailing wage rate requirements do not apply to any single-trade public works project for which the estimated cost of completion is below \$45,000 and do not apply to any multi-trade public works project for which the estimated cost of completion is below \$221,000. This rule adjusts the thresholds from \$45,000 to \$48,000 for a single-trade project and from \$221,000 to \$234,000 for a multi-trade project based on a 5.71% increase in the construction cost index between December 2007 and December 2008.

**Summary of, and comparison with, existing or proposed federal regulations.** The federal prevailing wage law applies to a federal public works project for which the contract is greater than \$2,000. This threshold is in statute and is rarely adjusted.

**Comparison with rules in adjacent states.** Minnesota has a statutory threshold of \$2,500 for a single-trade project and \$25,000 for a multi-trade project. Illinois does not have a threshold in its prevailing wage law. The law covers public works projects and defines public works projects as projects financed under various other specified laws. Michigan does not have a threshold in its prevailing wage law. The law covers projects that must be bid and relies on other agencies to determine the thresholds for what projects must be bid. Iowa does not have a prevailing wage law.

**Summary of factual data and analytical methodologies.** The thresholds are increased based on the national inflation rate in the construction industry. The Department uses the construction cost index in the *Engineering News-Record*, a national construction trade publication, to determine the inflation rate.

**Analysis and supporting documents used to determine the effect on small business or in preparation of an economic impact report.** By adjusting the threshold amounts for inflation on an annual basis, the proposed rule ensures that there is no effect on the state agencies and local units of government that are subject to the prevailing wage law. There is no effect on small business because all businesses are free to decide whether or not to bid on a project that is subject to the prevailing wage law.

**Effect on small business.** The proposed rule does not affect small businesses.

**Agency contact person.** Julie Eckenwalder, Section Chief, Construction Wage Standards Section, (608) 266-3148, [Julie.Eckenwalder@dwd.wisconsin.gov](mailto:Julie.Eckenwalder@dwd.wisconsin.gov) .

**Comments and deadline for submission.** Comments may be submitted to Howard Bernstein, Office of Legal Counsel, Dept. of Workforce Development, P.O. Box 7946, Madison, WI 53707-7946 or [Howard.Bernstein@dwd.wisconsin.gov](mailto:Howard.Bernstein@dwd.wisconsin.gov) . The deadline for submission is February 12, 2009.

**Rule text:**

**SECTION 1. DWD 290.155 (1) is amended to read:**

**DWD 290.155 (1)** This chapter does not apply to any single-trade public works project for which the estimated cost of completion is below ~~\$45,000~~ \$48,000 and any multi-trade public works project for which the estimated cost of completion is below ~~\$221,000~~ \$234,000.

**SECTION 2. EFFECTIVE DATE.** This rule shall take effect the first day of the month following publication in the Administrative Register as provided in s. 227.22 (2) (intro), Stats.

(End)
