

INITIAL REGULATORY FLEXIBILITY ANALYSIS

Department of Commerce

RULE NO.: Chapters Comm 5 and 16

RELATING TO: Electrical Inspection

1. Types of small businesses that will be affected by the rules.

The proposed electrical inspection program for farms, public buildings and places of employment will affect all electrical contractors installing electrical wiring in and for such establishments as well the owners or tenants of these types of buildings and structures.

2. Reporting, bookkeeping and other procedures required for compliance with the rules.

The rules will require obtaining permits before electrical wiring installations commence for farms, public buildings and places of employment.

The issuance of the permits will result in periodic inspections by enforcing municipal or independent building inspection agencies during the electrical wiring installation.

The cost of the permits and the resulting inspections will be determined by the respective enforcing municipal inspection agency or by the state contract procurement process when involving an independent building inspection agency.

3. Types of professional skills necessary for compliance with the rules.

The proposed changes do not require any type of professional skills for compliance.

4. Rules have a significant economic impact on small businesses.
