Assumptions Used in Arriving at Fiscal Estimate

Although the rules will newly result in review of documentation relating to applications and reports for grants or loans under this chapter, the time needed for these reviews is expected to be spent by current employees. Therefore, the proposed rules are not expected to have any significant fiscal effect on the Department.

The proposed rules are not expected to impose any significant costs on the private sector because the rules address submittal of documentation, and other activities, only by entities that choose to pursue obtaining grants or loans under this chapter.

Long-Range Fiscal Implications

None known.
