SEG-S

Affected Ch. 20 Appropriations

Assumptions Used in Arriving at Fiscal Estimate

Although the proposed rules will result in review of some new documentation relating to tax credits for producing film productions or for establishing or operating film production companies, the extent of this review is expected to be too small to result in significant changes in the Department's costs for administering its business development programs. Therefore, the proposed rules are not expected to have any significant fiscal effect on the Department.

The proposed rules are not expected to impose any significant costs on the private sector, because the rules address only voluntary submittal of documentation relating to tax credits for producing film productions or for establishing or operating film production companies.

Long-Range Fiscal Implications

None known.
