The department formed an advisory committee consisting of department staff, staff from the Board on Aging and Long-Term Care – Ombudsman Program, the Department of Workforce Development, LeadingAge Wisconsin, the Wisconsin Health Care Association, the Wisconsin Technical College System and private industry. Members of the Advisory Committee were approved by the Governor's Office of Regulatory Compliance. The public was notified of all Advisory Committee meetings pursuant to Wisconsin's Open Meetings law.

Committee members reviewed the initial draft and their comments guided the development of the proposed rule. In addition, the department requested comments on the economic impact of the proposed rule by publishing a solicitation in the Administrative Register and on its website. The department did not receive comments on the proposed rule.

necessary in order to comply with the statute and provide greater flexibility to nurse aides in meeting regulatory requirements.

15. Compare With Approaches Being Used by Federal Government

Federal conditions of participation for the registry of nurse aides, nurse aide training and testing programs, and training of paid feeding assistants are contained in 42 CFR 483.150 through 483.160. These regulations establish conditions and standards for the approval of nurse aide training and competency evaluation programs, for the maintenance and operation of a registry, and for conducting training and testing programs for nurse aides and paid feeding assistants. State and federal regulations for registry services and training and testing of nurse aide and paid feeding assistants are comparable, however the department intends to supplement these requirements to address therapeutic interventions and non-pharmacological pain control interventions, techniques of restorative nursing, client rights and reporting abuse or neglect of a client or misappropriation of a client's property.

16. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)

Illinois:

Illinois adopted significant portions of the federal regulation including the standards for the denial, suspension and revocation of program approval in 77 Admin Code 395, Long-Term Care Assistants and Aides Training Programs Code. Illinois specifies a comprehensive list of topics that must be addressed in any approved program including patient rights, communication, psychological needs of patient and family, hand washing, body mechanics, basic anatomy, nutrition, etc. Each set of topics includes course objectives and proficiency measures.

Iowa:

Iowa Code Chapter 81-16 Nurse Aide Requirements and Training and Testing Program closely mirrors federal requirements by including standards for denial, suspension and revocation of program approval. Like Illinois, Iowa code contains an extensive list of topics that must be included in any approved training program including bathing, dressing, toileting, assistance with eating, skin care, transfers, responding to behaviors, restorative care and avoiding the need for restraints.

Michigan:

Michigan has no state rule regarding certified nurse aide training programs or maintenance of a registry and relies solely on federal regulation.

Minnesota:

Minnesota has no state rule regarding certified nurse aide training programs or maintenance of a registry and relies solely on federal regulation.
