B. Statute Interpreted

This rule implement s. 196.50 (1), Stats.

C. Related Statutes or Rules

None.

D. Brief Summary of Rule

This rulemaking is being done to bring the commission's administrative rules relating to natural gas public utility territorial agreements into conformity with 2013 Wisconsin Act 300 (Act 300). Before Act 300, a natural gas utility could not provide service in a municipality already served by a different gas utility unless it received a certificate from the commission. Act 300 allows a gas utility to provide service in a municipality served by another gas utility without commission action, if: (1) the utilities have entered into a territorial agreement about which customers will be served by which utility, (2) the additional utility's service territory is adjacent to the municipality it now wants to serve, and (3) the additional utility will only serve a limited number of customers in the municipality it now wants to serve.

E. Comparison with Existing or Proposed Federal Legislation

The commission is not aware of any existing or proposed federal legislation on this matter.

F. Comparison with Similar Rules in Surrounding States

The commission is not aware of any similar rules in surrounding states.

G. Effect on Small Business

This rule will not affect small businesses. The s. 227.114 (12), Stats., definition of "small business" states that to be considered a small business, the business must not be dominant in its

field. Since electric, gas, and water utilities are monopolies in their service territories, they are dominant in their fields and, so, are not small businesses.
