Initial Regulatory Flexibility Analysis: No effects on small businesses, their associations, or local governments are anticipated. The department does not anticipate any fiscal impacts as a result of these rules. Following is the department's preliminary analysis.

Economic Impact

Because the hunting season framework proposed in this rule will be very similar to those in place during previous seasons, no economic impacts are anticipated. We do not anticipate that these rules will result in changes in the activities of migratory bird hunters, their expenditures, and the related economic activity. These rules are applicable to individual hunters and impose no compliance or reporting requirements for small business, nor are any design or operational standards contained in the rule.

Fiscal Impact

The department anticipates no fiscal impact resulting from these rules. The department currently annually conducts a number of activities related to migratory bird hunting such as managing department lands, selling licenses, providing law enforcement services, and surveys and related research. The department will continue to conduct the same activities under the season framework proposed in this rule and does not anticipate any new or reduced expenditures.
