

This table of contents lists alphabetically all of the agencies that have promulgated administrative rules that are currently in effect. Clicking on an agency name takes the user to the table of contents for that agency's administrative rules. Some agencies rules are divided into "Chapter Groups" that subdivide the agency's rules by subject area, in which case the agency table of contents will initially open to a list of the chapter groups. Clicking on a chapter group name, or the agency name when there are no chapter groups, will then open a list of chapters listed numerically by chapter number and showing the chapter title.

Clicking on a chapter number (ex. Chapter [NR 10](#)) takes the user to the beginning of the selected chapter in an HTML format document. Clicking on the icon next to the title opens the chapter as a PDF file. Search results are presented in HTML format unless the user selects to see results in PDF files. To view search results in a PDF file by default, click on the [Options > Preferences](#) link above and check "View documents as PDF when available."
