62.23 (7) (hd) Nonconforming quarry sites. Notwithstanding par. (h), an
ordinance enacted under this section may not prohibit the continued operation of a
quarry at a nonconforming quarry site. For purposes of this paragraph, the
continued operation of a quarry includes conducting quarry operations in an area of
a nonconforming quarry site in which quarry operations have not previously been
conducted. Nothing in this section shall be construed as modifying or limiting an
operator's reclamation obligations under a reclamation permit.
Section 777m. 66.04135 of the statutes is created to read:
66.04135 Quarries extracting certain nonmetallic minerals. (1)
Construction. (a) Nothing in this section may be construed to affect the authority
of a political subdivision to regulate land use for a purpose other than quarry
operations.

- (b) Nothing in this section may be construed to exempt a quarry from a regulation of general applicability placed by a political subdivision that applies to other property in the political subdivision that is not a quarry unless the regulation is inconsistent with this section.
 - (2) DEFINITIONS. In this section:
- (a) "Permit" means a form of approval granted by a political subdivision for the operation of a quarry.
 - (b) "Political subdivision" means a city, village, town, or county.
- (c) "Quarry" means the surface area from which nonmetallic minerals, including soil, clay, sand, gravel, and construction aggregate, that are used primarily for a public works project or a private construction or transportation project are extracted and processed.
- (d) "Quarry operations" means the extraction and processing of minerals at a quarry and all related activities, including blasting, vehicle and equipment access to the quarry, and loading and hauling of material to and from the quarry.
- (3) Limitations on local regulation. (a) *Permits*. 1. Consistent with the requirements and limitations in this subsection, except as provided in subd. 2., a political subdivision may require a quarry operator to obtain a zoning or nonzoning permit to conduct quarry operations.
- 2. A political subdivision may not require a quarry operator to obtain a zoning or nonzoning permit to conduct quarry operations unless prior to the establishment of quarry operations the political subdivision enacts an ordinance that requires the permit. A political subdivision may not require a quarry operator to obtain a nonzoning permit to conduct quarry operations if the quarry operation operates under a previously issued zoning permit.

- (b) Applicability of local limit. If a political subdivision enacts a nonzoning ordinance regulating the operation of a quarry that was not in effect when quarry operations began at a quarry, the limit does not apply to that quarry or to land that is contiguous, as defined in s. 59.69 (10) (ab) 1., to the land on which the quarry is located, is under the common ownership, leasehold, or control of the person who owns, leases, or controls the land on which the quarry is located, and is located in the same political subdivision.
- (c) *Blasting*. 1. In this paragraph, "affected area" means an area within a certain radius of a blasting site that may be affected by a blasting operation, as determined using a formula established by the department of safety and professional services by rule that takes into account a scaled-distance factor and the weight of explosives to be used.
- 2. Except as provided under subds. 3. and 4., a political subdivision may not limit blasting at a quarry.
- 3. A political subdivision may require the operator of a quarry to do any of the following:
- a. Before beginning a blasting operation at the quarry, provide notice of the blasting operation to each political subdivision in which any part of the quarry is located and to owners of dwellings or other structures within the affected area.
- b. Before beginning a blasting operation at the quarry, cause a 3rd party to conduct a building survey of any dwellings or other structures within the affected area.
- c. Before beginning a blasting operation at the quarry, cause a 3rd party to conduct a survey of and test any wells within the affected area.

1 d. Provide evidence of insurance to each political subdivision in which any part 2 of the quarry is located. 3 e. Provide copies of blasting logs to each political subdivision in which any part 4 of the quarry is located. 5 f. Provide maps of the affected area to each political subdivision in which any 6 part of the quarry is located. 7 g. Provide copies of any reports submitted to the department of safety and 8 professional services relating to blasting at the quarry. 9 A political subdivision may suspend a permit for a violation of the 10 requirements under s. 101.15 relating to blasting and rules promulgated by the 11 department of safety and professional services under s. 101.15 (2) (e) relating to 12 blasting only if the department of safety and professional services determines that a violation of the requirements or rules has occurred and only for the duration of the 13 14 violation as determined by the department of safety and professional services. 15 (d) Water quality or quantity. 1. Except as provided under subds. 2. to 5., a 16 political subdivision may not do any of the following with respect to the operation of 17 a quarry: 18 a. Establish or enforce a water quality standard. 19 b. Issue permits, including permits for discharges to the waters of the state, or 20 any other form of approval related to water quality or quantity. 21c. Impose any restriction related to water quality or quantity. 22 d. Impose any requirements related to monitoring of water quality or quantity. 23 2. A political subdivision may take actions related to water quality that are

specifically required or authorized by state law.

- 3. A political subdivision may require the operator of a quarry to conduct and provide water quality and quantity baseline testing and ongoing quality testing, to occur not more frequently than annually, of all wells within 1,000 feet of the perimeter of a quarry site when a new high capacity well is added to an existing quarry site or a new quarry site is established. A testing requirement under this subdivision may not impose any standard that is more stringent than the standards for groundwater quality required by rules promulgated by the department of natural resources. The political subdivision may request a report of well testing results within 30 days of the completion of testing, and the quarry operator shall provide the results within that time. Any person offered the opportunity to have a well tested under this subdivision but who knowingly refuses testing waives any claim against a quarry operator related to the condition of the well if, within 90 days of the offer, the quarry operator records with the register of deeds for the county in which the well is located a written and sworn certification that the person refused the offer.
- 4. A political subdivision that imposes a requirement to conduct any ongoing water quality or quantity testing of wells adjacent to an existing quarry prior to the effective date of this subdivision [LRB inserts date], may continue to do so.
- 5. In addition to the ability to enforce properly adopted local regulations as allowed by this section, a political subdivision may suspend a permit authorizing the operation of a quarry for a violation of state law or rules promulgated by the department of natural resources relating to water quality or quantity only if the department of natural resources determines that a violation of state law or rules has occurred and only for the duration of the violation, as determined by the department of natural resources.

 $\mathbf{2}$

- (e) *Air quality*. 1. Notwithstanding s. 285.73, and except as provided under subds. 2. to 4., a political subdivision may not do any of the following with respect to the operation of a quarry:

 - b. Issue permits or any other form of approval related to air quality.
 - c. Impose any restriction related to air quality.
 - d. Impose any requirement related to monitoring air quality.
- 2. A political subdivision may require the operator of a quarry to use best management practices to limit off-site fugitive dust and may enforce properly adopted fugitive dust regulations.
- 3. A political subdivision may take actions related to air quality that are specifically required or authorized by state law.
- 4. In addition to the ability to enforce properly adopted local regulations as allowed by this section, a political subdivision may suspend a permit authorizing the operation of a quarry for a violation of state law or rules promulgated by the department of natural resources relating to air quality only if the department of natural resources determines that a violation of state law or rules has occurred and only for the duration of the violation, as determined by the department of natural resources.
- (f) Quarry permit requirements. 1. A political subdivision may not add a condition to a permit during the duration of the permit unless the permit holder consents.

2. If a political subdivision requires a quarry to comply with another political
subdivision's ordinance as a condition for obtaining a permit, the political
subdivision that grants the permit may not require the quarry operator to comply
with a provision of the other political subdivision's ordinance that is enacted after the
permit is granted and while the permit is in effect.
3. a. A town may not require, as a condition for granting a permit to a quarry
operator, that the quarry operator satisfy a condition that a county requires in order
to grant a permit that is imposed by a county ordinance enacted after the county
grants a permit to the quarry operator.
b. A county may not require, as a condition for granting a permit to a quarry
operator, that the quarry operator satisfy a condition that a town requires in order
to grant a permit that is imposed by a town ordinance enacted after the town grants
a permit to the quarry operator.

- 3. For a best value design-build contract, the contract shall be awarded to the qualified responsible bidder with the highest adjusted score, which shall be calculated by adding the bidder's technical proposal score to the bidder's cost proposal score. The technical review committee shall award the lowest qualified responsible bidder the maximum number of points that may be awarded to a cost proposal under the request for proposals, but not less than 45 percent and not more than 75 percent of the maximum number of combined points that may be awarded to a technical proposal and cost proposal. For each remaining qualified responsible bidder, the technical review committee shall calculate the score for the cost proposal by reducing the maximum number of points that may be awarded to the cost proposal by at least 1 percent for each percentage point by which the cost proposal exceeds the lowest cost proposal.
- (d) Following a review of cost proposals, the office may reject all proposals. If the office rejects all proposals or does not execute a contract after issuing an intent to award a contract under par. (c), the office may reissue the request for proposals and allow only the qualified responsible bidders originally notified under sub. (6) (e) to submit new proposals. The office may pay a reasonable stipulated fee to each design-builder that provides a responsive but unsuccessful proposal in response to the reissued request for proposals. If the reissued request for proposals specifies a maximum fixed price, the office may not award a stipend to a design-builder whose proposal exceeds that price.
- (e) Not less than 5 working days prior to executing a design-build contract, the department shall provide notice to each unsuccessful qualified responsible bidder that a notice of intent to award a contract has been issued.

- (c) The design-builder shall submit to the office in the form prescribed by the office documentation of the construction services the design-builder or members will perform and the dollar value of the services.
- (d) The office shall calculate the percentage of total construction services identified in the contract to be performed by the design-builder or members by subtracting the value of specialty services to be performed from the total contract amount and dividing the dollar value of construction services to be performed by the design-builder or members by the difference. If the value of construction services to be performed by the design-builder or members is less than 30 percent of the value

- of all construction services required under the contract, the office shall cancel the contract award.
 - (9) Project delivery. An individual identified in a response to a request for qualifications or in a technical proposal may be replaced by a design-builder if the office determines that the new individual meets the qualifications described in the response to the request for qualifications or in the technical proposal and that the individual's qualifications are at least equal to the qualifications of the individual being replaced.

 - (b) All design services, including architectural and engineering services, provided under a design-build contract are services and not products.
 - (11) Stipulated fee. (a) The department shall award a stipulated fee of not less than three-tenths of 1 percent of the department's estimated cost of design and construction as follows:
 - 1. To each qualified responsible bidder that provides a responsive but unsuccessful proposal when the office issues a notice of intent to award a contract. If the request for proposals specifies a maximum fixed price, the office may not award a fee to a proposal that exceeds the maximum fixed price.
 - 2. To all qualified responsible bidders that provide a responsive proposal, if the office does not issue a notice of intent to award a contract.
- 3. To all qualified responsible bidders if the office cancels the solicitation before the technical review committee reviews technical proposals.

- (b) The department shall pay the fee to each qualified responsible bidder under par. (a) no later than 90 days after the department issues a notice of intent to award a contract, determines that it will not issue a notice of intent to award a contract, or cancels the solicitation.
- (c) In consideration for paying the fee, the department may use work product contained in an unsuccessful proposal in connection with any proposed or awarded design-build project without making any additional compensation to the design-builder. If an unsuccessful design-builder waives the stipulated fee, the department may not use work product in the design-builder's unsuccessful proposal.
- (12) Rules. The department may promulgate rules necessary to implement this section.
- (13) APPEALS. (a) Any person aggrieved and directly affected by a decision of the office to issue a request for qualifications or a request for proposals under this section shall be entitled to judicial review of the decision as provided in chapter 227, subject to the procedural requirements of s. 227.53 (1).  - (b) Any person aggrieved and directly affected by a decision of the office to issue a notice of intent to award a contract under this section shall be entitled to judicial review of the decision as provided in chapter 227, subject to the procedural requirements of s. 227.53 (1).  - 1. The design-builder that received the notice of intent to award a contract was improperly certified as a qualified responsible bidder.
 - 2. A mathematical error was made in scoring any of the proposals that resulted in an improper intent to award a contract.

- (c) If the office prevails upon judicial review, following any protest and appellate court proceedings, the office shall be entitled to recover all costs and charges included in the final order or judgment, excluding attorney fees. Upon payment of costs and charges by the protester, the bond shall be returned.
