Chapter DWD 270
Child Labor

The Wisconsin Department of Workforce Development proposes an order to repeal and recreate Chapter DWD 270, relating to child labor.

Analysis Prepared by the Department of Workforce Development

Statutory authority: Sections 103.66 and 227.11 (2), Stats.

Statutes interpreted: Section 103.64 to 103.82, Stats.

Explanation of agency authority. Section 103.66, Stats., provides that the department may determine reasonable classifications of employment, places of employment, maximum hours of employment per day and per week, maximum days of employment per week, hours at which employment may begin and end and the duration of lunch and other rest periods, and prohibited hazardous employment as necessary to protect the life, health, safety, or welfare of minors. The proposed rule repeals and recreates the existing Chapter DWD 270 with some substantive changes and some reorganization solely to clarify the rule language.

Summary of proposed changes. Hazardous employment. Proposed substantive changes to the provisions on minimum ages for hazardous employment and prohibited occupations or places of employment prejudicial to the life, health, safety, or welfare of minors include the following:

- The provision allowing occasional and incidental driving by minors is amended to basically coincide with federal law, as found in the “Drive for Teen Employment Act” (Public Law 105-334, 29 USC 213(c)(6)). The current rule provides that the driving must be during daylight hours, the minor must have completed a state-approved driver education course and hold a driver’s license for the type of driving involved, the motor vehicle does not exceed 6,000 pounds, and the vehicle is equipped with a seat belt for the driver and for each helper, and the employer has instructed each minor that the seat belts must be used. In addition to these provisions, the proposed changes include the following:
 - The minor must be at least 17 years old. The current rule does not contain a minimum age.
 - The minor has no record of any moving violation at the time of hire.
 - The driving may be no more than one-third of an employee’s work time in any workday and no more than 20% of any employee’s work time in any work week.

- The driving takes place within a 30-mile radius of the minor's place of employment.
 - The driving does not involve the towing of vehicles; route deliveries or route sales; transportation for hire of property, goods, or passengers; urgent, time-sensitive deliveries; or the transporting at any time of more than 3 passengers, including the employees of the employer; or more than two trips away from the primary place of employment in any single day for the purpose of delivering goods of the minor's employer to a customer
 - The Department is maintaining the current definition of motor vehicle that includes motorcycles and scooters. The federal law only applies to automobiles and trucks.
- An exception to the general prohibition against minors working in any occupation involved with paper-products machines is created to coincide with federal law at Public Law 104-174, 29 USC 213(c)(5)(A). The exception in federal law and the proposed rule provides that 16- and 17-year-old minors may load materials into, but not operate or unload, a scrap paper baler or a paper box compactor only if all of the following conditions are met:
 - The scrap paper baler or paper box compactor meets the applicable ANSI standard.
 - The scrap paper baler or paper box compactor includes an on-off switch incorporating a key-lock or other system and the control of the system is maintained in the custody of employees who are 18 years of age or older.
 - The on-off switch of the scrap paper baler or paper box compactor is maintained in an off position when the machine is not in operation.
 - The employer posts a notice on the scrap paper baler or paper box compactor in a prominent position and easily visible to any person loading, operating, or unloading the machine stating that: "The scrap paper baler or compactor meets the industry safety standard applicable to the machine, Standard ANSI Z245.5-1990 for scrap paper balers and Standard ANSI Z245.2-1992 for paper box compactors. Sixteen- and 17-year-old employees may only load the scrap paper baler or paper box compactor. No employee under the age of 18 may operate or unload the scrap paper baler or paper box compactor."
- No minor may work on or about a roof. The current rule prohibits minors from working in the installation of roofs but allows minors to work on or about a roof for other purposes. The proposed rule prohibits any work on a roof, including carpentry and metal work, gutter and downspout work, installation and servicing of television and communication equipment such as cable and satellite dishes, installation and servicing of heating and air conditioning equipment, and any similar work that is required to be performed on or about roofs.
- No minor may be employed as an exotic dancer.
- No minor may be employed as a bouncer, crowd controller, or identification checker in establishments where liquor is present.
- Under the current rule, minors under 16 years old who are working in retail food service, and gasoline service establishments may not do any work requiring the use of a ladder. Under the proposed rule, no minor under 16 years old may work in

occupations involving the use of a ladder more than 6 feet high, any scaffold, or their substitutes.

- The definition of “amusement park ride” is clarified to specify that waterslides are included. An exception is added to allow 16- and 17-year-old minors to work as water slide attendants. (added to analysis after noticed for hearing)
- The current rule on prohibited hazardous occupations in farming for minors under 16 duplicates federal law. The proposed rule cross-references the federal regulation. (added to analysis after noticed for hearing)
- The definition of explosives is revised in the subsection prohibiting minors from working with certain explosives. The current rule refers to explosives designated by the Interstate Commerce Commission, which was abolished in 1995. The proposed rule refers to explosives designated by the Bureau of Alcohol, Tobacco, Firearms and Explosives to be covered by 18 USC 841(d), relating to importation, manufacture, distribution, and storage of explosive materials.
- Existing law is clarified to specify an exception to the prohibition against minors operating certain hoists. Sixteen- and 17-year-old minors may operate floor jacks, service jacks, hand jacks, drive-on lifts, and arm lifts used in conjunction with repairing or servicing motor vehicles. No minor under 16 years of age may operate a motor vehicle lift of any type or work in a pit underneath a motor vehicle.

Hours minors may work. An exception to the requirement that minors 12 and 13 years of age may not be employed more than 6 days per week is created for minors working in farming. Students who are enrolled in a private or public school but receiving instruction at home through special arrangement may work the same hours as if they were attending the public school. Students enrolled in a charter school may not work during hours they are scheduled to be in the charter school.

The hearing draft of these rules proposed that the latest time that minors 16 and 17 years of age may work on days not preceding school days be changed from 12:30 a.m. to 12 midnight to address confusion on the effect of working 12 midnight to 12:30 a.m. when day is defined as a calendar day. In response to hearing comment, the Department is withdrawing the proposed change and changing the definition of day to mean calendar day, except when a work shift commences in one calendar day and ends in the following day, all hours worked in that shift will count in the day the shift commenced. The definition of week is changed to a calendar week, except all hours worked in a shift commenced in a calendar week will count in that calendar week.

Federal law. The proposed rule amends the provisions under which driving is allowed to coincide with federal law as amended in 1998. The conditions under which 16- and 17-year-olds may load materials into scrap paper balers and paper box compactors are amended to coincide with federal law as amended in 1996. Federal law prohibits minors from working in roofing but allows minors to work on or about a roof for other purposes. Federal law on ladders prohibits minors under 16 years old in retail, food service, and gasoline service establishments from any work requiring the use of a ladder. There are no federal prohibitions against minors working as

bouncers or crowd controllers where liquor is present or against minors working as exotic dancers.

Rules in adjacent states. Illinois defines a minor as less than 16 years old and does not have child labor rules affecting 16 and 17 year olds.

Michigan and Iowa have a driving prohibition similar to Wisconsin's current rule and federal law before 1998. Minnesota allows minors to drive up to 24,000 pound, single-unit vehicles and may carry passengers, except as a hired driver.

Michigan and Iowa have a prohibition against minors doing work involving paper-products machines that is similar to Wisconsin's current rule and federal law before 1996. No prohibition against paper-products machines was found in Illinois' or Minnesota's rules.

Michigan, Illinois, and Iowa prohibit minors from doing work in roofing but not on or about a roof. No roofing prohibition was found in Minnesota's rules.

Minnesota and Illinois have prohibitions against minors working in rooms in which intoxicating liquors are served or consumed that may cover bouncers, ID checkers, and crowd controllers. No prohibition against minors working as bouncers, ID checkers, or crowd controllers in establishments in which liquor is present was found in Michigan or Iowa rules.

Michigan and Iowa prohibit minors less than 16 years old from all work requiring the use of ladders. No prohibition against ladders was found in Illinois' or Minnesota's rules.

No prohibition against minors working as exotic dancers was found in Minnesota's, Michigan's, Iowa's, or Illinois' child labor rules.

Anticipated costs incurred by private sector. There will be no significant fiscal effect on the private sector.

Effect on small business. The proposed rule will affect small business as defined in s. 227.114 (1), Stats., but the rule will not have a significant economic impact on a substantial number of small businesses.

SECTION 1. Chapter DWD 270 is repealed and recreated to read:
