LF-52-04

Summary Prepared by the Department of Natural Resources

Statutory Authority: ss. 23.091, 23.09(2)(intro), 23.11(1), 23.28(3), 23.293, 27.01(2)(j), 27.01(10)(b) and (f) and 227.11(2)(a), Stats.

Statutes Interpreted: ss. 23.091, 23.09(2)(intro), 23.11(4), 23.17, 23.175, 23.28(3), 23.293, 27.01(2)(i) and (j), 27.01(10)(f) and 28.04(2), Stats.

Explanation of Agency Authority: In addition to the general authority granted by s. 227.11(2)(a), Stats., to implement and interpret its statutory authority, the Department of Natural Resources has specific grants of rule making authority in chs. 23 and 27, Stats., to manage its properties.

Related statute or rule: None. All Wisconsin DNR property management regulations are found in this chapter.

Plain Language Analysis: Chapter NR 45 is the principal rule governing the conduct of visitors to properties and facilities owned, acquired by easement, or leased by the Department. This chapter is reviewed and revisions proposed by staff on a regular basis. This rule revision contains a number of fee and policy changes relative to camping and other uses of Department land. The increased fees are needed to address the continued costs of providing quality services.

Camping fees are being increased by \$3 during the peak camping season as allowed by s. 27.01,(1)(h), Stats., at eight state park system properties after a review of local market conditions. Shelter rental fees, and fees for outdoor group sites with electricity are also being increased in order to generate additional revenue to ensure continued quality services on department properties.

New requirements for campsite occupancy will reduce the not uncommon practice of saving sites that are not actually being utilized. Registrants without an advance registration must occupy the site with a camping unit the first night of the registration and every night thereafter. For reserved sites, the registrant must occupy the camping unit on the reserved site by 3 p.m. on the second day of the reservation. Reductions in the maximum length of allowed camping stays will give more campers an opportunity to be successful in obtaining a site. Prohibiting the extension of a camping reservation's ending date will make an aspect of the reservation system more equitable. This removes the ability to change arrival and departure dates to move the reservation out farther controlling the site until the dates wanted to begin with are obtained. Ice Age trail areas are added to the list of property types or areas where camping may be permitted.

Physically disabled person is defined for purposes of NR 45 to mean a person who has been determined by the Department of Transportation to have a permanent disability and has been issued a disabled registration plate or special identification card or who has been issued an approval under s. 29.193, Stats. for a permanent disability.

A provision stating that no person may resist or obstruct a law enforcement officer when that officer is doing any act in an official capacity and with lawful authority allows minor obstructions to be charged as civil forfeitures.

State natural areas are added to a list of areas, and properties that do not allow airguns (paintball guns) due to the sensitive nature of these properties.

Turkey hunting in the listed state parks was previously authorized in ch. NR 10. It is currently regulated by special permit, but the implementing regulations necessary for implementing the permits were never put in place. The new regulations simply recognize the system already in place.

All waters in Governor Tommy Thompson state park will be closed to motor boats except battery-powered electric motors at a slow-no-wake speed.

A number of other changes clarify or correct existing code language in NR 45. Clarification of policies regarding the North Country Trail and the Ice Age Trail are added to ch. NR 1. The change to s. NR 51.73(1) updates the list of state trails.

Federal Regulatory Analysis: N/A

Comparison with Adjacent States:

**Illinois:**

- Maximum camping stay of 14 nights
- If you are unable to arrive the 1st night of your camping stay you must contact the park to keep your site.
- No mention of fee differentials due to market forces
- Shelter rentals start at \$25 a day, non-refundable
- Paintball activities are not addressed directly in the Illinois Administrative Code. However, it is unlawful "for any person . . . to display or use on Department controlled lands, except as authorized by the Dept. on hunting, field trials, target or special event areas, any gun including shotgun, rifle, pistol, revolver, air or BB gun . . ." 17 Ill. Admin. Code § 110.170. This applies to all state lands, and the reference to air guns would seem to include paint ball guns.
- Flying Activities: Hang gliding and similar activities are not addressed in Illinois Code.

**Minnesota:**

- Maximum camping stay of 14 nights
- You must occupy the site the first night or you will lose the site
- No mention of fee differentials due to market forces
- Shelter rentals are arranged for and priced at each individual park. No set price.
- Paintball: It is not allowed in state parks and in developed areas of other state lands (state forests, etc). It is allowed in undeveloped state forest land.
- Flying Activities: There is no policy about hang gliding on state lands, though there is a regulation against landing aircraft in state parks specifically.

**Iowa:**

- No reservations for camping
- 14 night maximum camping stay
- No mention of fee differentials due to market forces
- Shelter rental \$25 a day plus tax
- Shelter with kitchen \$75 a day

- Paintball: Paintball guns are prohibited in state parks, preserves and recreation areas (i.e.: all state lands – there are no “natural areas” per se). Iowa Admin. Code § 571 -61.5(11) (“*Paintball guns*. The use of any item generally referred to as a paintball gun is prohibited in state parks, recreation areas and preserves.”)
- Flying Activities: There is no policy about hang gliding or flying activities on state lands.

**Michigan:**

- Maximum stay 15 days; the lower Peninsula has a 2 day minimum on weekends
- Reservations will be held for up to 24 hours without notification. If the park has not received notice of late arrival from you within that time, your reservation will be considered a no show and your site reassigned.
- Modern campsite range from \$14.00 per night to \$20.00 per night depending on the park
- Shelter rental prices begin at \$50 per day. Fees for 2005 are expected to begin at \$80.
- Paintball: There are no specific regulations for paint ball guns on state lands other than state parks, where they are not allowed.
- Flying Activities: There are no specific regulations on flying activities on state lands.

**Summary of Factual Data and Analytical Methodologies:**

Camping Fees: Fees are increased \$3 per night for market conditions at eight state parks and southern forests (Devil's Lake, Kohler-Andrae, Mirror Lake, Peninsula, Big Bay, Point Beach, Willow River, and Hartman Creek). A 2001 *Future of Camping Study* completed by the WiDNR-Bureau of Parks and Recreation identified several significant “hot” spots in Wisconsin where camping demand often exceeds supply. These areas include the border areas near Illinois and Minnesota (Twin Cities area), Lake Michigan and Lake Superior properties, the Dells area, and the Waupaca Lakes area. All eight parks and forests being adjusted are located in these markets, and all eight properties have continuously high rates of occupancy during the camping season. A survey of the markets surrounding the eight properties being adjusted for market conditions reveals that prices are much higher for non-state park campsites per night compared to state park and forest sites:

**State Park or Forest Pricing:**

- Devil's Lake - \$8 - \$15
- Kohler-Andrae - \$8 - \$15
- Mirror Lake - \$8 - \$15
- Peninsula - \$8 - \$18
- Big Bay - \$8 - \$15
- Point Beach - \$8 - \$15
- Willow River - \$8 - \$15
- Hartman Creek - \$8 - \$15

**Surrounding Market Pricing:**

- |             |
|-------------|
| \$16 - \$41 |
| \$16 - \$37 |
| \$16 - \$41 |
| \$18 - \$23 |
| \$16 - \$28 |
| \$17 - \$31 |
| \$16 - \$29 |
| \$21 - \$28 |

Picnic Shelter Fees: Fees for picnic shelters have been raised by \$10 per day for an open air shelter to \$40 per day for an enclosed shelter with electricity that serves more than 50 persons. The new rates will also include a \$5 registration fee. Registration fees were separately charged previously. A survey of county park picnic shelter rental rates in Wisconsin reveals that Wisconsin State Park rates have been consistently lower. Picnic shelter rates at Wisconsin State Parks need to be raised to both provide the park system with reasonable fees for the amenities and services provided, and to reduce the situation where parks may be creating unfavorable low pricing in the marketplace.

**Analysis and Documents supporting determination of Small Business Effect:** No effects anticipated.

**Anticipated Private Sector Costs:** Fees are increased for certain uses of department lands and those increased costs will be incurred by the users. Because the fees correspond to activities that are for the most part, most commonly used on a relatively infrequent basis, and the increases are modest, the fee increases are not anticipated to be burdensome for most users.

Effect on Small Business: None anticipated.
