TO: Members  
Senate Select Committee on Taxpayer Protection Amendment  
Assembly Committee on Ways and Means

FROM: Bob Lang, Director

SUBJECT: Towns with Adjusted 2004 Revenues Below \$1 Million

The attached table reports towns with adjusted 2004 revenues below \$1 million. The municipalities are displayed in county order.

On the table, each town's adjusted total revenues are comprised of amounts from taxes, special assessments, licenses and permits, fines and forfeitures, public charges for services, fees received by enterprises, and proceeds from long-term debt. The revenues were obtained from financial reports that these municipalities filed with the Department of Revenue (DOR) for 2004. The amounts generally represent those revenues that would be subject to control under the proposed joint resolutions (AJR 77 and SJR 63) that would limit the year-to-year increases in state and local revenues. Under the resolutions, towns with revenues below \$1 million would not be subject to the limitation. In total, 1,186 of the state's 1,260 towns had adjusted 2004 revenues below \$1 million.
