Student Financial Aid

Introduction

Financial aid provided to students can be broken into two general categories: need-based aid, which is provided to students who are determined to be financially unable to afford the cost of attending a post-secondary institution; and non-need-based aid, which is provided either without regard to the student's financial need, such as in the case of certain federal loan programs, or on some other basis, such as academic merit. In 2012-13, the most recent year for which data is available, resident undergraduate students attending Wisconsin public and private, nonprofit post-secondary institutions at least half-time received financial aid awards totaling approximately \$1.78 billion. Of that amount, \$1,141.0 million, or 64.1%, was awarded through need-based aid programs. Nearly two-thirds of all resident undergraduates enrolled at least half-time in Wisconsin institutions received some form of need-based financial aid in that year.

There are four primary sources of student financial aid: (1) the federal government; (2) state programs; (3) higher education institutions; and (4) other private and community-based organizations. Of the need-based aid provided to resident undergraduate students in 2012-13, \$869.3 million was awarded through federal programs (75.7%); \$123.2 million was awarded through institutional programs (10.7%); \$119.7 million was awarded through state grant programs administered by the Higher Educational Aids Board programs (10.4%); \$18.4 million was awarded through other state programs (1.6%); and \$18.1 million was provided by private sources (1.6%).

The federal government determines the amount of need-based financial aid a student is eligible for and funds the largest grant, loan, and work-study programs that make up the financial aid "package" that a student receives. In determining a student's financial need, the resources of the student and his or her family are compared to the estimated cost of attending the chosen institution. The cost of attendance includes tuition and fees, room and board, transportation, books and supplies, and miscellaneous and personal expenses. The student's financial need is the cost of attendance that the current methodology assumes cannot be covered by student or family resources. "Unmet need" is the student's financial need less any financial aid provided. This "unmet need" can be met by additional parental contributions beyond what is assumed, student earnings apart from work-study aid, the assumption of additional non-need-based loans, or reductions in costs by the student.

Table 1 shows need-based financial aid for Wisconsin resident undergraduate students for the most recent five years for which data is available. Between 2008-09 and 2012-13, average

Table 1: Wisconsin Undergraduate Need-Based Financial Aid (\$ in Millions)

	2008-09	2009-10	2010-11	2011-12	2012-13
Students Receiving Aid	122,742	144,684	152,938	158,625	154,984
Cost of Attendance	\$2,095.9	\$2,513.8	\$2,737.8	\$2,923.5	\$2,996.2
Financial Need	\$1,474.2	\$1,848.3	\$2,052.9	\$2,182.4	\$2,236.2
Need-Based Aid	799.1	973.0	1,082.0	1,097.7	1,141.0
Unmet Need	\$675.1	\$875.3	\$970.8	\$1,084.7	\$1,095.3
Unmet % of Financial Need	45.8%	47.4%	47.3%	49.7%	49.0%
% Chg in Total Aid	7.1%	21.8%	11.2%	1.5%	3.9%

need-based aid per student increased by \$852; however, the average cost of attendance for students receiving aid increased by approximately \$2,257. Because increases in costs were greater than increases in aid, unmet student need increased. In addition, the average student and his or her family's ability to pay for his or her education decreased by \$161 over the time period shown. The increase in cost that was not covered by increases in aid combined with the decrease in the average student's ability to pay led to an increase in average unmet need of \$1,567, from \$5,500 in 2008-09 to \$7,067 in 2012-13. In that year, need-based aid met 51% of resident undergraduate students' financial need compared to 54.2% four years prior.

This paper presents an overview of state and federal financial aid programs. The first section discusses the methodology used to determine student financial need. The second section briefly describes the various sources of financial aid. The third section provides a more detailed description of each financial aid program including college savings programs and tax incentives. The fourth section discusses the process used to distribute financial aid. The final section provides interstate comparisons.

Needs Analysis

Financial aid is awarded based upon a systematic evaluation of a student's financial need, using the guiding principle that students and their families are primarily responsible for paying for postsecondary education. Congress has established a needs analysis system, referred to as the "federal methodology," which determines how much students and their families are expected to contribute towards the cost of their education. To be eligible for federal financial aid, students and their parents are required to fill out the **Free Application for Federal Student Aid (FAFSA)**.

The federal Department of Education determines the amount that the student and his or her parents are expected to contribute to the cost of the student's education, known as the **expected family contribution or EFC**, based on information provided on the FAFSA. In calculating the EFC, the Department of Education takes into account family income, assets, number of children and other dependents in the household, number of family members enrolled in higher education, liabilities, and unusual financial circumstances. Students' earnings and savings are also considered.

EFC is determined based on the amount of income and assets that are deemed "discretionary." In general, EFC increases with the family's discretionary income. Students with the greatest financial need generally have EFCs of \$0. Although costs vary from school to school, the amount one is expected to pay remains the same.

The student's **financial need** is the difference between the total cost of attending an institution and the amount the student and his or her family is expected to contribute, which is the EFC. The cost of postsecondary education varies greatly depending on individual student choices. First, costs will vary depending on the institution the student chooses to attend. In Wisconsin, the total cost of education, including tuition and fees, room and board, transportation, books and supplies, and miscellaneous and personal expenses, ranged from an average of \$11,839 at the tribal colleges to \$32,859 at the private, nonprofit colleges and universities in 2012-13. The Wisconsin Technical Colleges and the University of Wisconsin System institutions fell in between with average costs of \$13,816 and \$19,483, respectively. Additional choices made by the student, such as whether to live on campus or at home, will also affect the total cost of education.

Table 2 shows a sample student budget for a full-time resident undergraduate student as prepared by the financial aid office at UW-

Milwaukee. This sample budget shows tuition and fees relative to other student costs including room and board, transportation, and books and supplies.

Table 2: Dependent Student Base Budget Estimates-- 2014-15 Academic Year (9 Months)

	Living With Parent	Living Away From Home
Tuition and Fees	\$9,438	\$9,438
Books/Supplies	700	700
Room	0	6,126
Board	3,010	3,010
Transportation	1,306	1,306
Personal/Misc.	<u>2,000</u>	<u>2,000</u>
Total	\$16,454	\$22,580

Once a student's financial need is determined, the college where the student is enrolled or the college or colleges where the student has applied attempts to meet this need through an offer of a financial aid package. The financial aid package can be a combination of one or more types of assistance including grants, scholarships, loans, and employment, depending upon a student's financial need and eligibility for programs.

In most cases, to be eligible to receive aid from the general need-based programs discussed in this paper, a student must:

- Demonstrate financial need.
- Have a high school diploma, a general educational development (GED) certificate, or have completed a high school education in a home setting.
- Be enrolled in an eligible degree or certificate program.
- Be a U.S. citizen or an eligible noncitizen.
- Have a social security number.
- Make satisfactory academic progress in a degree or certificate-granting program, which is

usually defined by the school, but often viewed as maintaining a "C" average.

- Register with the Selective Service, if required.

Some of the programs described in this paper such as the federal Direct Loan and Direct PLUS Loan programs and the state-funded WHEG program also require the student to be enrolled at least half-time, which is usually defined as at least twelve credits per year. This is not a requirement to receive federal aid under the Pell Grant, Supplemental Educational Opportunity Grant, Work-Study, and Perkins Loan programs. For students attending less than full-time, the cost of education is proportionately reduced, which in turn decreases a student's financial need and the amount of financial aid for which the student is eligible.

Another determination made when a student applies for financial aid is the student's dependency status. **Dependency status** is based on whether the student is considered a dependent of his or her parents or is considered financially independent. If a student is a dependent, the student must report his or her parents' income and other financial information on the FAFSA in addition to the student's own. This determination is necessary because most student aid programs are based on the assumption that parents have the primary responsibility for paying for their children's education, whether they choose to or not. According to federal guidelines, students who have access to parental support should not receive financial aid at the expense of students who do not. A student is considered independent for financial aid purposes if he or she is one or more of the following:

- At least 23 or 24 years of age depending on the student's birthdate.
- Married.
- A graduate or professional student.
- Someone with a dependent other than a

spouse who receives more than half of his or her support from the student.

- A veteran.
- Serving on active duty in the U.S. Armed Forces.
- Both parents are deceased, has been in foster care, or has been a ward of the court at any time since the age of 13.
- An emancipated minor or in a legal guardianship.
- Has been determined to be homeless or self-supporting and at risk of homelessness at any time since July 1, 2013.

Sources of Financial Aid

Financial aid is provided by a number of sources:

Federal Government. In 2012-13, over three-quarters of the need-based financial aid to resident undergraduate students was provided by the federal government. This aid included \$372.6 million in grants, \$474.0 million in loans, and \$22.7 million in work study. Table 3 provides expenditure levels for need-based financial aid programs funded through the U.S. Department of Education. These include grants, such as the Pell and Supplemental Educational Opportunity Grant (SEOG); federal work study; and loans, such as Direct and Perkins loans. Table 3 also shows expenditures for the Bureau of Indian Affairs grant program which is administered by individual tribes. Since 2003-04, total need-based federal financial aid for Wisconsin undergraduate students has nearly doubled, increasing from \$438.0 million in that year to \$869.3 million in 2012-13.

In addition, the federal government provides non-need-based financial aid, primarily in the form of loans. In 2012-13, resident undergraduate students received a total of \$403.3 million in non-need-based federal financial aid. Of this amount, 83% was provided in the form of Direct

* These programs provided grants to Pell grant recipients who met additional academic requirements. Both programs ended after the 2010-11 academic year.

**Leveraging Educational Assistance Partnership (LEAP) and Supplemental LEAP (SLEAP).

***Through 2009-10, most Stafford Loans were made through the Federal Family Education Loan program. Beginning in 2010-11, all Stafford loans are made through the Direct Loan Program.

Unsubsidized loans and 15% was provided in the form of Direct PLUS loans made to parents. Due to limits on the amount of loans a student can receive through the need-based Direct Subsidized loan program, students may receive loans through both that program and the non-need-based Direct Unsubsidized loan program.

Higher Educational Aids Board (HEAB). The Higher Educational Aids Board is the primary state agency responsible for the management and oversight of the state's student financial aid system. As such, HEAB administers most state-funded student financial aid programs and the Minnesota-Wisconsin tuition reciprocity program. The Board is an independent policy making body composed of 11 members: the State Superintendent of Public Instruction; one member from each of the UW Board of Regents, the Wisconsin Technical College System (WTCS) Board, and a Board of Trustees of an independent college or university in this state; three financial aid administrators and three undergraduate students, including one each from an UW institution, Wisconsin technical college, and a private, nonprofit college or university in this state; and one member of the general public. Except for the

State Superintendent, all Board members are appointed by the Governor. Student members of HEAB serve two-year terms while nonstudent members serve staggered, three-year terms. HEAB has a staff of 11.0 full-time equivalent employees including an Executive Secretary who is appointed by the Governor.

HEAB awards most state-funded need-based grants based on a student's EFC as calculated by the federal Department of Education. Table 4 shows a history of funding for HEAB-administered need-based financial aid programs. Non-need-based grants awarded through the Wisconsin covenant scholars grant program are excluded from the amounts shown in the table.

In general, HEAB-administered aid programs are supported with state, general purpose revenue (GPR) dollars. Exceptions include the Indian student assistance grant program and the Wisconsin Grant for tribal college students, both of which are funded with tribal gaming revenues. In addition, the Wisconsin Grant for UW students was partially funding with program revenue (PR) transferred from the UW System's auxiliary enterprises appropriation in 2003-04, 2004-05, and

N.A. Not applicable

*Some Wisconsin Covenant grants are not awarded on the basis of need. The amounts shown on 2011-12, 2012-13, and 2013-14 exclude these non-need-based grants. Non-need-based grants totaled \$1,299,143 in 2013-14.

**Does not include federal Leveraging Educational Assistance Partnership (LEAP) Supplemental (SLEAP) monies.

2009-10 and fully funded with PR transferred from the UW systemwide tuition balance in 2013-14.

In addition to the need-based programs shown in Table 4, HEAB administers the academic excellence scholarship (AES) program and the technical excellence scholarship program, both of which provide merit-based scholarships, and three non-need-based loan programs. Table 5 shows 2013-14 program expenditures and the number of students receiving aid for all HEAB financial aid programs. The total expenditure amount shown in Table 5 differs from that shown in Table 4 for 2013-14 due to the inclusion of the non-need-based programs and non-need-based grants made through the Wisconsin covenant program.

University of Wisconsin System and Other State Agencies. The UW System currently administers seven state-funded financial aid programs and one state-funded loan repayment program. The three largest programs administered by the UW System are the Lawton minority undergraduate retention grant, the advanced oppor-

tunity program, and the tuition increase grant. In addition, the Department of Military Affairs, the Department of Public Instruction, the Department of Veterans Affairs, and the Division of Vocational Rehabilitation Services in the Department of Workforce Development each administer financial aid programs for select student groups.

Institutional Aid. Individual institutions provide need-based grants, scholarships, and need- and non-need-based loans and employment to enrolled students. Institutional financial aid programs are funded with moneys allocated by the institution and are separate from state and federal programs. In 2012-13, Wisconsin's independent colleges and universities provided \$208.0 million in institutional aid to their Wisconsin resident undergraduate students, including \$93.4 million in need-based grants, \$104.4 million in scholarships, \$1.4 million in need-based employment, \$2.7 million in non-need-based employment, and \$6.1 million in other forms of aid. Institutional aid is a particularly important source of financial aid for resident undergraduates attending private, nonprofit colleges and universities. At those institutions, institutional financial aid accounts for 40% of all financial aid for resident undergraduate students compared to 6% at UW institutions and less than 1% at the technical colleges. In addition, institutionally-funded need-based grants account for 64% of all need-based grants to resident undergraduate students at private, nonprofit colleges and universities.

UW institutions provided a total of \$45.9 million in institutional aid to resident undergraduate students in 2012-13. This amount included \$27.9 million in need-based grants, \$15.8 million in scholarships, \$1.2 million in matching AES moneys, and \$1.0 million in non-need-based loans. A signifi-

Teacher Education Loan	82	244,750	2,985
TOTAL	88,814	\$125,804,727	\$1,416

cant portion of the institutional financial aid provided by UW institutions is funded with revenues generated by differential tuitions at UW-Madison and UW-Eau Claire. In 2013-14, UW-Madison provided \$18.6 million and UW-Eau Claire provided \$3.0 million in need-based grants to resident and nonresident students using differential tuition revenues.

The technical colleges provided \$2.1 million in institutional aid to their students in 2012-13 including \$1.4 million in scholarships, \$362,600 in need-based grants, and \$301,900 in non-need-based employment.

Private Sources. Students may receive financial aid through private sources such as community organizations, church groups, alumni associations, and private banks. Due to the manner in which many of these funds are distributed, it is difficult to estimate the total amount of privately-funded financial aid awards.

The privately-funded Fund for Wisconsin Scholars (FWS) provides need-based grants to students who have graduated from Wisconsin public high schools and are enrolled in UW institutions or Wisconsin technical colleges. Students enrolled at two-year institutions are eligible to receive annual grants of up to \$1,800 while students enrolled in four-year institutions may receive annual grants of up to \$3,500. According to HEAB, grants totaling \$7,230,300 were provided to 2,839 UW students and a total of \$705,300 was provided to 554 technical college students through this program in 2012-13. These grants are awarded through the financial aid office of the institution that the student attends. FWS is endowed by a \$175 million gift from John and Tashia Morgridge made in December, 2007.

Financial Aid Programs

Financial aid may be provided in a number of

forms:

Grants are direct forms of financial aid that are usually provided on the basis of financial need and do not have to be repaid. In 2012-13, state, federal, institutional, and private grant programs accounted for 56.6% of need-based financial assistance to resident undergraduates.

Loans are financial aid that, in most cases, must be repaid. Loans made through state and federal programs generally offer lower interest rates than are available on the private market. Some loans can have their principal forgiven or repaid if the recipient adheres to certain conditions, such as becoming a teacher in an inner city school or a physician in a medically underserved area. In 2012-13, student loan programs accounted for 41.3% of need-based and 72.3% of non-need-based financial assistance for resident undergraduates. Loans through federal programs accounted for 99.9% of all need-based loans and 85.7% of all non-need-based loans.

Scholarships are grants that are awarded on some basis other than need such as academic merit; athletic, musical, or other talents; certain achievements; or status as a member of a particular group such as being from a certain city, belonging to a certain ethnic group, or being the member of a certain religious affiliation.

Remissions are awarded to students under certain conditions. Students who receive a remission are not charged some portion of tuition and the institution granting the remission forgoes that revenue.

Reciprocity agreements enable a student from one state to attend a public institution in another state without having to pay nonresident tuition. A reciprocity agreement between Minnesota and Wisconsin covers all public institutions in both states. In addition, individual technical colleges have reciprocity agreements with institutions located in Michigan, Illinois, and Iowa, and UW-Marinette also has a reciprocity agreement

with two community colleges located in Michigan. Additional information on reciprocity programs is provided in the Legislative Fiscal Bureau's informational paper entitled "Education and Income Tax Reciprocity Agreements."

Different financial aid programs accommodate a range of different policy objectives. Need-based grant programs are generally used to increase access and to help equalize participation in higher education across income levels. Merit-based aid, such as the academic excellence scholarship program in Wisconsin, encourages better high school performance and talent retention. Loans, primarily offered by the federal government, help students and families bridge the financial gap between present and future earnings. Other programs, such as nursing and teacher loans, target specific professions or student populations for grants or loans.

The following section provides descriptions of financial aid programs available to Wisconsin students. Unless otherwise indicated, program data is for Wisconsin resident undergraduate students attending college in this state.

Grant Programs

1. Pell Grant (Federal). The Pell grant program is the largest source of need-based grant aid for resident undergraduate students. In 2012-13, 53.7% of all need-based grant aid reported by HEAB was provided through the Pell grant program. In that year, 102,840 Wisconsin students received Pell grants totaling \$348.8 million with an average award of \$3,392.

Students who receive Pell grants tend to be from the neediest households. In 2012-13, nearly three-quarters of all Pell grant recipients came from families with annual incomes of less than \$30,000; 97% came from families with incomes of less than \$60,000. The Pell grant is intended to be the base upon which the student's financial aid package is built because, in general, students

eligible for Pell grants are eligible for other forms of aid. In recent years, the Pell grant program has been administered like an entitlement program in that all eligible students have received the full amount of the grant as determined by their cost of attendance, expected family contribution (EFC), and enrollment status.

In 2014-15, undergraduate students enrolled full-time with EFCs of less than \$5,158 are eligible to receive grants ranging from \$587 to \$5,730 annually. For students enrolled less than full-time, grants are reduced proportionately. To maintain eligibility for Pell grants, students must demonstrate satisfactory academic progress as defined by the institution attended.

Table 6 shows the number of resident students who received Pell grants in each of the past ten years and the average amount of those awards. Over that period of time, the number of Pell grant recipients increased by 72% and the average grant increased by 47%. The number of students receiving grants and the average award both increased significantly in 2009-10 and 2010-11 as the result of changes made to program under the 2009 federal American Recovery and Reinvestment Act (ARRA).

Table 6: Pell Grants

	Number of Recipients	Total Grants	Average Award
2003-04	59,757	\$137,658,111	\$2,304
2004-05	60,740	143,994,359	2,371
2005-06	57,999	135,477,306	2,336
2006-07	58,957	136,557,843	2,316
2007-08	63,081	151,970,601	2,410
2008-09	65,577	183,487,340	2,798
2009-10	86,353	292,167,595	3,383
2010-11	98,998	341,047,217	3,445
2011-12	103,088	345,110,952	3,348
2012-13	102,840	348,818,047	3,392

2. Wisconsin Grant (HEAB). Formerly known as the Wisconsin Higher Education Grant (WHEG) and Tuition Grant (TG) programs, the Wisconsin Grant program provides need-based grants to resident undergraduate students enrolled

at least half-time at UW institutions, Wisconsin technical colleges, private, nonprofit colleges and universities, and tribal colleges located in this state. Students are eligible to receive grants for up to 10 semesters. In 2013-14, 68,088 students received Wisconsin Grants totaling \$106.6 million across all four sectors. Table 7 shows the number of students who received Wisconsin Grants, the total amount of those grants, and the average grant by sector for 2004-05 through 2013-14.

By law, the minimum Wisconsin Grant that can be awarded is \$250 while the maximum grant awarded to UW, technical college, and tribal college students may not exceed \$3,150. There is no statutory maximum for Wisconsin Grants awarded to private, nonprofit college and university students. Actual minimum and maximum grants vary by sector and are approved annually by the HEAB Board. Table 8 shows the minimum and maximum Wisconsin Grants by sector for 2014-15.

Individual Wisconsin Grant amounts are calculated using formulas which are approved annually by HEAB. Statutes require that these formulas account for expected parental and student contributions and are consistent with nationally

Table 8: Minimum and Maximum Wisconsin Grant Awards by Sector, 2014-15

	Minimum	Maximum
Private, Nonprofit Colleges	\$1,000	\$2,900
UW System	764	2,324
Technical Colleges	500	1,084
Tribal Colleges	250	1,800

approved needs analysis methodology. HEAB approves a total of five formulas, one each for UW students, technical college students, and tribal colleges students, and two for private, nonprofit college and university students. Statutes require HEAB to use different formulas for dependent and independent students attending private, nonprofit colleges and universities. Under these formulas, dependent students receive larger grants than independent students. The formulas for Wisconsin Grants for private, nonprofit college and university students also include a calculation of the amount by which the student's tuition exceeds UW-Madison tuition. Applicants who attend institutions that charge higher tuition are eligible for larger awards.

The Wisconsin Grant program is funded through four appropriations, one each for UW students; private, nonprofit college and universities students; technical college students; and trib-

Table 7: Wisconsin Grants*

	UW System			Wisconsin Technical Colleges			Private, Nonprofit Colleges			Total
	Number of Students	Expenditures	Average Award	Number of Students	Expenditures	Average Award	Number of Students	Expenditures	Average Award

* Excludes WHEG-tribal, which awarded \$445,653 to 337 students in 2013-14.

** Wisconsin Grants were known as Wisconsin Higher Education Grants and Wisconsin Tuition Grants prior to the 2013-14 fiscal year.

al college students. Wisconsin Grants to technical college students and private, nonprofit college and university students are funded with state general purpose revenue (GPR) through sum certain appropriations. Wisconsin Grants to tribal college students, which totaled \$445,700 in 2013-14, are funded with tribal gaming revenues. Wisconsin Grants for UW System students are funded through a GPR sum sufficient appropriation linked to the average percentage increase in resident undergraduate tuition in the UW System. This link, which was established by 2001 Act 109 and modified by 2005 Act 25, has been suspended in each biennium since it was established. During the 2013-15 biennium, the link was suspended to allow the program to be funded with monies transferred from the UW's systemwide tuition revenue balance in 2013-14, and then level funded with GPR in 2014-15. In 2003-04, 2004-05, and 2009-10, the Wisconsin Grant program for UW System students (then known as the WHEG program) was partially funded with program revenue (PR) transferred from the UW System's auxiliary enterprises appropriation.

In administering the program, HEAB commits funds to more students than it can provide grants to with the amount of funding appropriated. The amount by which HEAB overawards Wisconsin Grant funding is based on the percentage of students expected to decline the grant. Initial awards to private, nonprofit college and university students are limited by statute to 122% of the amount appropriated.

Waitlists: In recent years, the number of students who have been eligible for Wisconsin Grants based on their financial need and the approved formulas has exceeded the number of grants that could be awarded using the funding provided. Students who are eligible for Wisconsin Grants but cannot be given a grant due to lack of funds are placed on a waitlist. In 2013-14, 3,581 UW students, 37,844 technical college students, 1,136 private, nonprofit college and university students, and 572 tribal college students

were eligible for Wisconsin Grants based on their EFCs but did not receive grants due to insufficient funds. The waitlists for the Wisconsin Grants programs for technical college, private, nonprofit college and university, and tribal college students include financial aid applicants who are eligible for a Wisconsin Grant based on their EFC and listed either a technical college, private, nonprofit college or university, or tribal college first on their FAFSA. The waitlist for the Wisconsin Grant program for UW students includes students who are eligible for a grant based on their EFC and who are enrolled in a UW institution.

3. Supplemental Educational Opportunity Grant (Federal). The Supplemental Educational Opportunity Grant (SEOG) program provides need-based grants of up to \$4,000 per year, or up to \$4,400 if the student is participating in an approved study abroad program, to undergraduate students with the lowest EFCs, with priority given to Pell Grant recipients. SEOG is a campus-based program and funds are allocated to participating institutions based on the amount received by the institution in 1999. Additional funds, when available, are allocated based on the need of the students enrolled in the institution. The SEOG program is administered by financial aid officers at each institution and awards are based on student financial need and the availability of funds. In 2012-13, SEOG awards of \$14.2 million were provided to 24,355 Wisconsin students, for an average of \$581 per grant.

4. Ben R. Lawton Minority Undergraduate Grant (UW System). Under this program, awards are made to resident minority undergraduates, excluding freshmen, enrolled full-time at UW institutions. (Minnesota reciprocity students were also eligible for Lawton grants through the 2012-13 academic year. Minnesota students who previously received Lawton grants are eligible to receive grants through 2015-16.) Since freshmen are not eligible for Lawton grants, this is a retention, rather than a recruitment, program. By stat-

ute, a minority student is defined as a student who is African American, Native American, Hispanic, or from Cambodia, Laos, or Vietnam and admitted to the U.S. after December 31, 1975. Awards are based on financial need with a maximum grant of \$4,000 a year for up to eight semesters. Lawton grants are provided as "last dollar" grants, which means that they are awarded after all other grant aid for which the student is eligible has been determined.

In 2013-14, 3,347 students received a total of \$6.8 million through the Lawton program averaging \$2,031 per grant. Funding for the Lawton program is allocated annually by the Board of Regents from the UW System's GPR block grant. Prior to 2011-12, the Lawton program was funded through a separate appropriation under the UW System.

5. Tuition Increase Grants (UW System).

Created under 2009 Act 28, the tuition increase grant program provides need-based grants to students whose family income is less than \$60,000 and who do not receive WHEG grants. To be eligible for a grant, students must have attended UW System institutions in 2010-11 and maintained continuous enrollment. Grant amounts are determined by the Board of Regents and must correspond to increases in resident undergraduate tuition. Individual grants may not exceed the amount of unmet need. In 2013-14, 10,742 students received grants totaling \$6.3 million with an average grant of \$588. Funding for this program is allocated annually by the Board of Regents from the UW System's GPR block grant.

6. Division of Vocational Rehabilitation Training Grants (Department of Workforce Development). Individuals that have a physical or mental impairment that results in a substantial impediment to employment may be eligible for training grants awarded through the Division of Vocational Rehabilitation (DVR) in the Department of Workforce Development. Students are eligible for grants of up to \$5,000 for full-time

study or \$160 per credit for part-time study. The actual amount of training grant depends on the student's unmet need after other sources of financial aid have been applied. DVR training grants are funded with a combination of federal funds provided through the vocational rehabilitation grant and state matching funds. In 2012-13, DVR awarded training grants totaling \$6.2 million to 765 UW students, 1,372 technical college students, and 527 students enrolled in other colleges. More information regarding eligibility for the DVR training grant program and other services offered by DVR can be found in the Legislative Fiscal Bureau's informational paper entitled, "Vocational Rehabilitation."

7. Bureau of Indian Affairs (BIA) Grant (Federal).

Need-based grants are available to students who are members of a federally recognized tribe and who meet eligibility criteria established by the tribal affiliates. The appropriate tribal office selects eligible students and determines the amount of each award. Students are eligible for BIA grant for up to five years. In 2012-13, 1,229 students received BIA grants totaling \$5.8 million with an average award of \$4,720. Of these grant recipients, 414 were enrolled in Wisconsin technical colleges, 379 were enrolled in tribal colleges, 343 were enrolled in UW institutions, and 93 were enrolled in private colleges.

8. National Guard Tuition Grants (Military Affairs).

Wisconsin National Guard members are eligible to receive reimbursement grants equal to 100% of the actual tuition charged or 100% of the maximum resident undergraduate tuition rates charged by UW-Madison for a comparable number of credits, whichever amount is less. The grants may be received for up to eight semesters of full-time study, 120 credits of part-time study, or the equivalent thereof.

Eligibility for tuition grants is limited to Wisconsin National Guard members who: (a) are enlisted members or warrant officers; (b) do not

hold a bachelor's degree or its equivalent; (c) meet eligibility criteria established by the Department of Military Affairs; and (d) are not absent without leave from more than nine monthly training sessions. Additionally, in order to receive a reimbursement grant for tuition, an eligible guard member must: (a) achieve a minimum grade point average of 2.0 for the semester for which the tuition grant is applied; and (b) be an actively drilling guard member in good standing with the National Guard.

Reimbursement of tuition may be obtained by National Guard members who were enrolled at any accredited institution of higher education in Wisconsin or an out-of-state institution that has a reciprocity agreement with this state. Guard members seeking reimbursement must apply for the grant within 90 days after the completion date of the course. No National Guard member may receive a reimbursement grant under this program in any semester in which the person also receives a grant under the veterans tuition and fee reimbursement grant program.

In 2013-14, grants totaling \$5.6 million GPR were awarded to 2,178 National Guard members. The average grant awarded in that year was \$2,581.

9. Talent Incentive Grant Program (HEAB). This program (known as "TIP") is intended to enhance educational opportunities and encourage attendance in postsecondary educational institutions. These grants are restricted to the most needy and educationally disadvantaged students selected by the staff of the Wisconsin Educational Opportunity Program (WEOP) in the Department of Public Instruction and institutional financial aid officers. Through the 2010-11 year, TIP was supported by state general fund monies and federal funds through the Leveraging Educational Assistance Partnership (LEAP) Program and the Special Leveraging Educational Assistance Partnership (SLEAP) Program. The LEAP and SLEAP programs were eliminated beginning in the 2011-12 year which reduced total funding for the TIP program by approximately \$1.5 million. (Federal funding for the program varied from year to year.) Total TIP expenditures in 2013-14 were \$4.8 million GPR.

Only students receiving TIP awards as freshmen are eligible to receive awards as upperclassmen. Students may receive TIP awards for up to 10 semesters within the first six years after the initial grant was awarded. Freshmen TIP awards are made by financial aid officers and WEOP counselors; HEAB determines the awards for those who continue to enroll as upperclass-

Table 9: Talent Incentive Grant Program*

	UW System			Wisconsin Tech. Colleges			Private Colleges		
	Number of Students	Expenditures	Average Award	Number of Students	Expenditures	Average Award	Number of Students	Expenditures	Average Award
2004-05	2,293	\$2,979,541	\$1,299	1,435	\$1,707,479	\$1,190	1,030	\$1,404,122	\$1,363
2005-06	2,244	2,896,636	1,291	1,492	1,723,192	1,155	993	1,342,824	1,352

2013-14	1,699	2,553,664	1,503	761	995,254	1,308	691	1,083,071	1,567

*Includes both state funds and federal state student incentive grant monies. Excludes grants to students enrolled in tribal colleges.

men. Unlike other financial aid programs, TIP funding is guaranteed for continuing upperclassmen, thus obligating HEAB to four years of support once an initial award is made.

Students may be awarded both a maximum TIP award as well as a maximum Wisconsin Grant award. Freshmen may receive TIP awards of \$600 to \$1,800 while the maximum award for upperclassmen varies from year to year depending on the number of eligible students and, in previous years, the amount of federal funds received. In 2014-15, the maximum award was \$1,150. Table 9 shows TIP expenditure levels for the UW System, WTCS, and private college sectors from 2004-05 through 2013-14. As shown in the table, the number of students receiving TIP awards decreased after the federal funding was eliminated in 2011-12.

10. Study Abroad Grants (UW System). In 2013-14, grants totaling \$960,900 were provided to 762 students through this GPR-funded program. Although statutes do not specify how grants shall be awarded, the UW System administers this program as a need-based grant program with eligibility limited to Wisconsin resident undergraduates. Funding for these grants is allocated annually by the Board of Regents from the UW System's GPR block grant. Prior to 2011-12, these grants were funded through a separate appropriation under the UW System.

11. Minority Undergraduate Retention Grant (MURG) (HEAB). Similar to the Lawton program, the MURG program provides need-based grants to minority resident undergraduate students enrolled at least half-time in Wisconsin technical colleges, tribal colleges, or private, nonprofit postsecondary institutions in the state. Like the Lawton program, this is a retention, rather than a recruitment, program and the same definition of "minority" is used for both programs. Sophomores, juniors, and seniors are eligible for grants of up to \$2,500 a year for up to eight semesters. HEAB allocates half of all funds

to the technical colleges and half to private institutions and tribal colleges.

In 2013-14, \$400,200 was awarded to 557 technical college students with an average award of \$718. A total of 320 students attending private colleges or tribal colleges received \$409,500 with an average award of \$1,280.

12. Indian Student Assistance Grant (HEAB). These funds are awarded to residents who are at least one-quarter Native American or are recognized as a member of a tribe by the appropriate tribal government. Full- and part-time undergraduate and graduate students who attend accredited institutions of higher education in this state are eligible for financial assistance. Grants are based on financial need and may be received for a total of five years. The program is funded by tribal gaming revenues. In 2013-14, 742 students received grants totaling \$684,800. Of these students, 230 enrolled at Wisconsin tribal colleges, 230 enrolled at UW institutions, 202 enrolled at Wisconsin technical colleges, 78 enrolled in private, non-profit institutions, and two enrolled in a private, for-profit institution. The average grant was \$923 in that year.

13. Veterans Tuition and Fee Reimbursement Grants (Veterans Affairs). This program provides reimbursement of up to 100% of the cost of an eligible veteran's undergraduate tuition and fees or high school tuition or program costs, less any other grants, scholarships, or remissions received, up to the amount of resident undergraduate tuition at UW-Madison. A separate program, described later in this paper, provides tuition remissions to eligible veterans attending UW System and Wisconsin Technical College System institutions. The veterans tuition and fee reimbursement grants apply only to the unremitted portion of tuition and fees at those institutions. The veteran may enroll on a full-time or part-time basis at any UW institution, Wisconsin technical college, approved private postsecondary institution, public or private high

school, or similar institution that has a reciprocity agreement with Wisconsin. Part-time students may also be reimbursed for courses taken at out-of-state institutions if the course is not offered within 50 miles of the veteran's residence and the institution is within 50 miles of the state boundary or if a correspondence course is not offered in this state.

Veterans are eligible for reimbursement based on their length of service. Veterans that were on active duty for at least 90 days may be reimbursed for up to 30 credits or two semesters; veterans with at least 181 days of active duty service are eligible for up to 60 credits or four semesters; and veterans with at least 731 days of active duty service are eligible for up to 120 credits or eight semesters.

Veterans are eligible for full tuition and fee reimbursement for full-time study only for credits begun prior to their 10-year anniversary of their separation from active duty. After the 10-year delimiting date, full-time students may be reimbursed for no more than 11 credits per semester and 60 credits total. Up to 60 credits of part-time study may be reimbursed with no time limits.

Eligibility is restricted to veterans with incomes of \$50,000 or less (plus \$1,000 for each dependent in excess of two). Veterans are not eligible for reimbursement if they are eligible for tuition assistance from the U.S. Department of Defense, are eligible for National Guard tuition reimbursement, or have an undergraduate degree. Reimbursement is provided upon successful completion of a semester. Veterans may not receive reimbursement for semesters in which the veterans failed to achieve at least a 2.0 grade point average. Applications for reimbursement must be received by DVA within 60 days following the end of the semester for which reimbursement is sought.

In 2013-14, 114 tuition and fee reimbursement grants were awarded, totaling \$456,000 and

averaging \$4,000. Veterans tuition and fee reimbursement grants are funded with moneys from the veterans trust fund.

14. Teacher Education Assistance for College and Higher Education (TEACH) Grant (Federal). Beginning in 2008-09, the TEACH grant program provides grants of up to \$4,000 per year to students who intend to teach in a high-needs field in a public or private elementary or secondary school that serves low-income students. If grant recipients do not fulfill the obligations of the program, the total amount of TEACH grants received is converted into Direct Unsubsidized Loans. In 2013-14, 57 resident and nonresident UW students received TEACH grants totaling \$180,300 and 94 resident and nonresident students enrolled in private, non-profit colleges and universities located in this state received TEACH grants totaling \$252,200.

15. Nelson Institute for Environmental Studies (UW System). Created under 2009 Act 28, this program provides need-based grants to students who are members of underrepresented groups and who are enrolled in a program leading to a certificate or a baccalaureate degree from the Nelson Institution for Environmental Studies at UW-Madison. In 2013-14, 40 students received grants totaling \$199,500. The program is funded with \$100,000 of income and interest transferred from the normal school fund, which is a segregated fund, and institutional funds.

16. Handicapped Student Grant (HEAB). Under this program, Wisconsin residents who have a severe or profound hearing or visual impairment and are enrolled as undergraduates at an in-state or eligible out-of-state public or private, nonprofit postsecondary institution are eligible for financial assistance. Eligible out-of-state institutions include Rochester Institute of Technology (NY), Gallaudet College (DC), St. Paul Technical and Vocational Institute (MN), St. Mary's Junior College (MN), California State University-Northridge National Center on Deaf-

ness, and Northern Illinois University. All awards are based on financial need. Students are eligible for a maximum grant of \$1,800 a year for up to 10 semesters in addition to any grants received under the Wisconsin Grant program. Additional costs such as special equipment and materials are included along with expenses covered in the standard student budget.

In 2013-14, 58 hearing or visually impaired students received a total of \$89,700 under this program with awards averaging \$1,546. Most award recipients attended a UW System institution (31) or a Wisconsin technical college (16). Nine students enrolled in private, non-profit institutions located in Wisconsin and two students enrolled in out-of-state institutions.

17. Advanced Opportunity Program (UW System). The AOP program provides grants to minority and economically disadvantaged graduate students enrolled at UW institutions. In 2013-14, 63% of the grants were provided to students belonging to underrepresented minority groups. Eligibility requirements vary by campus but are primarily based on financial need and academic performance. This is the only state-funded financial aid program that provides funds to nonresident students who are not covered by the Minnesota-Wisconsin Higher Education Reciprocity Agreement. There are no statutory limits on the grant amount or number of eligible semesters.

In 2013-14, 707 students received AOP awards totaling \$6,625,900. Of this amount, \$5,685,200 was awarded in the form of grants; 455 residents received grants averaging \$5,963 and 252 nonresidents received grants averaging \$11,794. The UW treats AOP as a fellowship, rather than a grant program, thus making AOP recipients eligible for fringe benefits, such as health insurance. A total of \$940,700 of AOP funding was used to fund fringe benefit costs associated with AOP recipients. Because nonresident AOP recipients also receive tuition remis-

sions, the value of these AOP awards to nonresidents is considerably higher than the amount of the grant and fringe benefits. Funding for AOP is allocated annually by the Board of Regents from the UW System's GPR block grant. Prior to 2011-12, AOP was funded through a separate appropriation under the UW System.

Federal Loan Programs

1. Direct Subsidized Loans (Federal). The Direct Subsidized Loan program is a federal loan program that provides low-interest loans to undergraduate students who are enrolled at least half-time and who have demonstrated financial need. Students may borrow up to \$3,500 in the first year, \$4,500 in the second year, and \$5,500 in subsequent years up to a maximum of \$23,000. Beginning on July 1, 2013, new borrowers are only eligible for Direct Subsidized Loans for a period of time equal to 150% of the length of the borrower's program. Under this new rule, students pursuing four-year bachelor's degrees would be eligible for Direct Subsidized Loans for a period of up to six years while students pursuing a two-year associate's degree would be eligible for these loans for a period of up to three years.

Direct Subsidized loans are subject to a fixed interest rate, which is set at 4.66% for loans disbursed from July 1, 2014, to June 30, 2015. In addition to these interest rates, borrowers are charged a loan fee equal to 1.07% of the amount of the loan. This fee is deducted from each disbursement. Borrowers begin repayment six months after leaving school or dropping below half-time. Under the subsidized loan program, the government pays the interest on the loan while the student is enrolled at least half-time, during the six months before repayment begins, and during deferment except that borrowers are responsible for interest accrued during the six months before repayment begins for loans disbursed between July 1, 2012, and July 1, 2014. In 2012-13, 124,378 students received direct subsidized loans

averaging \$3,586, for a total value of \$446.0 million.

Direct Subsidized Loan Program borrowers may choose to repay their loans through one of several repayment plans, including: (1) the standard plan, which offers fixed payments over up to ten years; (2) the graduated plan, which offers increasing payments over 10 years; (3) the extended plan, which offers fixed or graduated payments over up to 25 years; (4) the income-based plan, which allows the borrower to pay 15% of discretionary income for up to 25 years; (5) the pay as you earn plan, which allows the borrower to pay 10% of discretionary income for up to 20 years; and (6) the income-contingent plan, which offers payments based on income, family size, and loan amount for up to 25 years. Borrowers must show partial financial hardship to be eligible for the income-based and pay as you earn plans. Under the income-based, pay as you earn, and income-contingent plans, the balance of the loan is forgiven at the end of the repayment period.

Loan repayments may be deferred up to three years in the event of economic hardship or if the borrower is unable to find full-time employment. In addition, loan repayments may be deferred for active military personnel during a war, military operation, or national emergency and for up to 13 months following qualifying active military service for National Guard members and other reservists who were activated while enrolled or within six months of being enrolled at least half-time. Loans payments may also be deferred while a student participates in an approved graduate fellowship program or rehabilitation training program in the case of disability.

Loans may be discharged if the school in which the student enrolls closes before the student completes his or her program or in the event of the death or total and permanent disability of the borrower. Loan forgiveness is offered to certain teachers and public service employees.

Teachers who have worked for five consecutive years in a low-income school may have up to \$5,000 of their loans forgiven or \$17,500 if the teacher is a secondary mathematics, secondary science, or special education teacher. In addition, public service employees may have the balance of their loans forgiven after 120 on-time monthly payments.

Prior to the 2010-11 academic year, most federal student loans, including subsidized loans, unsubsidized loans, and PLUS loans were made through the Federal Family Education Loan (FFEL) program. Loans made through the FFEL program were made by a private lender, insured by a guarantee agency, such as the Great Lakes Higher Education Corporation (GLHEC) in Wisconsin, and reinsured by the federal government. Beginning in the 2010-11 academic year, all subsidized, unsubsidized, and PLUS loans are made through the Direct Loan program. Direct loans are made by the U.S. Department of Education and delivered through the school.

2. Direct Unsubsidized Loans (Federal).

The Direct Unsubsidized Loan program provides low-interest loans to undergraduate and graduate students who are enrolled at least half-time in a degree or certificate program. Unlike the Direct Subsidized Loan program, students do not need to demonstrate financial need to be eligible for Direct Unsubsidized Loans. The amount a student may borrow is determined by the institution he or she attends but may not exceed maximum loan amounts established by federal law. For dependent undergraduate students, these maximums are \$5,500 in the first year, \$6,500 in the second year, and \$7,500 in subsequent years, up to a cumulative maximum of \$31,000. Independent undergraduate students may borrow up to \$9,500 in the first year, \$10,500 in the second year, and \$12,500 in subsequent years, up to a cumulative maximum of \$57,500. Amounts borrowed through the Direct Subsidized Loan program are counted against these limits. Graduate and professional students may borrow up to \$20,500 per

year. In total, graduate and professional students, other than those in certain health profession programs, may borrow up to a maximum of \$138,500. Any amount borrowed by a graduate or professional student while an undergraduate is counted against these limits. In 2012-13, 98,820 undergraduate students received Direct Unsubsidized Loans averaging \$3,392, for a total value of \$335.2 million.

Like Direct Subsidized Loans, Direct Unsubsidized Stafford loans are subject to a fixed interest rate, which is set at 4.66% for undergraduate students and 6.21% for graduate and professional students for loans disbursed from July 1, 2014, to June 30, 2015. Borrowers are also charged a loan fee equal to 1.07% of the loan. Borrowers begin repayment six months after leaving school or dropping below half-time. Unlike Direct Subsidized loans, the borrower is responsible for any interest that accrues while the student is enrolled, before repayment begins, and while the loan is in deferment.

Direct Unsubsidized Loan borrowers may select from the same six repayment plans available to borrowers under the Direct Subsidized Loan program. In addition, Direct Unsubsidized loans may be deferred, discharged, or forgiven under the same conditions as Direct Subsidized student loans.

3. Perkins Loan (Federal). This is a campus-based program that provides loans at 5% interest to undergraduate and graduate students with exceptional financial need to help pay for educational costs. Each participating educational institution is required to match federal funds with an amount equal to one-third of the federal contribution. Repaid loans become part of a revolving account from which new loans are made. With the exception of students enrolled in programs leading to a professional credential as a teacher, students do not have to be enrolled at least half-time to be eligible for Perkins loans. Awards are based on financial need, the availa-

bility of funds, and the amount of other aid a student receives. In 2012-13, a total of \$26.9 million was provided to 14,032 students, with loans averaging \$1,917.

The maximum amount that may be borrowed under the Perkins Loan program is \$5,500 annually for undergraduates, with a maximum total of \$27,500 for undergraduate study, and \$8,000 per year for graduate students, with a maximum total of \$60,000 including any amounts borrowed as an undergraduate. Students participating in study abroad programs whose costs exceed the institution's normal cost of attendance may be eligible for larger loan amounts. Interest does not accrue while the student is enrolled at least half-time or in deferment. Repayment begins nine months after the student has completed his or her studies or after the student has been enrolled less than half-time. Students have up to 10 years to repay Perkins loans.

Federal law provides that individuals whose employment meets certain requirements may have up to 100% of their Perkins loans forgiven. These individuals include: (a) certain special education teachers, teachers of math, science, foreign languages, bilingual education, and other fields designated as shortage areas, and teachers working for educational service agencies serving children with disabilities or low-income families; (b) librarians with master's degrees working in high-poverty schools or public libraries located in high-poverty areas; (c) staff members in the education component of a Head Start program; (d) staff members of state-licensed pre-kindergarten or child care programs; (e) providers of early intervention services for the disabled; (f) employees of public or nonprofit child or family services agencies providing services to high-risk children and their families in low-income areas; (g) speech pathologists with master's degrees employed at high-poverty schools; (h) attorneys employed by federal public or community defender organizations; (i) faculty members of tribal colleges and universities; (j) nurses and medical

technicians; (k) law enforcement and corrections officers and firefighters; and (L) members of the armed forces who served in a hostile fire or imminent danger pay area. In most cases, the borrower must be employed full-time in a qualifying occupation to be eligible for Perkins loan forgiveness. In some cases, only employment or service after August 13, 2008, can be credited towards loan forgiveness. In general, loans are forgiven at a rate of 15% for each of the first two years, 20% for each of the third and fourth years, and 30% in the fifth year. For Head Start, prekindergarten, and child care staff members, loans are forgiven at a rate of 15% a year for the first six years and 10% in the seventh year. In addition, Peace Corps and VISTA volunteers may have up to 70% of their loans forgiven at a rate of 15% for each of the first two years and 20% for each of the third and fourth years.

Perkins loans may be deferred or canceled under the same conditions as Direct Subsidized and Unsubsidized loans. In addition, Perkins loans may also be deferred during a period of service qualifying for loan forgiveness (described above).

4. Direct PLUS Loans for Parents (Federal). Through this non-need-based loan program, the U.S. Department of Education makes loans to the parents of dependent undergraduate students who are enrolled at least half-time. PLUS loans can only help finance educational costs and the amount of the loan cannot exceed the difference between the student expense budget and all other financial aid.

PLUS loans are subject to a fixed rate which is set at 7.21% for loans disbursed from July 1, 2014, to June 30, 2015. The loans also carry a 4.29% fee which is deducted from each disbursement. Parents may defer payments while the student is enrolled at least half-time and for up to six months after the student ceases to be enrolled at least half-time; however, interest accrues during these periods and is added to the principal of

the loan.

Parents may choose to repay PLUS loans through one of three repayment plans: (1) the standard plan, which offers fixed payments over up to ten years; (2) the extended plan, which offers fixed payments over up to 25 years; and (3) the graduated plan, which offers increasing payments over ten years. Loan repayments may be deferred under the same conditions as Direct Subsidized and Direct Unsubsidized Loans. The loan may be cancelled if the school in which the student enrolls closes before the student completes his or her program, the borrower dies or becomes totally and permanently disabled, or the student for whom the parent borrowed dies.

5. Direct PLUS Loans for Graduate and Professional Degree Students (Federal). This program provides loans to graduate and professional degree students who are enrolled at least half time. The terms and conditions of this program are the same as for the Direct PLUS loans for parents program except that: (1) loan repayments are automatically deferred while the student is enrolled at least half-time and six months after the student ceases to be enrolled full-time; (2) borrowers may opt to repay their loan under the income-based, the pay as you earn, and the income-contingent repayment plans; and (3) public service employees may have the balance of their Direct PLUS loans forgiven after 120 on-time monthly payments.

6. Consolidation Loan (Federal). This program allows the borrower to replace Direct, FFEL, Perkins, PLUS loans made to students, and certain other federal loans with one loan having a lower monthly payment than the total monthly payments on the original loans. Parents may also be able to consolidate PLUS loans. Consolidation loans give the borrower up to 30 years to repay loans which may reduce monthly payments but increase total costs. Interest rates on consolidation loans are fixed and equal to the weighted average of the interest rates on the orig-

inal loans, rounded up to the nearest 1/8%. Several different repayments plans are available to borrowers with consolidated loans. Borrowers who choose to consolidate their loans may not be eligible for interest rate discounts, principal rebates, and forgiveness programs offered by the programs through which the original loans were made.

State Loan Programs

1. Nursing Student Loan (HEAB). Created under 2001 Act 16, the nursing loan program provides need-based loans to Wisconsin residents who are enrolled at least half-time at an eligible in-state institution that prepares them to be licensed as registered (RN) or licensed practitioner (LPN) nurses. The maximum award per year is \$3,000 with an overall maximum of \$15,000. To be eligible for the program, students must agree to be employed as a licensed nurse in this state. Loans are forgiven at a rate of 25% for each of the first two years that the recipient is employed full-time as a nurse or nurse educator in Wisconsin. Forgiveness may be prorated for individuals working less than full-time. The balance remaining after forgiveness must be repaid at an interest rate not to exceed 5% annually. If the student does not practice nursing in Wisconsin or otherwise meet the eligibility criteria, the loan must be repaid at an interest rate not to exceed 5%. In 2013-14, 202 students received loans totaling \$444,000. Most recipients attended either a private, non-profit college or university (95) or a technical college (79). An additional 23 recipients attended UW institutions and five recipients attended tribal colleges. In 2014-15, \$445,500 GPR is budgeted for the nursing student loan program.

2. Teacher Education Loan Program (HEAB). This program provides loans to Wisconsin residents enrolled in the teacher education programs at the Milwaukee Teacher Education Center (MTEC). Loan recipients must agree to teach in a first-class city school system under

Chapter 119 of the statutes (Milwaukee Public Schools). For each year the borrower teaches in the eligible school district, 50% of the loan is forgiven. If the student does not teach in the eligible district, the loan must be repaid at an interest rate of 5%. For 2013-14, loans totaling \$244,800 were made to 82 students with an average loan of \$2,985. For 2014-15, \$272,200 GPR is appropriated for this program.

3. Minority Teacher Loan (HEAB). This program provides loans of up to \$2,500 per year with a maximum of \$5,000 to resident minority undergraduate students who: (1) are enrolled at least half-time at a UW institution or private, nonprofit postsecondary institution in Wisconsin; (2) are registered as juniors or seniors, or hold a bachelor's degree and are registered as special students; (3) are enrolled in programs leading to teacher licensure and are not currently licensed; (4) meet academic criteria specified by HEAB; and (5) agree to teach in a school district located in the state in which minority students constitute at least 29% of total enrollment or in a school district participating in the interdistrict pupil transfer (Chapter 220) program. The loan principal and interest is forgiven at a rate of 25% for each year the recipient teaches in an eligible school district. If the student does not teach in an eligible district, the loan, which bears a 5% interest rate, must be repaid with the funds deposited in the general fund.

For 2013-14, a total of \$159,100 was expended for 68 students, averaging \$2,340 per student. Of these students, 48 were enrolled at UW institutions and 20 were enrolled at private colleges. UW-Milwaukee, with 21 students, had the most participants. In 2014-15, \$259,500 GPR is appropriated for the program.

4. Loans for Teachers and Mobility Instructors of Visually Impaired Pupils (HEAB). This program provides loans of up to \$10,000 per year to defray the cost of tuition, fees, and expenses for students enrolled in a degree-granting

program that prepares them to be licensed as teachers of visually impaired pupils or as orientation and mobility instructors. A student may receive a maximum of \$40,000 in loans under the program. Loan recipients must be Wisconsin residents who are enrolled at least half-time at an accredited institution of higher education in Wisconsin, Minnesota, Iowa, Illinois, or Michigan. HEAB is required, to the extent possible, to give preference to persons who are likely to return to Wisconsin to work with visually impaired persons.

Once a borrower completes the degree program, the loans are forgiven if the borrower is licensed and employed as a teacher of visually impaired pupils or as an orientation and mobility instructor by a Wisconsin school district, the Wisconsin Center for the Blind and Visually Impaired, or a cooperative educational service agency. For loan recipients who are employed full-time, HEAB is required to forgive 25% of the principal and interest on the loan for each of the first and second years of employment and 50% of the principal and interest amount for the third year. For persons who are employed less than full-time, HEAB may forgive loans on a prorated basis.

For 2013-14, a total of \$82,000 was expended for 10 students, averaging \$8,200 per student. Of these students, nine were enrolled at Silver Lake College in Wisconsin and one was enrolled at Western Michigan University. For 2014-15, \$99,000 GPR is appropriated for the program.

6. Personal Loan Program (Veterans Affairs). Under the personal loan program, eligible veterans may receive a low-interest loan of up to \$25,000 for up to 10 years for a variety of purposes, including the education of a veteran, spouse, or child. The Department placed an indefinite moratorium on the personal loan program on December 1, 2011. The Department cited its inability to compete with low commercial interest rates and decreased demand as the reason

for the moratorium. No new personal loans were approved in the 2011-13 and 2013-15 biennia.

Scholarship Programs

Generally, scholarships are financial aid funds that are awarded on a basis other than need. Scholarship money may come from a variety of governmental, institutional, and private sources.

1. Wisconsin Covenant (HEAB): The Wisconsin covenant program provides grants to students who have been designated as Wisconsin covenant scholars and who are enrolled in UW institutions, technical colleges, private, nonprofit colleges and universities, and tribal colleges located in this state. To be designated as a Wisconsin covenant scholar, a student must have signed the Wisconsin covenant pledge as an eighth grader and fulfilled the pledge by his or her senior year of high school. Students were first able to sign the Wisconsin covenant pledge in spring, 2007, and the first covenant scholars enrolled in higher education in 2011-12. In 2013-14, 12,569 students received Wisconsin covenant grants totaling \$9.0 million.

Under 2011 Act 32, no student may sign the pledge after September 30, 2011. Students who signed the pledge in 2011 will be eligible for Wisconsin covenant grants beginning in 2015-16. The grant program is scheduled to end in 2020-21 when no students will be eligible for grants through the program.

To be designated a Wisconsin covenant scholar, a student must: (1) have enrolled in the program by September 30th of the student's freshman year in high school; (2) receive a diploma from a Wisconsin high school; (3) maintain a B average while in high school; (4) complete a course of study that prepared the student for enrollment in a college or university and apply and do all that is necessary to gain admission to an eligible institution; (4) demonstrate good

citizenship; (5) submit a FAFSA by April 1 of the student's senior year; and (6) complete the Wisconsin covenant scholar verification form by April 1 of the student's senior year of high school.

Students may receive grants for up to eight semesters during the first five years after high school graduation. To maintain eligibility, students must: (1) enroll in at least six credits at an eligible institution; (2) maintain acceptable academic standards as determined by the institution attended; (3) file the FAFSA annually; and (4) not be convicted of a felony or a misdemeanor involving bodily harm or a dangerous weapon.

Unlike other state-funded financial aid programs, Wisconsin covenant grants are awarded based on a combination of merit and financial need. To receive a Wisconsin covenant scholars grant, a student must be designated as a Wisconsin covenant scholar which is based primarily on his or her academic performance; however, Wisconsin covenant scholars grants are awarded to designated Wisconsin covenant scholars based on each student's need as measured by his or her EFC. Table 10 shows grant amounts provided to Wisconsin covenant scholars by EFC as established by statute and administrative rule. Of the 12,569 students who received Wisconsin covenant scholars grants in 2013-14, 57% received need-based grants ranging from \$500 to \$1,500.

Those grants totaled \$7.7 million. All other recipients received non-need-based grants of \$125 or \$250 depending on whether the student was enrolled on a full-time or part-time basis. Grants to students with EFCs greater than \$12,000 are considered to be non-need-based. Grants to these students totaled \$1.3 million in 2013-14.

Table 10 also shows the amount of grants provided by the Wisconsin Covenant Foundation. The Wisconsin Covenant Foundation is a non-profit corporation that was initially established to raise funds to provide financial aid to low-income students who fulfill the Wisconsin covenant pledge. In November, 2007, the Great Lakes Higher Education Corporation and Affiliates, which guarantees and services loans made to students enrolled in Wisconsin postsecondary institutions, pledged \$40 million to endow the Wisconsin Covenant Foundation. In 2013-14, 3,288 Wisconsin covenant scholars received additional need-based grants totaling \$3.7 million through the Wisconsin Covenant Foundation.

2. Academic Excellence Higher Education Scholarships (HEAB). This program provides scholarships to selected 12th grade students who have the highest grade point averages (GPA) in each public, private, and tribal high school in the state. The number of scholarships for which each high school is eligible is based on total student enrollment. One scholarship is awarded to

Table 10: 2014-15 Wisconsin Covenant Grant Amounts

Student EFC	Wisconsin Covenant Scholars Grant	Wisconsin Covenant Foundation Grant	Total
Enrolled Full-Time			
Equal to \$0	\$1,000	\$1,500	\$2,500
Greater than \$0, not more than \$3,499	1,500	1,000	2,500
Greater than \$3,499, not more than \$11,999	1,000	0	1,000
Greater than \$12,000	250	0	250
Enrolled Part-Time			
Equal to \$0	\$750	\$1,500	\$2,250
Greater than \$0, not more than \$3,499	750	1,500	2,250
Greater than \$3,499, not more than \$11,999	500	0	500
Greater than \$12,000	125	0	125

each high school with an enrollment of between 80 and 499 students. If a high school has an enrollment of 500 students or more, scholarships are awarded as follows: 500-999 students, two scholarships; 1,000-1,499, three scholarships; 1,500-1,999, four scholarships; 2,000-2,499, five scholarships; and over 2,500, six scholarships.

The HEAB Secretary may award up to 10 scholarships to students who attend high schools with total enrollments of less than 80 students. The faculty of each of these high schools is required to name the 12th grade student or students with the highest GPAs, as normally calculated by that high school, as eligible to receive a scholarship. Under HEAB administrative rule, the 10 students with the highest GPAs are awarded scholarships. The HEAB Secretary also designates one senior attending the Wisconsin Center for the Blind and Visually Impaired and one senior attending the Wisconsin Educational Services for the Deaf and Hard of Hearing as scholars.

Scholars receive a maximum of \$2,250 per year of which half is funded by the state through a GPR sum sufficient appropriation and half is funded by the institution. Tuition and fees in excess of \$2,250 are the responsibility of the student.

In order to receive a scholarship, a student must be enrolled full-time at a participating UW institution, Wisconsin technical college, or private, nonprofit postsecondary institution in the state by September 30 of the academic year following the year in which the student graduated from high school. If the student who is initially selected does not use the scholarship by September 30 following high school graduation, the scholarship may be awarded to an alternate. Students with the same GPA as the originally designated scholar or, if there are no remaining seniors with the same GPA, students with the next highest GPAs of 3.8 or greater, may be named as alternates. In 2013-14, 230 alternates received scholarships.

For each year the student is enrolled full-time, he or she must maintain a cumulative GPA of at least 3.0 and make satisfactory progress toward a vocational diploma or an associate or bachelor degree. A student may lose and then regain program eligibility as his or her cumulative GPA fluctuates. No student is eligible for a scholarship for more than four years at a UW or private, nonprofit postsecondary institution or for more than three years at a Wisconsin technical college.

In 2013-14, a total of 2,931 academic excellence scholars were enrolled in Wisconsin postsecondary institutions: 769 freshmen, 716 sophomores, 748 juniors, and 698 seniors. The enrolled students represent approximately 88% of the 3,482 available scholarships with the remaining 12%, or 551 scholarships, going unused. The total value of the scholarships provided was \$6.0 million of which \$3.0 million was funded through HEAB. Table 11 shows the number of Academic Excellence Scholarship recipients by institution for the past four years.

3. Technical Education Scholarship (HEAB): 2013 Act 60 created a technical excellence higher education scholarship program to provide scholarships to high school seniors with the highest levels of proficiency in technical education subjects beginning in the 2015-16 academic year. Similar to the academic excellence scholarship (AES) program, the technical excellence scholarship (TES) program would provide scholarships of up to \$2,250 per year, half of which will be funded through a state GPR sum sufficient appropriation and half of which will be funded by the technical college in which the student enrolls.

School boards and private and tribal high school governing boards are required to designate scholars by February 25 of each year. School boards and public and tribal high school governing boards are required to develop criteria for determining the level of proficiency in technical education subjects of seniors enrolled in their

high schools. Following approval by the HEAB Board, these criteria can be used to designate seniors as scholars or scholarship alternates. The HEAB Secretary is required to develop criteria for determining the level of proficiency in technical education subjects of seniors enrolled in schools with enrollments of fewer than 80 students and of seniors enrolled in the schools for the Deaf and Hard of Hearing and for the Blind and Visually Impaired.

The number of seniors designated as scholars at an individual high school is based on the enrollment of the school using the same scheme used for the AES program. Similarly, the HEAB Secretary may designate up to 10 scholars from seniors nominated by schools with enrollments of less than 80 and one scholar each from the schools for the Deaf and Hard of Hearing and for the Blind and Visually Impaired.

To receive a scholarship, a student who has been designated as a scholar must enroll on a full-time basis in a participating Wisconsin technical college by September 30 of the academic year immediately following the student's senior year of high school. Scholars are eligible to receive the scholarship for up to 3 years. To remain eligible for the scholarship, a scholar must be enrolled full-time, maintain a grade point average of at least 3.0, and make satisfactory progress towards an associate's or bachelor's degree or a vocational diploma. Scholars do not need to maintain continuous enrollment to remain eligible for the scholarship. The first technical excellence scholarships will be awarded to high school seniors graduating in spring, 2015.

4. License Plate Scholarships (Department of Transportation and UW System). This program is funded with revenues generated by a \$20 annual fee charged to drivers who have a University of Wisconsin specialty license plate. Specialty plates are available for

each of the 13 four-year institutions and the revenues generated by each institution's plates are used to fund scholarships awarded by the chancellor. In 2013-14, 102 scholarships totaling \$178,300 were awarded through this program.

5. Sustainable Management Scholarship (UW-Extension). Created by 2009 Act 28, this program provides scholarships to students enrolled in the sustainable management degree program through UW-Extension. In 2013-14, scholarships totaling \$90,800 were provided to 34 students. This program is funded with income and interest transferred from the normal school fund, which is a segregated fund.

Remissions

Remissions are awarded to students under certain conditions. Students who receive a remission are not charged some portion of tuition and the institution granting the remission forgoes that revenue.

1. Tuition Remissions for Graduate Assistants, Fellows, and Instructional Academic Staff (UW System). Statutes permit the Board of Regents to grant tuition remissions to graduate students who are employed by the University as assistants or instructional academic staff with appointments of at least 33% and to graduate students who are fellows. In 2013-14, a total of 9,607 graduate assistants, instructional academic staff, and fellows received approximately \$109.1 million in remissions. Of these, 2,279 students were residents who received remissions totaling \$13.1 million. Of graduate students who received remissions under this provision, 80% were enrolled at UW-Madison and 14% attended UW-Milwaukee.

2. UW System Nonresident Tuition Remissions. Current law permits the Board of Regents to remit the nonresident portion of tuition for a number of students including: (1) needy and worthy students on the basis of merit; (2) stu-

dents who are deserving of relief due to extraordinary circumstances; and (3) needy and worthy foreign students and U.S. citizens not currently residing in the U.S. The value of these remissions is limited to the value of such remissions in 1970-71 adjusted for tuition increases since 1976-77. In 2013-14, 2,919 nonresident undergraduate students received remissions totaling \$14.0 million and 309 nonresident graduate students received remissions totaling \$2.6 million under these provisions.

3. Athletic Scholarships (UW System). The Regents may remit both resident and nonresident tuition as athletic scholarships. Currently, four UW institutions (Madison, Milwaukee, Green Bay, and Parkside) are in NCAA divisions that allow the granting of athletic scholarships. For 2013-14, these institutions granted remissions totaling \$10.4 million to 1,068 student athletes. The NCAA allows institutions to divide a scholarship among several athletes for all sports except football, men's and women's basketball, women's gymnastics, women's volleyball, and women's tennis.

4. Tuition Remissions for Veterans (UW System and WTCS). The UW System Board of Regents and technical college district boards must remit 100% of tuition and fees, less any amount paid under the federal Post-9/11 G.I. Bill, for up to 128 credits or eight semesters, whichever is longer, to eligible veterans. To qualify as a veteran eligible for this remission, a student must be verified by the Department of Veterans Affairs as: (a) being a resident of this state for the purpose of receiving benefits; (b) having been a resident of this state at the time of entry into the armed services or having resided in this state for at least five consecutive years immediately preceding the semester in which the student enrolls; and (c) having qualifying military service. Beginning on January 1, 2014, veterans have been required to maintain a cumulative grade point average of at least 2.0 to remain eligible for remissions. In 2013-14, the UW System provided

tuition and fee remissions totaling \$9.2 million to 2,079 veterans. Of this amount, \$2.5 million was remitted to veterans enrolled as graduate and professional students. The Wisconsin technical colleges provided remissions totaling \$3.5 million to 1,968 veterans in that year.

Beginning in the spring, 2010, semester, veterans who are eligible for benefits under the federal Post-9/11 G.I. Bill have been required to use those benefits before accessing state tuition and fee remissions. The federal Post-9/11 G.I. Bill provides education benefits, including the direct payment of tuition and fees, a monthly housing allowance, and an annual books and supplies stipend, to veterans who served at least 90 days of active duty (or 30 days in the case of a service-related disability) after September 10, 2001. Students are required to use Post-9/11 G.I. Bill benefits before receiving state tuition and fee remissions even if they are eligible for benefits under the Montgomery G.I. Bill or certain other federal education programs for veterans unless the student is eligible for 12 months or less of benefits under those programs. Under 2011 Act 32, credits that are wholly paid for with Post-9/11 G.I. Bill benefits do not count against the 128 credit limit on state remissions. In cases where Post-9/11 G.I. Bill benefits pay for a fraction of a credit and the remainder is remitted under state law, only the portion of the credit that is remitted is counted against the 128 credit limit.

Of the 2,079 UW students and 1,968 technical college students who received tuition remissions under state statute, Post-9/11 G.I. Bill education benefits paid a portion of tuition and fees for 635 UW students and 514 technical college students. An additional 1,908 UW students and 1,648 technical college students were eligible for remissions under state statute but had their tuition and fees wholly paid with Post-9/11 G.I. Bill benefits. Although these students did not receive remissions through the state program, they were eligible to receive reimbursement/supplemental payments (described below) from the institution

attended. In 2013-14, Post-9/11 G.I. Bill tuition and fee payments for veterans to UW institutions totaled \$14.8 million. The technical colleges received \$5.0 million in tuition and fee payments for veterans through the Post-9/11 G.I. Bill in that year. Payments from the Post-9/11 G.I. Bill program have reduced the amount of state tuition remissions to veterans which peaked in 2008-09. After declining during the 2009-11 biennium, state tuition remissions have increased in each of the most recent two years.

The Montgomery G.I. Bill provides a monthly stipend to veterans who are enrolled as students which can be used for tuition, books and supplies, and living expenses. Veterans whose stipend under the Montgomery G.I. Bill or certain other federal education programs would have exceeded the amount of the monthly housing allowance provided under the Post-9/11 G.I. Bill (adjusted to reflect the annual books and supplies stipend) are reimbursed by the institution attended for the difference in those benefits. In 2013-14, the UW System provided reimbursement/supplemental payments totaling \$1.9 million to 884 veterans and the Wisconsin technical colleges provided \$1.0 million to 462 veterans.

A GPR appropriation under the Higher Educational Aids Board (HEAB) has been provided to reimburse, in whole or in part, the UW Board of Regents and the Wisconsin technical college district boards for remissions provided to veterans, for remissions provided to the children and spouses of certain veterans (described in the following section), and for reimbursement/ supplemental payments made to veterans, children, and spouses. In 2013-14, the appropriation was set at \$6,496,700 and the UW Board of Regents received a reimbursement payment of \$4.7 million while the Wisconsin technical college district boards received reimbursements totaling \$1.7 million. This amount fully funded all reimbursement/supplemental payments made directly to veterans and reimbursed the institutions for 15.3% of tuition and fee remissions provided to

veterans, children, and spouses. Remissions costs beyond the amount reimbursed through the HEAB appropriation must be absorbed within the UW System's and the Wisconsin technical college district boards' budgets or funded through other revenues such as tuition charged to other students.

5. Tuition Remissions for Children and Spouses of Eligible Veterans (UW System and WTCS). The UW System Board of Regents and each technical college district board must remit 100% of tuition and fees, less any amount paid under the federal Post-9/11 G.I. Bill, to the spouse, unremarried surviving spouse, and children of eligible veterans. An eligible veteran is one who: (1) was a resident at the time of entry into the armed services; (2) served under honorable conditions; (3) either died on active duty, died on inactive duty for training purposes, died as the result of a service-related disability, or has been awarded at least a 30% service-related disability rating; and (4) was a resident of this state at the time of death or service-related disability.

Children and spouses may receive remissions for up to 128 credits or eight semesters, whichever is longer. The spouse, in the case of disability, or the unremarried surviving spouse, in the case of death, of an eligible veteran is eligible for this remission during the first 10 years after the receipt of the disability rating or the death of the eligible veteran or until 10 years after the youngest child the spouse had with the veteran reaches or would have reached 18 years of age. Children of eligible veterans may receive this remission as long as they are at least 17 years of age and not yet 26 years of age, regardless of when the eligible veteran died or received his or her disability rating. Beginning on January 1, 2014, students have been required to maintain a cumulative grade point average of at least 2.0 to remain eligible for remissions.

As with veterans, children and spouses who are eligible for benefits under the federal Post-

9/11 G.I. Bill have been required to use those benefits before accessing state tuition and fee remissions since the spring, 2010, semester. Children and spouses are also eligible for the reimbursement/supplemental payments described in the previous section.

In 2013-14, the UW System provided tuition and fees remissions totaling \$9.4 million to 1,396 students under this provision. In addition, the technical colleges remitted \$1.8 million in tuition and fees to 850 students. While tuition remissions for veterans peaked in 2008-09, remissions to the children and spouses of disabled and deceased veterans have increased in every year since 2005-06 when the UW System and the technical colleges were first required to grant them.

Of the 1,396 UW students and 850 technical college students who received tuition remissions under state statute, 23 UW students and four technical college students also received education benefits under the Post-9/11 G.I. Bill. An additional 208 UW students and 101 technical college students were eligible for remissions under state statute but had their tuition and fees wholly paid with Post-9/11 G.I. Bill benefits. In 2013-14, Post-9/11 G.I. Bill tuition and fee payments to UW institutions for children and spouses totaled \$1.3 million. The technical colleges received \$265,000 in tuition and fee payments for children and spouses through the Post-9/11 G.I. Bill in that year.

Table 12 shows the total amount of tuition and fee remissions to veterans, children, and spouses, the amount of reimbursement/supplemental payments made to veterans, children, and spouses, HEAB reimbursement payments to institutions, and the net cost of remissions to the UW institutions and Wisconsin technical colleges from 2005-06 to 2013-14. (The net cost of remissions to the institutions is the sum of the remissions and the reimbursement/supplemental payments less the HEAB reimbursement.) As shown in the table, total remissions to veterans, children,

Table 12: Tuition and Fee Remissions to Veterans, Children, and Spouses, Supplemental Payments, HEAB Reimbursements, and the Net Cost of Remissions to the Institutions, 2005-06 to 2013-14

	UW Institutions				Wisconsin Technical Colleges			
	Reimbursements/ Supplemental Remissions	Payments	HEAB Reimbursements	Net Cost to the Institutions	Reimbursements/ Supplemental Remissions	Payments	HEAB Reimbursements	Net Cost to the Institutions

2011-12	16,210,517	1,780,871	4,610,387	13,381,001	4,303,632	1,134,701	1,886,313	3,552,020
2012-13	17,419,741	1,829,550	4,608,037	14,641,254	4,939,497	1,100,802	1,888,663	4,151,636
2013-14	18,436,709	1,884,706	4,707,307	15,614,108	5,263,409	983,582	1,789,393	4,457,598

and spouses peaked in 2008-09, the year before students were required to access their federal Post-9/11 G.I. Bill benefits before receiving remissions under state statute. Total remissions declined during the 2009-11 biennium, but have increased in the 2012-13 and 2013-14 academic years. In 2013-14, remissions to veterans, children, and spouses cost UW institutions \$15.6 million in forgone tuition revenue and technical colleges \$4.5 million. Remissions costs beyond the amount reimbursed through the HEAB appropriation must be absorbed within the UW System's and the Wisconsin Technical College district boards' budgets or funded through other revenues such as increases in tuition charged to other students.

6. Tuition Remissions for Children and Spouses of Certain Protective Services Officers (UW System and WTCS). Current law requires UW and WTCS institutions to grant full remission of fees, including tuition and student segregated fees, to any resident student who is enrolled in a college parallel program or a program leading to a bachelor's degree, associate degree, or vocational diploma and who is the child or surviving spouse of a correctional officer, fire fighter, law enforcement officer, ambulance driver, or emergency medical services technician who was killed in the line of duty in

this state or died as the result of a qualifying disability. In order to be eligible to receive the remission, a child must have been under the age of 21 or not yet born when his or her parent was killed. In 2013-14, the UW System remitted \$61,400 to nine students under this provision; the technical colleges remitted \$1,500 to one student. In each year of the 2013-15 biennium, \$14,200 GPR is provided to the WTCS Board to cover the cost of these remissions. Funding for these remissions was rolled into the UW System's GPR general program operations appropriation under 2011 Act 32.

7. Tuition Remissions for Funeral Assistants (UW System and WTCS). Under 2005 Act 22, a funeral director may issue a tuition voucher in the amount of \$25 to a student who sounds "Taps" during a funeral for which military honors are held. To be eligible for this voucher, the student must be enrolled in grades 6 through 12 or at a post-secondary institution. These tuition vouchers may be used for the payment of tuition at any UW institution or Wisconsin technical college. In 2013-14, 10 UW students used vouchers totaling \$2,000.

Other Programs

1. College Work-Study (Federal). This is

a campus-based program that provides part-time jobs for undergraduate and graduate students. Students may be employed by the institution or public or private employers and must be paid at least the federal minimum wage. In most cases, institutional, public, and private, nonprofit employers must provide at least 25% of the student's salary and private, for-profit employers must provide at least 50% of the student's salary. The remainder of the student's salary is paid by the federal work-study program. Individual institutions may require that employers pay a greater share of the student's salary; by reducing the percentage of the salary paid by the federal work-study program, the institution is able to increase its number of work-study participants. The award amount is based on financial need, availability of funds, and the amount of aid the student receives from other programs. Earnings from work-study jobs are not included in the student's income when reapplying for financial aid in subsequent years. In 2012-13, a total of \$22.7 million was provided to 13,578 students, averaging \$1,673.

2. Wisconsin Educational Opportunity Programs (Public Instruction). The Department of Public Instruction administers one state-funded and one federally-funded financial aid program through the Wisconsin Educational Opportunity Program (WEOP). A third financial aid program, the talent incentive program, is administered jointly by HEAB and WEOP and described earlier in this paper. The two programs administered solely by WEOP are:

Precollege Scholarship Program. This program provides grants to economically disadvantaged middle school and high school students to cover full student costs of precollege programs, including courses, books, supplies, and room and board, if necessary. Precollege programs which emphasize academic skills development, career guidance, curriculum enrichment, and financial aid information are offered to eligible students through UW campuses, technical colleges, and

private colleges. The student must first be admitted to a precollege program to qualify for a scholarship. In 2013-14, 3,227 middle and high school students received a total of \$1,931,500 to fund their participation in precollege programs statewide.

Gear Up Program. Since 1995-96, WEOP has administered this federal program. In 2013-14, 797 low-income students received college scholarships totaling \$1,663,500 through the program.

3. Tuition Assistance for Medical and Dental Students (Medical College of Wisconsin, Marquette Dental School, HEAB). The state provides funding to the Medical College of Wisconsin and the Marquette Dental School to reduce the amount of tuition charged to Wisconsin resident students enrolled at those institutions. Funding for the Medical College of Wisconsin program is provided through an appropriation for the Medical College; funding for the Marquette Dental School program is provided through an appropriation under HEAB. In 2013-14, 322 Wisconsin resident students enrolled in the Medical College of Wisconsin received \$5,983 in tuition assistance for a total of \$1,926,600. In that same year, 171 Wisconsin resident students enrolled in Marquette Dental School received tuition assistance of \$8,640 for a total of \$1,477,400. Statutes specify a maximum number of dental students who may receive tuition assistance through this program. Under 2013 Act 20, the number of dental students who may receive tuition assistance was increased from 160 to 200 beginning in 2013-14. There is no statutory limit on the number of Medical College of Wisconsin students who may receive tuition assistance.

4. Physician and Dentist and Health Care Provider Loan Assistance Programs (UW System). This program is different from the state-funded loan programs described previously in that the state does not make loans to students through this program. Rather, the state agrees to

repay a portion of the participant's existing student loans.

Under the physician and dentist loan assistance program, the UW Board of Regents may repay up to \$50,000 in education loans on behalf of a physician or dentist who agrees to practice in one or more eligible practice areas or dental health shortage areas in this state. For physicians who additionally agree to practice in a rural area, the UW Board of Regents may make loan repayments of up to \$100,000. Under the health care provider loan assistance program, the Board may repay up to \$25,000 in education loans on behalf of a health care provider, defined as a dental hygienist, physician assistant, nurse midwife, or nurse-practitioner, who agrees to practice in one or more eligible practice areas in this state.

To be eligible for loan repayment, the physician, dentist, or health care provider must enter into a written agreement with the Board in which he or she agrees to practice at least 32 clinic hours per week, 45 weeks per year, for three years in an eligible practice area. Physicians and dentists must also agree to treat patients who are insured by or for whom health benefits are payable under Medicare, medical assistance (MA), or other government programs. Program participants who meet additional requirements may also be eligible for federally-funded loan repayments through the expanded loan assistance program.

Loans to physicians and dentists are repaid as follows: (1) 40% of the principal up to \$20,000 in each of the first and second years; and (2) 20% of the principal up to \$10,000 in the third year. For physicians practicing in rural areas, maximum annual repayments are set at \$40,000 for each of the first and second years and \$20,000 for the third year. Loans to health care providers are similarly repaid as follows: (1) 40% of the principal up to \$10,000 in the each of the first and second years; and (2) 20% of the principal up to \$5,000 in the third year.

Total state funding for the physician and dentist and health care provider loan assistance programs is \$738,700 in 2014-15. Of this amount, \$488,700 is from tribal gaming revenues and \$250,000 is from the critical access hospital assessment fund. The critical access hospital assessment funds may only be used to make repayments on behalf of physicians, dentists, and health care providers practicing in rural areas. In addition, \$300,000 in annual federal funding is provided for the expanded loan assistance program. In 2013-14, loan assistance was provided to a total of 56 physicians, dentists, and health care providers. This number includes 20 new awards made to two dental hygienists, two physician assistants, four dentists, five physicians, and seven nurse practitioners.

College Savings Programs

The Department of Administration, through its State Capital Finance Office, manages two Section 529 college savings plans: Edvest and Tomorrow's Scholar. These programs were initially established by 1999 Act 44 and subsequently modified by 2001 Act 7, 2001 Act 38, 2005 Act 478, 2011 Act 32, and 2013 Act 227. Both Edvest and Tomorrow's Scholar are available nationwide. These plans represent two of the 86 qualified state tuition plans under section 529 of the U.S. Internal Revenue Code (IRC 529), designed as a savings vehicle for higher education expenses with certain tax advantages. They are administered by the Department of Administration under advisement by the College Savings Program Board.

The College Savings Program Board is composed of 11 members: the Secretary of Administration, the President of the University of Wisconsin Board of Regents, the President of the Wisconsin Association of Independent Colleges and Universities, the President of the Wisconsin Technical College System, the Chair of the State Investment Board (or their designees); and six public members appointed by the Governor to four-year terms. From 2005 to October 2012, day-

to-day management of the program was contracted to Wells Fargo Funds Management, LLC, which was responsible for the program's investment management, marketing activities, account administration, and record-keeping. Starting October 29, 2012, the Edvest and Tomorrow's Scholar programs are managed by Teachers Insurance and Annuity Association-College Retirement Equities Fund (TIAA-CREF) Tuition Financing, Inc. (TFI). Direct-sold Edvest plans are solely managed by TFI, while operation of the advisor-sold Tomorrow's Scholar plan has been subcontracted through TFI to Voya Investment Management (formerly named ING U.S. Investment Management).

Under both of the savings plans, any person aged 18 or over may open an account and the beneficiary may be any person including the account owner. Within each owner-beneficiary relationship, multiple investment portfolios are permitted to allow for investment diversification.

There is no state residency requirement or income limitation. Under TFI management, Edvest accounts require a minimum initial investment of \$25 per investment portfolio. Under Voya Investment Management, Tomorrow's Scholar accounts require a minimum initial investment of \$250 per investment portfolio. The maximum amount that may be contributed to a single beneficiary in aggregate from all sources and plans (including Edvest, Tomorrow's Scholar, and Tuition Units) is currently \$330,000. Subject to this aggregate maximum contribution limit, there are no limits on annual contributions to accounts. The beneficiary may use the proceeds of the account at any eligible post-secondary school in this country or elsewhere. The money may be used for a wide range of educational expenses such as tuition and other fees, room and board, and educational supplies.

Both plans offer a range of investment choices. There are currently 20 different static portfolio choices under the Edvest college savings plan, and two age-based choices where the contributions in

the account are periodically shifted, in nine steps, from more aggressive to more conservative fund portfolios based on the beneficiary's stated age. Investors may choose between aggressive or moderate growth tracks. These age-based portfolios are a blend of multiple underlying funds, primarily passive index funds.

The Tomorrow's Scholar college savings plan offers 39 fund portfolio choices and is only available through a financial advisor or fee-only planner. There is one age-based track, using nine different risk-based multiple fund portfolios. Investors may select from the nine portfolios as well as additional single fund static options. Underlying fund managers include Baillie Gifford, BlackRock, Clarion, Columbia, Delaware, JP Morgan, Lazard, LSV, Northern Trust, PIMCO, TIAA-CREF, T. Rowe Price, Templeton, Voya, and Wellington.

Currently, IRC 529 regulations allow investment reallocation or changes only once during any 12-month period. A twice-per-year exception was allowed under federal law only for tax years 2009 and 2010.

Prior to 2013 Act 227, for state tax purposes Wisconsin residents could deduct up to \$3,000 annually per beneficiary (as a single or joint tax filer, or \$1,500 if a divorced parent or married and filing separately), for contributions to any account where the beneficiary was the claimant's child, grandchild, great-grandchild, niece, nephew, or self. Any person, residing in any state, could (and still may) open and contribute to an Edvest or Tomorrow's Scholar account. However, an account owner could only authorize the above family members to make contributions to the account. Further, tax deductions for contributions were limited to contributions made by these in-state family members as well as contributions made by the beneficiary.

Under Act 227, college savings account owners were permitted to authorize contributions by

any individual to an account. In addition, the tax deduction was extended to contributions made by any resident of Wisconsin, regardless of the claimant's relationship to the beneficiary. Act 227 also provided for inflation-based adjustments to the amounts that may be deducted. For taxable years beginning after December 31, 2013, the base amounts that may be deducted (\$3,000 or \$1,500) will increase on an annual basis by a percentage equal to the percentage change in the U.S. city average consumer price index for all urban consumers. For tax year 2014, deductions may be made up to \$3,050 (filing single or joint) or \$1,520 (for a divorced parent or if married and filing separately) per beneficiary. Finally, Act 227 extended the deadline to make contributions for a particular tax year from December 31 to April 15 of the following year, and allowed any contributions in excess of the maximum deduction to be carried forward to the next taxable year.

Investment earnings and distributions from an account established through a section 529 qualified program, including Wisconsin's Edvest and Tomorrow's Scholar, programs of other states, and by private institutions, are exempt from both federal and Wisconsin income taxes if the withdrawals are used for qualified higher education expenses.

Investment earnings on the contributions may be withdrawn for non-higher education expenses, but would be subject to state and federal taxes and may be subject to an additional 10% federal tax on the earnings. The 10% federal tax addition does not apply in the following cases: (a) withdrawals used for a qualified educational expense; (b) withdrawals due to death or disability of the intended beneficiary; (c) distributions made on account of a scholarship, allowance, or payment attributable to the beneficiary's enrollment at an eligible educational institution; (d) transfers to another qualified 529 account; or (e) qualified higher education expenses of the beneficiary in qualifying for an American Opportunity Credit or Lifetime Learning Credit. Section 529 also allows

for the change of beneficiaries to another family member of the previous beneficiary without tax penalty.

The Edvest plan does not charge an annual account fee. Under the Tomorrow's Scholar college savings plan, there is a \$25 per year account maintenance fee, which is waived for Wisconsin residents. It is also waived if an automatic deduction plan has been elected, or if the account balance is above \$25,000. In addition, there are annual asset-based fees, based on percentage amounts that vary based on the fund or funds selected and levied against the total assets in the account invested in the respective investment option. Tables 13 and 14 show the applicable fees under TFI and Voya management for each investment option as of September, 2014. Four additional share classes exist, which are not shown in Table 14. All five share classes may be sold by financial advisors or fee-only planners, and have differing asset-based fees and caps on deferred sales charges.

As of June 30, 2014, Edvest had a total of 133,249 direct-sold open accounts with assets of \$2,107,692,806, and Tomorrow's Scholar had 126,676 advisor-sold open accounts with assets of \$1,602,429,418. As of October 29, 2012, advisor-sold Edvest accounts no longer exist. Edvest accounts previously sold through financial advisors were transferred on that date to the Tomorrow's Scholar program.

College Tuition and Expenses Program. From July, 1997, to December, 2002, investors could participate in the college tuition and expenses program, also known as the tuition unit purchase program. The State Treasurer discontinued this program in December, 2002, barring any future enrollments or the sale of any new tuition units to current accountholders. Current tuition unit account holders may continue to hold their tuition unit investments until maturity or may convert their account to any of the investment choices now offered under the state's college savings program. As of June 30, 2014, there were 636

Table 13: College Savings Program Summary of Edvest Portfolio Expenses Assessed as % of Account Assets

accounts under this program with total assets of \$5,321,026. The assets of these remaining accounts are invested by the State of Wisconsin Investment Board, and were not affected by the October, 2012, transition.

Tax Incentives

1. Higher Education Tax Deduction (State). Since tax year 1998, state law has allowed a deduction from income for tuition expenses. The deduction applies to tuition, including mandatory student fees, paid on behalf of the taxpayer or the taxpayer's dependent child. Allowable tuition expenses include tuition paid to attend any university, college, technical college, or school approved by the Education Approval

Board that is located in Wisconsin, or to attend an institution under the Minnesota-Wisconsin tuition reciprocity agreement. A student cannot claim a tuition deduction for tuition and fees amounts paid using a distribution from a Wisconsin 529 account.

The maximum tuition deduction equals twice the average amount of resident undergraduate tuition charged by UW System four-year institutions for the most recent fall semester. For tax year 2014, the maximum deduction was \$6,940.

The deduction is phased out based on filing status and federal adjusted gross income (AGI), indexed for inflation. For 2014, the phase-out ranges are as follows: (a) \$51,620 to \$61,940 for

*Portfolios new to plan

single and head-of-household filers; (b) \$82,590 to \$103,240 for married couples filing joint returns; and (c) \$41,300 to \$51,620 for married couples filing separate returns.

A federal deduction is permitted for qualified higher education expenses. The maximum federal

deduction is set at \$4,000, but is limited based on the taxpayer's AGI (\$65,000, if single, and \$130,000 if joint). The deduction is reduced to \$2,000 for taxpayers with a higher AGI (up to \$80,000, if single, and \$160,000, if joint). This deduction is scheduled to expire after tax year 2014. Wisconsin has not adopted the federal de-

duction for state purposes, but has its own deduction as noted above.

2. American Opportunity Tax Credit/ Hope Scholarship Credit (Federal). Since tax year 2009, the American Opportunity tax credit has replaced the Hope Scholarship tax credit on a temporary basis. The American Opportunity tax credit is available to individuals who pay qualified tuition and related expenses of higher education for either themselves, their spouse, or a dependent and is available for up to four years. Degree-seeking students who are enrolled at least half-time are eligible for a tax credit of up to 100% of the first \$2,000 and 25% of the second \$2,000 in tuition expenses. Eligible expenses include tuition, required fees, and course materials less any grants, scholarships, or other tax-free financial assistance. For tax year 2014, the credit is gradually phased out for taxpayers with taxable incomes between \$80,000 and \$90,000 for single filers and between \$160,000 and \$180,000 for joint filers. Up to 40% of the credit is refundable.

Under the American Taxpayer Relief Act of 2012, the American Opportunity tax credit will be available through tax year 2017. Thereafter, taxpayers may claim the Hope Scholarship tax credit, which preceded the American Opportunity tax credit in tax years 2000 through 2008. Unlike the American Opportunity tax credit, the Hope Scholarship tax credit is limited to expenses incurred in the first two years of post-secondary education and does not include textbooks and other course materials as qualified expenses. Initially, this credit was calculated as 100% of the first \$1,000 of qualified expenses and 50% of the second \$1,000 of qualified expenses. In addition, phase-out income ranges were set at \$40,000 to \$50,000 for single taxpayers and \$80,000 to \$100,000 for joint filers, lower than the phase-out ranges for the American Opportunity tax credit. The expense threshold and income phase-out ranges were indexed for inflation. In tax year 2009, when the credit was temporarily replaced, the expense threshold had risen to \$1,200 and the

income phase-out ranges had increased to \$50,000 to \$60,000 for single filers and \$100,000 to \$120,000 for joint filers.

3. Lifetime Learning Tax Credit (Federal). Tax filers may claim a lifetime learning tax credit if they pay qualified tuition and related expenses of higher education for an eligible student, either themselves, a spouse, or a dependent, that is claimed as an exemption. Students beyond the first two years of college or those enrolled less than half-time are eligible for a 20% tax credit on the first \$10,000 in expenses. Eligible expenses include tuition and required fees less any grants, scholarships, or other tax-free financial assistance. In 2014, the credit phased out for taxpayers with taxable incomes between \$54,000 and \$64,000 for single filers, and between \$108,000 and \$128,000 for joint filers.

4. Coverdell Education Savings Accounts (State and Federal). Married taxpayers filing joint tax returns and individual filers (including the beneficiary) may contribute up to \$2,000 per designated beneficiary per year to a Coverdell Education Savings Account (CESA, formerly called an Education IRA). There are no relationship requirements between the contributor and the beneficiary. While contributions are not deductible from income, interest earnings are tax exempt and withdrawals are excluded from the beneficiary's income if used for eligible education expenses. Under coordination rules with other tax deductions and credits for education, qualified expenses for purposes of a CESA are reduced to reflect other education tax benefits taken.

The ability of an individual to make a contribution to a CESA is gradually phased out for contributors with income between \$95,000 and \$110,000 (between \$190,000 and \$220,000 for joint filers). Funds from a CESA may be used to pay for qualified elementary and secondary education expenses in addition to qualified higher education expenses.

5. IRA Withdrawals (Federal). Early (before age 59½) withdrawals from a traditional IRA are not subject to the 10% tax penalty provided the distributions are used for postsecondary education expenses of the taxpayer, or the taxpayer's spouse, child, or grandchild.

6. Student Loan Interest Deduction (State and Federal). An individual may deduct up to \$2,500 annually for interest paid on student loans during the life of the loan. For tax year 2014, the deduction is phased out for single filers with taxable income between \$65,000 and \$80,000 and for joint filers with taxable income between \$130,000 and \$160,000.

7. Employer-Provided Education Benefits (State and Federal). Taxpayers may exclude from their taxable income up to \$5,250 in educational assistance benefits received from their employer. Eligible benefits include payments for tuition, fees, books, supplies, and equipment. Courses do not have to be related to the business of the employer.

Financial Aid Package

After a student applies for financial aid, the college attempts to meet as much of a student's need as possible with a financial aid package. Institutional financial aid officers are responsible for packaging a student's financial aid based on the needs analysis. Packaging is the selection of various types and amounts of aid which enable a student to pay for educational costs. Some elements of a financial aid package are automatically included such as Pell Grants, which are determined when EFC is determined by the federal processor, and WHEG and tuition grants, which are calculated by HEAB. Funding from other programs such as the Supplemental Educational

Opportunity Grant, college work-study, and Perkins Loan programs, and institutional aid are controlled and distributed by an institution's financial aid office.

The package is developed in a hierarchy. Generally, students are awarded all available grants before any loans, which are less desirable, are added to the package. In 2012-13, loans accounted for 53% of all financial aid received, grants accounted for 45%, and work-study for 2%. This ratio varies by the type of institution attended: grants account for 52% of the aid at independent colleges, 43% at technical colleges, and 40% at UW institutions.

Once the financial aid office has compiled the student's financial aid package, the student must accept or decline the aid provided through each program. A student is not obligated to accept the entire package. For example, a student could accept the grant and work-study aid but refuse the loans. Students must be registered for classes before aid can be issued to them at the beginning of a semester. They are also required to pay their tuition and fees with the proceeds of the aid before the remaining aid can be distributed to them.

Table 15 compares the average student cost, need, and need-based aid awarded per student by type of institution over the most recent five-year period for which information is available. As shown in the table, the average amount of need-based aid received by students enrolled in UW institutions, Wisconsin technical colleges, and private colleges and universities located in this state has increased over the most recent five years. However, these increases in aid were more than offset by increases in costs and, in the case of technical and private college students, decreases in students' and their families' ability to pay. As a result, unmet need increased for students in all three sectors.

Table 15: Financial Aid Data by Institution Type: Resident Undergraduates

	No. of Recipients	Avg. Cost	Avg. Contribution	Avg. Need	Avg. Aid	Unmet Need
UW System

Interstate Comparisons

Over the past decade, the amount of need-based aid provided by states has increased nationwide. From 2002-03 to 2012-13, the total amount of state-funded, need-based grant aid increased by 78%, from \$4.0 billion to \$7.1 billion. Similarly, expenditures for state-funded, HEAB-administered need-based grant programs increased by 75% over that time period from \$66.1 million in 2002-03 to \$115.9 million in 2012-13. However, enrollments and tuition charges also increased significantly over that time offsetting, at least in part, increases in state-funded need-based aid.

Compared to other states, Wisconsin spends a relatively small amount on non-need-based aid. In 2012-13, non-need-based grant programs accounted for 25% of all state-funded grant aid nationwide. In Wisconsin, non-need-based grant aid accounted for 3.3% of state-funded grant aid

programs administered by HEAB and the UW System for resident undergraduates attending Wisconsin institutions in 2013-14. This reflects a greater emphasis on need-based, as opposed to merit-based, financial aid in this state.

The appendix to this paper compares the primary need-based grant programs in each of the 50 states and the District of Columbia. The table highlights the different approaches used by various states in distributing need-based aid. Some states, such as Mississippi and Idaho, provide relatively generous grants to a small number of students. Others, such as Maine and Rhode Island, provide smaller grants to a larger number of students. Four states, including Georgia, New Hampshire, South Dakota, and Wyoming, have no need-based grant program. In comparison to other states, Wisconsin provides slightly smaller grants to a somewhat larger proportion of students.

When comparing funding for student financial

aid across the states, it is important to do so in the context of the tuition policy decisions made by those states. Some states, such as Idaho, Mississippi, Utah, and Wyoming, provide low amounts of need-based financial aid but also charge relatively low tuition. These states provide a large higher education subsidy to all students by requiring them to pay a smaller amount of their educational costs through tuition. Other states, such as New Jersey, Illinois, and Pennsylvania, charge high tuition and provide high amounts of need-based financial aid. These states target higher education subsidies to those students who have the greatest financial need. A third group of states, including New York, Washington, and North Carolina, offer both low tuition and high amounts of need-based financial aid. When compared to other states, Wisconsin charges moderate amount of tuition and provides a moderate amount of financial aid.

Table 16 compares tuition and fees charged by public flagship universities in Midwestern states and the estimated state-funded need-based

Table 16: Peer Tuition and Fees at Flagship Campuses and Estimated State-Funded Need-Based Undergraduate Aid (2012-13)

	Resident Undergraduate Tuition-Fees	Estimated Grant Dollars per FTE*	Grants as % of Tuition
Indiana	\$10,033	\$835	8.3%
Minnesota	13,016	686	5.3
Illinois	14,960	697	4.7

Michigan	13,234	213	1.6

* Grant dollars per FTE data from National Association of State Student Grant and Aid Programs.

grant aid per undergraduate full-time equivalent (FTE) student in 2012-13. The data shown in Table 16 is different from that shown in the appendix in that it includes all need-based grant aid, as opposed to only the primary need-based grant program. The appendix also shows the average grant amount instead of aid per FTE undergraduate student.

APPENDIX

Summary of the Primary Need-based Grant Program in Each State and the District of Columbia, 2012-13

	Average Grant Amount	Average Grant as % of Average Tuition and Fees at Public, Four- Year Institutions	Number of Recipients as a % of State Full-Time Equivalent Undergraduate Students
