Healthcare Outreach Positions
[LFB Paper #442]

Motion:

Move to adopt Alternative #2 of LFB Paper #442, which would provide \$541,300 PR annually for health insurance education and outreach, and delete the 5.10 PR positions provided by the bill, but provide the PR expenditure authority in the Committee's program supplements appropriation instead of OCI, which would allow OCI to submit a request to the Committee for release of the expenditure authority to make grants for health insurance education and outreach.

Note:

This motion would increase the Committee's PR program supplements appropriation by \$541,300 annually, with the intent that OCI would submit a request to the Committee for the release of funding. When making a request, agencies must submit a plan for the expenditure of funds.

[Change to Base: \$1,082,600 PR]

[Change to Bill: \$0 PR, -5.10 PR positions]
