Analysis by the Legislative Reference Bureau

This bill allows persons interested in expressing their support for state parks to obtain special registration plates that provide admission into state parks and recreation areas.

Under current law, members of certain designated special groups may obtain from the Department of Transportation special registration plates for certain vehicles that are owned or leased by special group members. A fee, in addition to the regular registration fee for the particular kind of vehicle, is charged for the issuance or reissuance of most special plates.

The bill establishes an authorized special group specifically enumerated in state law for persons interested in obtaining special plates expressing support for state parks. The bill provides that, in addition to the regular vehicle registration fee, special group members are required to make a voluntary payment for issuance or reissuance of the special plates that is equal to the amount required for an annual vehicle admission receipt issued by the Department of Natural Resources (currently \$27.50).

ASSEMBLY BILL 219

The bill provides that \$23,700 of the funds from the voluntary payment are retained by DOT for the initial costs of production of these special plates. After this, the voluntary payment is deposited in the conservation fund for use for state parks.

Under current law, vehicles entering state parks or DNR recreational sites are required to display an annual or daily admission receipt. The bill provides that no vehicle admission receipt is required for any vehicle displaying a current state park special registration plate issued by DOT.
