### *Analysis by the Legislative Reference Bureau*

Under current law, the person having direct charge of any public or private school must drill all pupils in what to do in the case of a fire, tornado, and school safety incident. Current law requires that these drills be conducted without previous warning. Under this bill, the person having direct charge of the public or private school may provide previous warning of any of these drills if he or she determines that providing previous warning of the drill is in the best interest of pupils attending the school.
