2021 Wisconsin Act 12 [2021 Senate Bill 10]

Certified Public Accountant Educational Requirements

2021 Wisconsin Act 12 removes the requirement that all of a certified public accountant's college credits may be fulfilled only at an institution of higher education that grants bachelor's degrees. The act maintains the requirement that all of a certified public accountant's college credits must be completed at an accredited institution of higher education. This allows, for example, a portion of a certified public accountant's college credits to be earned at an accredited two-year college.
