2023 Senate Bill 966

**Senate Substitute
Amendment 1**

2023 SENATE BILL 966

Current law requires a person who votes absentee to do so in the presence of a witness. Under current law, a witness must certify that the ballot was completed according to law and provide his or her printed name, address, and signature on a certification accompanying the ballot.

Senate Bill 966 establishes, for the purpose of accepting an absentee ballot, each element required in a witness's address certification and requires a separate line for each element on an absentee ballot envelope. Under the bill, in order for a ballot to be accepted and tallied in an election, a witness' certification must contain all of the following:

- The witness's printed first name.
- The witness's printed last name.
- The witness's house or apartment number.
- The witness's street name.
- The witness's municipality.
- The witness's state.
- The witness's zip code.

Under the bill, no one but the witness may correct a defect in the witness's certification.

SENATE SUBSTITUTE AMENDMENT 1

Senate Substitute Amendment 1 retains the same provisions except that it does not require a witness to provide his or her state or zip code.
