Analysis of Proposed Rules

1. Statutes Interpreted.

Sections 101.19 (1) (k), 101.981 to 101.986, Stats., as created by 2005 Wisconsin Act 456, and sections 101.02 (15) (j) and 101.17, Stats.

2. Statutory Authority.

Sections 101.19 (1) (k), 101.981 to 101.986, Stats., as created by 2005 Wisconsin Act 456, and sections 101.02 (15) (j) and 101.17, Stats.

3. Related Statute or Rule.

Statutes: section 101.02 (1) and (15), Stats.

4. Explanation of Agency Authority.

Under the authority of ss. 101.17 and 101.982, Stats. as affected by 2005 Wisconsin Act 456, the Department has the authority to promulgate rules for the inspection, installation and maintenance of elevators, escalators and lift devices. The Department also has the authority to develop licensing requirements for a number of new elevator categories created under the new law for inspection, installation and maintenance of elevators, escalators and lift devices.

5. Summary of Proposed Rules.

The revisions to chapters Comm 5 and 18 are in response to 2005 Wisconsin Act 456 relating to the regulation of elevators, escalators and lift devices. The following is a summary of the major rule changes to these chapters:

- Repeal sections Comm 5.37, Comm 5.38, Comm 5.383, Comm 5.385 and Comm 5.387 as created by the emergency rule date June 1, 2007. The permanent licensing requirements are included in this rule package.
- Establish a definition for “conveyance”, which exempts residential conveyances, material lift and hoists. Other definitions including “lift”, “material hoist” and “personnel hoist” are included to be consistent with national, industry-wide safety standards. [Comm 5.003]
- Modify the tables relating to fees and terms of credentials to reflect the new elevator and lift categories established under the law. [Tables 5.02 and 5.06]
- Create licensing requirements for elevator contractors, elevator mechanics, elevator mechanics-restricted, elevator apprentices, elevator apprentices-restricted and elevator helpers as authorized under the law. [Comm 5, subchapter X]
- Change the current elevator inspector “certification” terminology to “licensure” to be consistent with the law. [Comm 5.64, and Comm 18]
- Reorganize Comm 18 subchapters II, III and IV to clarify owner and elevator contractor responsibilities (subchapter II), combine the plan review and inspection requirements, and modify the certification requirements for consistency with the law (subchapter III) and create requirements that address municipal enforcement of chapter Comm 18 (subchapter IV). [Comm 18, Subchapters II, III and IV]
- Rename the application form to “permit application” to reflect the change in the law. The requirements for submission of the application have not changed. [Comm 18.1007 and 18.1013]

6. Summary of, and Comparison with, Existing or Proposed Federal Regulations.

There are no existing or proposed federal regulations that address or impact the activities to be regulated by this rule.

7. Comparison with Rules in Adjacent States.

An Internet-based search of adjacent states’ rules found the following regulations:

- Michigan licenses elevator contractors and elevator journeypersons.
- Minnesota licenses elevator contractors.
- Illinois has enacted laws and rules similar to the provisions under 2005 Wisconsin Act 456 with regard to licensing.
- Iowa does not license elevator contractors or installers.

8. Summary of Factual Data and Analytical Methodologies.

In developing the rules the Department reviewed the language of 2005 Wisconsin Act 456 in conjunction with current legislative proposals that would affect provisions of the Act. The Department’s review and assessment process involved the participation of the Conveyance Safety Code Council. The members of that Council represent many stakeholders involved in the conveyance industry, including manufacturers, inspectors, building contractors and the general public as users of the conveyances. (A listing of the Conveyance Safety Code Council is provided at the end of this analysis.)

9. Analysis and Supporting Documents Used to Determine Effect on Small Business or in Preparation of Economic Impact Report.

The Department utilized the Conveyance Safety Code Council to gather information on potential impacts in complying with both the technical and administrative requirements of the codes. The proposed license fees reflect the cost of administering licenses and are similar to license fees for other trades such as electricians and plumbers. The proposed licensing process is also similar to the licensing procedures for other various trades currently addressed under chapter Comm 5.

10. Affect on Small Business

The Department believes the rules will not increase the effect on small businesses over that imposed by Wisconsin Act 456. An economic impact report has not been required pursuant to s. 227.137, Stats.
