MEDICAL EXAMINING BOARD : ADOPTING RULES
: (CLEARINGHOUSE RULE 09-)

PROPOSED ORDER

An order of the Medical Examining Board to amend Med 20.05 (title); and to create Med 20.055, relating to temporary certificates for respiratory care practitioners who are certified in other jurisdictions.

Analysis prepared by the Department of Regulation and Licensing.

ANALYSIS

Statutes interpreted:

Sections 448.04 (1) (i) 2. and 448.40 (1), Stats.

Statutory authority:

Sections 15.08 (b) (b), 227.11 (2) and 448.04 (1) (i) 3., Stats.

Explanation of agency authority:

The Medical Examining Board has the authority under s. 448.40, Stats., to promulgate rules establishing minimum standards for the practice of respiratory care, including the issuance of temporary certificates for respiratory care practitioners.

Related statute or rule:

Section 448.04 (1) (i), Stats., and s. Med 20.05.

Plain language analysis:

This proposed rule-making will conform ch. Med 20, relating to respiratory care practitioners, to the provisions enacted by 2007 Wisconsin Act 54, which created a temporary certificate for the practice of respiratory care. The temporary certificate to practice respiratory care authorized by this Act is available to a limited category of applicants who have passed the national examination and are licensed in another state. The Act allows for a maximum of three months of practice under the temporary

certificate, which cannot be renewed. The proposed rule addresses the high demand for health care professionals such as respiratory care practitioners and makes it easier for hospitals, especially those along Wisconsin's borders, to recruit and hire qualified applicants that are licensed in neighboring states in a timely manner. Currently, the temporary certificate is only available to graduates who have not passed the national examination.

SECTION 1 amends the title to s. Med 20.05.

SECTION 2 creates s. Med 20.055 relating to the requirements for issuance of a temporary certificate for applicants who are certified to practice in another jurisdiction.

Summary of, and comparison with, existing or proposed federal regulation:

There is no existing or proposed federal regulation.

Comparison with rules in adjacent states:

Iowa:

None.

Illinois:

There is a six month temporary license available for pending applicants until the next available examination is taken.

Michigan:

A temporary license is available for up to four years if the applicant has practiced as a full-time respiratory care practitioner for four years immediately preceding the date of application in certain, specified settings. A letter of recommendation from a Medical Director is also required.

Minnesota:

A temporary permit is issued and is valid until the board meets to decide on the application. A temporary permit is also available until the next available examination.

Summary of factual data and analytical methodologies:

The proposed rules will conform a respiratory care practitioners rule to recent statutory changes brought about by 2007 Wisconsin Act 54, which created s. 448.04 (1) (i) 3., Stats.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact report:

The Medical Examining Board did not consult supporting documents other than 2005 Wisconsin Act 195. It is merely updating its rules based on the legislative change.

Section 227.137, Stats., requires an “agency” to prepare an economic impact report before submitting the proposed rule-making order to the Wisconsin Legislative Council. The Department of Regulation and Licensing is not included as an “agency” in this section.

Anticipated costs incurred by private sector:

The department finds that this rule has no significant fiscal effect on the private sector.

Fiscal estimate:

The department estimates that this rule will require staff time in the Office of Legal Counsel, Division of Management Services, and the Division of Professional Credentialing. The total one-time salary and fringe costs are estimated at \$3,500. The total on-going salary and fringe costs are estimated at \$600.

Effect on small business:

These proposed rules will have no significant economic impact on a substantial number of small businesses, as defined in s. 227.114 (1), Stats. The Department’s Regulatory Review Coordinator may be contacted by email at larry.martin@wisconsin.gov, or by calling 608-266-8608.
