

ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD
REPEALING, AMENDING, REPEALING AND RECREATING, AND CREATING RULES

The Wisconsin Natural Resources Board proposes an order to renumber 19.73(3)(a)4.; to amend NR 10.001(1), 10.01(2)(f)4.a., 10.01(3)(e)(2), 10.01(3)(ed)1.b., 10.01(3)(et)1.d.2., 10.01(3)(ev), 10.07(2m)(e)1, 10.09(1)(c)2., 10.09(2), 10.102(4m)(c)2., 10.12(1)(h), 10.13(1)(b)6., 10.13(1)(b)12.(intro.), 10.13(1)(b)13.a., 10.40(5)(e), 10.41(3)(b)1., 19.025(2)(b), (d) and (e), 19.71(10), and 19.78(4) relating to hunting, trapping and wildlife rehabilitation.

WM-03-09

Analysis Prepared by the Department of Natural Resources

Statutory Authority and Explanation of Agency Authority: Statutes that authorize the promulgation of this rule order include ss. 29.014, 29.089, 29.193, 29.197, 29.597, 169.085, 169.24, and 227.11, Stats. These sections grant rule making authority to the department to establish open and closed seasons for hunting and to establish other regulations for hunting, trapping, and wildlife rehabilitation. All rules promulgated under this authority are subject to review under ch. 227, Stats.

Statutes Interpreted and Explanation: In promulgating this rule, ss. 29.014, 29.089, 29.193, 29.197, 29.597, 169.085, 169.24, and 227.11, Stats., have been interpreted as providing the department with the authority to make these housekeeping clarifications.

Related Statute or Rule: There are no state rules or statutes currently under promulgation that directly relate to the provisions that are proposed in this administrative order.

Plain Language Rule Analysis: The Bureau of Wildlife Management recommends promulgating administrative rules that modify sections of chs. NR 10 and 19. These rule changes related to hunting, trapping and wildlife rehabilitation are minor and unlikely to be controversial. The intent of these rule changes is to correct drafting errors, provide clarification to existing rules, simplify regulations, and update administrative code language and references. Policy issues affected by this rule are ones which have already been addressed by previous rulemaking.

Section 1 clarifies that the definition of the term “accompanied by”, which currently applies to 12 and 13 year old hunters at all times, also applies to all youth hunt participants who are not hunting under the more restrictive hunting mentorship program requirements.

Section 2 allows participation in the youth turkey hunting season by youth who have not completed a hunter safety course. This section also clarifies that a qualified mentor may only supervise one person who is either 10 or 11, or who has not completed a hunter safety course and requires that the mentor be within arms reach of the hunter they are supervising.

Section 3 clarifies that access permits are required of deer hunters at Lake Wissota state park.

Sections 4 and 5 clarify that the harvest of deer of either sex is allowed by archery and gun hunters who possess disabled hunting permits, making this regulation consistent with the law that applies to disabled hunters during firearm seasons.

Section 6 allows hunting by 10 and 11 year olds during the youth deer hunting season and allows participation by youth who have not completed a hunter safety course. This section also clarifies that a qualified mentor may only supervise one person who is either 10 or 11, or who has not completed a hunter safety course and requires that the mentor be within arms reach of the hunter they are supervising.

Section 7 clarifies that, where it is legal to place bait for hunting deer, bait may be placed on the day before the archery season as is currently allowed on the day before the gun seasons.

Section 8 removes the prohibition of hunting deer with full metal jacketed, nonexpanding type bullets so that only nonexpanding type bullets are prohibited.

Section 9 establishes that the prohibition of hunting and firearm discharge on the day before the firearm deer season applies only to the traditional nine-day deer season.

Section 10 establishes that a Class A bear permit may be issued to a person who reaches the age of 10 during the bear hunting season.

Section 11 incorporates by reference the definitions for a section of federal regulations that are already incorporated into Wisconsin code related to baiting migratory game birds.

Section 12 eliminates an unnecessary cross reference.

Section 13 eliminates confusing and unnecessary language and clarifies that, where body-gripping type traps from 60 to 75 square inches in size are prohibited, larger traps are also prohibited.

Section 14 eliminates an unnecessary gear requirement; relaxing mechanical locks are not needed on snares.

Section 15 eliminates a limit on participation by disabled hunters during turkey seasons that is no longer needed with only seven turkey management zones.

Section 16 corrects an omission in the name of a deer management unit.

Section 17 Includes trapping as an educational outdoor skills activity for which certain exemptions are available so that this rule language will be consistent with statute.

Section 18 clarifies that volunteer wildlife rehabilitators may only serve in a limited capacity on wildlife rehabilitation activities.

Section 19 corrects the number of a subdivision.

Section 20 updates wildlife rehabilitation code language so that it is consistent with proposed changes to the list of threatened and endangered species.

Federal Regulatory Analysis: These state rules and statutes do not relieve individuals from the restrictions, requirements and conditions of federal statutes and regulations. Regulating the hunting and trapping of native species has been delegated to state fish and wildlife agencies. Additionally, none of the proposed rules exceed the authorities granted to states in 50 CFR 10.

Comparison with rules in Adjacent States: These rule change proposals do not represent significant policy changes and do not differ significantly from surrounding states. All surrounding states have regulations and rules in place for the management and recreational use of wild game and furbearer species that are established based on needs that are unique to that state's resources and public desires.

Summary of Factual Data and Analytical Methodologies: This rule order is necessary to correct inconsistencies created through the promulgation of other rules and statutes, update code language, correct previous drafting errors, and to clarify existing administrative code language. The rule changes included in this order do not deviate from current department policy on the management of wildlife and the regulation of hunting and trapping.

Anticipated Private Sector Costs: These rules, and the legislation which grants the department rule making authority, do not have a significant fiscal effect on the private sector. Additionally, no significant costs are associated with compliance to these rules.

Effects on Small Business: These rules are applicable to individual sportspersons and impose no compliance or reporting requirements for small businesses, and no design or operational standards are contained in the rule.
