**Assumptions Used in Arriving at Fiscal Estimate**

Although the rules will newly result in review of documentation relating to reallocations for recovery zone facility bonds, the time needed for these reviews is expected to be spent by current employees. Therefore, the proposed rules are not expected to have any significant fiscal effect on the Department.

The proposed rules are not expected to impose any significant costs on the private sector because the rules address submittal of documentation, and other activities, only by governmental units that choose to pursue obtaining recovery zone facility bonding authority which is reallocated by the Department.

**Long-Range Fiscal Implications**

None known.
