Affected Ch. 20 Appropriations

Assumptions Used in Arriving at Fiscal Estimate

Although the rules will newly result in review of documentation relating to certifying applicants as eligible to then claim allocated tax credits for investments in food processing plants and food warehouses, the number of these reviews and allocations is expected to be too small to result in significant changes in the Department's costs for administering its business development programs. Therefore, the proposed rules are not expected to have any significant fiscal effect on the Department.

The proposed rules are not expected to impose any significant costs on the private sector, because the rules address only voluntary submittal of documentation relating to tax credits for investments in food processing plants and food warehouses.

Long-Range Fiscal Implications

None known.
