

Clearinghouse Rule 13-019

ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD REPEALING, AMENDING, AND CREATING RULES

The statement of scope for this rule, SS 057-12, was approved by the Governor on July 25, 2012, published in Register No. 680 on August 14, 2012, and approved by the Natural Resources Board on September 26, 2012. This permanent rule was approved by the Governor on _____.

Wisconsin Natural Resources Board proposes an order to repeal NR 20.03(30), 20.06(1), 20.20(1)(a), 20.20(2)(a), 20.20(3)(a), 20.20(6)(a), 20.20(7)(a), 20.20(7)(f), 20.20(9)(a), 20.20(9)(d), 20.20(10)(a), 20.20(10)(c), 20.20(11)(a), 20.20(12)(a), 20.20(13)(a), 20.20(14)(a), 20.20(15)(a), 20.20(17)(a), 20.20(18)(a), 20.20(19)(a), 20.20(21)(a), 20.20(22)(a), 20.20(24)(a), 20.20(25)(a), 20.20(27)(a), 20.20(28)(a), 20.20(29)(a), 20.20(29)(e), 20.20(32)(a), 20.20(33)(a), 20.20(34)(c), 20.20(35)(e), 20.20(36)(c), 20.20(37)(a), 20.20(37)(f), 20.20(38)(a), 20.20(39)(a), 20.20(43)(a), 20.20(44)(a), 20.20(47)(a), 20.20(47)(dm), 20.20(48)(a), 20.20(49)(a), 20.20(49)(d), 20.20(50)(a), 20.20(50)(e), 20.20(51)(a), 20.20(53)(a), 20.20(55)(a), 20.20(55)(c), 20.20(56)(a), 20.20(57)(a), 20.20(58)(a), 20.20(60)(a), 20.20(60)(f), 20.20(61)(a), 20.20(61)(b), 20.20(66)(a), 20.20(66)(e), 20.20(69)(a), 20.20(71)(a), 20.20(72)(a), 20.20(72)(e); to amend NR 20.03(40), 20.05(3), 20.09(1), 20.09(2), 20.10(10), 20.10(10m), 20.15(1), 20.20(1)(h)1., 20.20(2)(b), 20.20(3)(d), 20.20(4)(a), 20.20(4)(c), 20.20(4)(e), 20.20(5)(f), 20.20(6)(e), 20.20(7)(c), 20.20(8)(b), 20.20(11)(k)1., 20.20(14)(f)2., 20.20(15)(b)2., 20.20(16)(a), 20.20(16)(c), 20.20(16)(f), 20.20(16)(h)3., 20.20(17)(e), 20.20(18)(e), 20.20(19)(c), 20.20(19)(e), 20.20(20)(d), 20.20(21)(c), 20.20(24)(f), 20.20(26)(a), 20.20(26)(c)1., 20.20(26)(e)3., 20.20(26)(g)3., 20.20(27)(f), 20.20(29)(h)1., 20.20(30)(a), 20.20(31)(a), 20.20(32)(e), 20.20(33)(am), 20.20(33)(b), 20.20(33)(g)2., 20.20(34)(a), 20.20(34)(b), 20.20(35)(a), 20.20(35)(b)1., 20.20(35)(g)1m., 20.20(37)(i), 20.20(38)(b), 20.20(38)(d), 20.20(42)(d), 20.20(42)(f)1., 20.20(43)(d), 20.20(44)(b), 20.20(45)(a), 20.20(45)(e), 20.20(47)(e), 20.20(49)(am)2., 20.20(49)(f)2., 20.20(50)(h), 20.20(51)(b), 20.20(52)(a), 20.20(54)(a), 20.20(55)(b), 20.20(56)(j)2., 20.20(57)(d), 20.20(57)(g), 20.20(58)(e), 20.20(59)(a), 20.20(60)(b)2., 20.20(62)(b), 20.20(64)(c), 20.20(64)(h)9., 20.20(65)(a), 20.20(66)(bm), 20.20(66)(g)1., 20.20(67)(a), 20.20(68)(a), 20.20(69)(e), 20.20(70)(dm), 20.20(70)(e), 20.20(71)(e), 20.20(72)(h)1., 20.20(73)(a), 20.20(73)(f), 20.20(73)(g)1., 20.20(73)(L)6., 20.35(3), 20.36(2), 23.05(5)(d), 23.05(5)(e), 23.055(2), 23.08; and to create NR 20.15(1m), 20.15(4), 20.20(3)(f)2., 20.20(11)(e)3., 20.20(11)(g)3., 20.20(13)(a)2., 20.20(16)(h)4., 20.20(18)(c)2., 20.20(39)(e), 20.20(42)(b)2., 20.20(42)(c)2., 20.20(57)(i)6., 20.41(4) relating to fishing regulations on inland, outlying, and boundary waters of Wisconsin.

Analysis Prepared by Department of Natural Resources

- 1. Statutes interpreted.** Sections 29.014(1), 29.041, and 29.053(2), Stats., have been interpreted as giving the department the authority to make changes to fishing regulations on inland, outlying, and boundary waters of Wisconsin.
- 2. Statutory authority.** ss. 29.014(1), 29.041, and 29.053(2), Stats.
- 3. Explanation of agency authority to promulgate the proposed rules under the statutory authority.** Section 29.014(1), Stats., directs the department to establish and maintain conditions governing the taking of fish that will conserve the fish supply and ensure the citizens of this state continued opportunities for good fishing.

Section 29.041, Stats., provides that the department may regulate fishing on and in all interstate boundary waters and outlying waters.

Section 29.053(2), Stats., provides that the department may establish conditions governing the taking of fish for the state as a whole, for counties or parts of counties, or for waterbodies or parts of waterbodies. It also allows the department to establish a fishing season on specified bodies of water in certain urban areas to allow fishing only by persons who are under 16 years old or who are disabled, as specified in s. 29.193(3)(a), (b), or (c), Stats.

4. Related statutes or rules. Section 29.039, Stats., Nongame species

5. Plain language analysis of the proposed rule.

The proposed rule would make modifications to portions of chs. NR 20, 21, 22, and 23 pertaining to sport fishing regulations on inland, outlying, and boundary waters of Wisconsin. These changes are proposed to protect and enhance the State's fish resources. Please note, some elements of ch. NR 20 in this Board Order are anticipated to be amended prior to this rule by Natural Resources Board Order FH-19-12, a housekeeping rule.

The existing policy behind fishing regulations is to provide diverse fishing opportunities throughout the State and that policy will be continued and enhanced by these rule changes. Based on the management goals for individual waters and species, the Fisheries Management Program strives to provide:

- consumptive opportunities where anglers can fish for a meal from a self-sustained fish population;
- quality and memorable opportunities where anglers can catch large fish and the density of adult fish in the populations are sustained or increased; and
- trophy opportunities where anglers can catch large trophy-size fish and the survival of older and larger fish is increased.

Sections 1, 2, 4, 11, 12, 14, 16, 19, 23, 25, 29, 31, 33, 37, 38, 40, 42, 44, 49, 51, 54, 58, 60, 61, 63, 68, 70, 71, 74, 76, 78, 82, 85, 90, 93, 96, 104, 106, 108, 112, 116, 119, 121, 122, 123, 124, 127, 129, 133, 135, 136, 139, 144, 145, 149, 150, 151, 155, 157, 160 and 170 allow fishing by the method of trolling on all inland waters with up to three hooks, baits, or lures. Trolling means trailing a lure or bait from a boat propelled by a means other than drifting, pedaling, paddling, or rowing. Trolling is currently allowed for certain disabled anglers by special permit and on all waters in 19 counties; on one or more waters in 45 counties (105 total waters); and on all boundary waters with IA, MN, and MI except in Vilas County boundary waters with MI. In addition to Wisconsin waters, trolling is already allowed in all surrounding states and provinces with no known adverse effects. Allowing trolling statewide would simplify regulations by eliminating confusion about where trolling is allowed, allow moving boats to trail behind suckers or minnows while occupants are casting (a form of trolling) on all waters, eliminate the need to define position fishing (fishing in a manner where the line extends vertically into the water while the boat is maneuvered by the use of a motor), eliminate the need for disabled anglers to have to apply for trolling permits, and provide additional fishing opportunities for anglers who may have difficulty fishing by other methods.

Sections 3, 5, 9, and 10 allow rough fish to be taken by hand year round or by handheld spear from June 1 to August 31, where spearing is allowed, on inland waters within 200 feet of a fishway, lock, or dam. This would expand fishing opportunities for rough fish that are considered undesirable in Wisconsin waters. Anglers may currently only use hook and line to take fish, including rough fish, within 200 feet of a fishway, lock, or dam.

Sections 7 and 8 alter the hours to legally spear sturgeon on lakes Winnebago, Butte des Morts, Winneconne, and Poygan from 6:30 AM - 12:30 PM to 7:00 AM - 1:00 PM, and change the daily deadline for sturgeon spearers to register their fish from 1:30 PM to 2:00 PM. The season would not change, which begins the second Saturday in February and continues for up to 16 days. This change addresses sunlight and visibility safety concerns while anglers are traveling on the frozen lake.

Sections 13, 36, 73, 88, 92, 101, 118, 128, and 159 make permanent a protected slot limit regulation on walleye, sauger, and hybrids where there is a daily bag limit of 5 fish and the minimum length is 15 inches, but fish from 20 to 28 inches may not be kept and only 1 fish over 28 inches is allowed. The

season is open year round. The regulation would apply to the Wisconsin River north of the Prairie du Sac Dam in Columbia County up to the Grandfather Dam in Lincoln County. The regulation also applies to the river's sloughs, bayous, and flowages and certain connected waters: the Eau Claire River upstream to the Schofield Dam in Marathon County; the Yellow River to Lake Dexter Dam and Buena Vista Creek to the Nepco Dam in Wood County, and the Lemonweir River in Juneau and Monroe counties. The regulation has been in effect since 2002 and is scheduled to expire in 2014. The walleye protected slot limit regulation would also be applied to additional waters connected to the Wisconsin River under this proposal, but the season would only be open from the first Saturday in May to the first Sunday in March. Those waters are the Big Rib River downstream from Highway 29, Peplin Creek, Johnson Creek, Little Eau Claire River, and Little Eau Pleine River in Marathon County; and the Little Eau Claire River and the Little Eau Pleine River in Portage County. The regulation provides harvest, catch-and-release, and trophy fishing opportunities.

Sections 15, 20, 26, 45, 59, 64, 83, 86, 94, 105, 120, 126, 130, 142, 146, 161, 164, and 167 would remove the Northern Bass Management Zone early catch and release season for largemouth bass and allow their harvest under existing size and bag limits. Currently both largemouth and smallmouth bass must be released if caught in the Northern Bass Zone from the first Saturday in May to the Friday preceding the third Saturday in June. This change would mean that smallmouth bass must be immediately released during the early catch and release season but largemouth bass may be harvested beginning the first Saturday in May so long as the length and bag limits are followed. This proposal affects all waters that currently have an early catch and release season for bass in the Zone, including Lake Superior and its connected sloughs and the Kakagon River, tributaries to Lake Michigan north of STH 29 in Door and Kewaunee counties, and Wisconsin-Michigan boundary waters. The Northern Bass Zone includes waters north of State Trunk Highway (STH) 77 from its bridge over the St. Croix River east to STH 27, south on STH 27 to STH 64, east on STH 64 to where it ends in the City of Marinette and continuing due east to the shore of Green Bay and all waters north of STH 29 from its bridge over the Fox River east to where it ends in the City of Kewaunee.

Sections 6, 17, 22, 24, 27, 28, 30, 32, 43, 46, 50, 53, 55, 57, 62, 66, 69, 72, 75, 77, 84, 87, 89, 91, 95, 97, 100, 102, 103, 107, 110, 111, 114, 117, 125, 131, 134, 138, 140, 141, 147, 152, 154, 156, 158, and 163 simplify rough fish spearing season dates on inland waters statewide by opening waters in all but 9 northern counties to rough fish spearing year-round. The following areas will now be open to rough fish spearing year-round:

- 61 counties that currently have any open season for rough fish spearing,
- Pierce County that is currently closed to spearing, and
- all tributaries to Lake Michigan.

All Lake Winnebago System waters will have an April 21 to February 1 open season. Most of the System waters already have these open season dates, but some new waters will be included to ensure the entire system has the same open season. Lake Winnebago System waters include Lakes Buttes des Morts, Winneconne, Poygan, Winnebago and all their tributaries from their mouths upstream to the first dam including the Fox river from Lake Winnebago upstream to the dam above Princeton and all its tributaries from their mouths upstream to the first dam and the Wolf river from its mouth upstream to the dam in the City of Shawano and all its tributaries from their mouths upstream to the first dam including Cincoe lake, Partridge Crop lake and Partridge lake in Calumet, Fond du Lac, Green Lake, Marquette, Outagamie, Shawano, Waupaca, Waushara, and Winnebago counties.

Special nighttime spearing seasons for burbot, but no other species, will remain in Douglas and Ashland counties on four rivers, and a bow and arrow or crossbow only season from May 20 to July 1 in Fish Creek Slough in Bayfield County will also remain.

With this rule change, Ashland, Bayfield, Forest, Iron, Menominee, Oneida, Price, Sawyer, and Vilas counties will remain closed to rough fish spearing year-round. All trout streams statewide and Devils Lake in Sauk County will also remain closed. The May 20 to July 1 bow and arrow seasons in Iron and Sawyer counties as well as the March 15 to the Saturday before May 1 season on trout streams in Waushara County will be closed.

No changes will be made on Lake Michigan and Lake Superior which are already open year-round, and no changes will be made to Wisconsin-Minnesota boundary waters which are open April 21 to March 1.

All Wisconsin-Michigan boundary waters will be closed to rough fish spearing through Natural Resources Board Order FH-19-12.

Section 18 applies a daily bag limit of 1 fish and a 28-inch minimum length limit on walleye, sauger, and hybrids on Silver Lake, Barron County. The current regulation is a 5-fish daily bag limit and 15-inch minimum length limit.

Section 21 applies a daily bag limit of 2 fish and a 26-inch minimum length limit on northern pike on Diamond Lake, Bayfield County. The current regulation is a 1-fish daily bag limit and 32-inch minimum length limit.

Sections 34, 35, and 36 apply a 3-fish daily bag limit and 18-inch minimum length limit on walleye, sauger and hybrids; a 1-fish daily bag limit and 18-inch minimum length limit on largemouth and smallmouth bass; and a 1-fish daily bag limit and a 32-inch minimum length limit on northern pike on Park Lake and the Fox River upstream to the Highway 33 bridge. The management goal is to maintain low numbers of detrimental species, specifically common carp and gizzard shad, with the desired outcome of improving water clarity.

Section 39 designates Token Creek Ponds and Syene Ponds in Dane County as urban fishing waters with the following regulations:

- year round season only for youth 15 years of age and younger and certain disabled anglers,
- no length limits, and
- daily bag limits of 3 trout; 1 largemouth bass, smallmouth bass, walleye, sauger, walleye-sauger hybrid, or northern pike; and 10 panfish.

Sections 123 and 150 designate Lions Park Pond in Rock County and Lapham Peak Pond in Waukesha County as urban fishing waters with the following regulations:

- year round season – but a special season mid-March to mid-April only for youth 15 years of age and younger and certain disabled anglers,
- no length limits, and
- daily bag limits of 3 trout; 1 largemouth bass, smallmouth bass, walleye, sauger, walleye-sauger hybrid, or northern pike; and 10 panfish.

Section 135 corrects the regulations applied to urban ponds in Sheboygan County. Under this change, all designated urban ponds in Sheboygan County will have the same regulations, which provide a year-round open season and a special season for only youth and disabled anglers in March and April. This was the original intent of designating these waters and biologists and law enforcement staff encourage the change.

Section 41 would make permanent a daily bag limit of 3 fish and an 18-inch minimum length limit for walleye, sauger, and hybrids on Beaver Dam Lake and its tributaries, including Mill Creek from the mouth upstream to the Fox Lake dam and all portions of Beaver Creek in Dodge County. The regulation has been in effect since 2002 and is scheduled to expire in 2014.

Sections 47 and 148 apply a 5-fish daily bag limit and no minimum length limit, with only 1 fish over 14 inches allowed, to walleye, sauger, and hybrids on Minong Flowage, Douglas and Washburn counties. The regulation would apply upstream to the confluence of the Totagatic River with Bergen creek in Washburn County and to the connected Cranberry Lake in Douglas County. The current regulation is a 5-fish daily bag limit and 15-inch minimum length limit.

Section 48 applies a daily bag limit of 3 fish and an 18-inch minimum length limit on walleye, sauger, and hybrids on Lake Nebagamon, Douglas County. The current regulation is a 5-fish daily bag limit and 15-inch minimum length limit.

Section 52 applies a daily bag limit of 3 fish and no minimum length limit on largemouth and smallmouth bass, however all bass from 14 to 18 inches must be released and only 1 fish greater than 18 inches is

allowed, in Half Moon Lake, Eau Claire County. The current regulation is 14-inch minimum length limit and daily bag limit of 5 fish.

Section 56 applies a daily bag limit of 5 fish and a 15-inch minimum length limit on walleye, sauger, and hybrids in Patten Lake, Florence County, simplifying regulations to match general statewide walleye rules. The current regulation is a 5-fish daily bag limit and no minimum length limit, but only one fish over 14 inches is allowed.

Section 59 applies a daily bag limit of 3 fish and no minimum length limit on largemouth and smallmouth bass, however all bass from 14 to 18 inches must be released and only 1 fish greater than 18 inches is allowed in Trump Lake, Forest County. The current regulation is 18-inch minimum length limit and daily bag limit of 1 fish.

Section 65 applies a daily bag limit of 5 fish and no minimum length limit for northern pike on Lake Six in Iron County, simplifying regulations to match current northern zone pike rules. The current regulation is a 2-fish daily bag limit and 26-inch minimum length limit.

Section 67 applies a daily bag limit of 5 fish and a 15-inch minimum length limit on walleye, sauger, and hybrids on Sandy Beach Lake, Iron County, simplifying regulations to match general statewide walleye rules. The current regulation is a 5-fish daily bag limit and no minimum length limit but only 1 fish over 14 inches may be kept.

Sections 79, 80, and 81 apply a daily bag limit of 10 fish and no minimum length limit on catfish and open the catfish season year round in Yellowstone Lake, Lafayette County. This simplifies regulations to match general statewide rules. The current regulation is a 2-fish daily bag limit in combination with walleye or bass and only catfish between 15 and 24 inches may be kept. A combined walleye and bass bag limit regulation will remain.

Sections 98 and 99 apply a daily bag limit of 1 fish and an 18-inch minimum length limit on largemouth and smallmouth bass, as well as a 1-fish daily bag limit and 32-inch minimum length limit on northern pike in Lake Tomah. Currently, the regulations are a daily bag limit of 5 and a 14-inch length limit for bass and a daily bag limit of 2 and a 26-inch length limit for pike. The management goal is to protect large predator fish from harvest in order to maximize predation on smaller fishes and complete a chemical treatment plan.

Section 109 applies a daily bag limit of 25 fish and no minimum length limit for panfish on Thompson Lake, Pepin County, simplifying regulations to match general statewide rules. The current regulation is a 10-fish daily bag limit and no minimum length limit.

Section 113 applies a daily bag limit of 5 fish and no minimum length limit on largemouth and smallmouth bass on Balsam Lake, Polk County. The current regulation is a 5-fish daily bag limit and 14-inch minimum length limit. Section 115 makes administrative code language consistent with Section 113 and with current management practices.

Sections 130 and 132 apply a daily bag limit of 5 fish and no minimum length limit on largemouth and smallmouth bass and a daily bag limit of 3 fish and 18-inch minimum length limit on walleye, sauger, and hybrids on Big Chetac Lake, Sawyer County. The current regulation is a 5-fish daily bag limit and 14-inch minimum length limit for bass and 5-fish daily bag limit and 15-inch minimum length limit for walleye.

Section 137 applies a daily bag limit of 3 fish and no minimum length limit on largemouth and smallmouth bass, however all bass from 14 to 18 inches must be released and only 1 fish greater than 18 inches is allowed on Bass Lake, St. Croix County. The current regulation is 14-inch minimum length limit and daily bag limit of 5 fish.

Sections 142 and 143 makes permanent the current 1-fish daily bag limit and 18-inch minimum length limit for largemouth and smallmouth bass and changes the daily bag limit to 3 fish and the minimum length limit to 18-inches for walleye, sauger, and hybrids on Sparkling Lake, Vilas County. The current limits on walleye are a 1-fish daily bag limit and 28-inch minimum length limit which both sunset in March 2014.

Section 153 applies a daily bag limit of 10 fish for panfish on Little Hills Lake, Waushara County. The current daily bag limit is 25 panfish.

Sections 162 and 168 apply a daily bag limit of 1 fish and a 54-inch minimum length limit on muskellunge in Green Bay, Lake Michigan, and its tributaries north of Waldo Boulevard (in Manitowoc) and the Menominee River upstream to the Hattie Street Dam. The current regulation is a 1-fish daily bag limit and 50-inch minimum length limit.

Section 164 allows the department to make explicit, temporary changes to length or bag limits under certain conditions using a legally defined public notice process, a public information meeting if requested, and posting notice of the regulation change on public access sites of the water. The department currently may change length and bag limits using this process, rather than through an administrative rule change, if data show that there is slow growth or high contamination levels. This proposal would expand the DNR's ability to make length or daily bag limit changes to respond to the following conditions and for the following species:

a. A lake restoration project is in place to reduce detrimental fish species that includes bio-manipulation of a waterbody through increasing the abundance and biomass of predator game fish. The department may apply the following limits to particular species: 18-inch, 3-bag walleye; 18-inch, 1-bag largemouth or smallmouth bass; 32-inch, 1-bag northern pike; or 10-bag for panfish.

b. Fish have been removed or destroyed as a result of a rehabilitation program to reestablish a good supply of game fish. The department may apply the following limits to particular species: 18-inch, 3-bag walleye; 18-inch, 1-bag largemouth or smallmouth bass; 32-inch, 1-bag northern pike; or 10-bag for panfish.

c. An inland water has been documented to contain detrimental species, species nonindigenous to the waters of the state, or rough fish. In order to control the population of detrimental, nonindigenous, or rough fish species and protect the native fish populations, the department may apply the following minimum size limits to particular species: 18-inch, 3-bag walleye; 18-inch, 1-bag largemouth or smallmouth bass; 32-inch, 1-bag northern pike; or 10-bag for panfish.

d. The department finds that an evaluation of a size limit could not be completed before a sunset date. The department may extend the size limit and the limit shall remain the same and in full force and effect for 7 years from the date specified or until a permanent rule change is in place, whichever occurs first. The determination to extend a size limit sunset date shall be made within two years prior to the sunset date.

Sections 165 and 169 allow the department to adjust bag and length limits for walleye or muskellunge in the ceded territory in response to actual tribal harvest, rather than currently waiting until after the third Monday in May. Under current law, the department must wait until after the third Monday in May to raise the daily bag limit or reduce the minimum length limit based on expected safe harvest levels for specific waters. However, if ice out occurs earlier in the year, tribal harvest may also occur earlier. With this rule change, the department will be able to adjust bag limits and get that information to the public as early as possible.

Section 166 prohibits the use of lead tackle that is less than 1-inch in diameter or less than 1-ounce in weight on Escanaba, Nebish, and Palette lakes in Vilas County. The Natural Resources Board requested that the department carry out a pilot project to evaluate angler acceptance of non-toxic fishing tackle. The purpose of the project is to protect loons and other water birds that have been shown to ingest smaller sizes of tackle and to increase public awareness of the hazard that small sizes of lead-containing tackle pose to water birds.

6. Summary of and comparison with existing or proposed federal statutes and regulations.

Authority to promulgate fishing regulations is granted to states. None of the proposed changes violate or conflict with federal regulations.

7. Comparison with rules in adjacent states. Fisheries management rules are generally similar in the states surrounding Wisconsin. Each bordering state regulates fishing by the use of seasons, bag limits and size limits. Specific seasons and bag and size limits may differ for species among the surrounding states, but the general principles are similar. Michigan, Minnesota, Iowa, and Illinois all have statewide seasons and bag and size limits for fish species, along with special or experimental regulations on individual waters.

8. Summary of factual data and analytical methodologies. Fishing regulations in this rule, such as length and bag limits or season dates, are used as a tool to ensure good fishing exists into the future. The department has used different types of fishing regulations in order to: control angler impacts on fish populations, maintain numbers and sizes of fish in a lake or stream, provide different types of fishing experiences, and make access to fishing as fair as possible.

All rule change proposals were submitted by fish biologists and peer-reviewed for justification and enforceability by Fisheries Management supervisors and the Bureau Director, species management teams, and the Bureaus of Law Enforcement and Legal Services. Proposals were discussed with Wisconsin Conservation Congress members and will be presented at the 2013 Fish and Wildlife Spring Hearings. Proposals that reduce regulation complexity or eliminate a special regulation in favor of a statewide one were given preference.

9. Analysis and supporting documents used to determine effect on small business or in preparation of an economic impact analysis. The proposed rule does not apply directly to businesses, but to sport anglers. It is not expected that there will be any economic impact directly related to these rule changes. The department conducted an economic impact analysis to determine if any individuals, businesses, local governments, or other entities expect to be adversely affected economically. No comments were received.

10. Effects on small business. The rule is not expected to have an effect on small businesses. The proposed rule does not impose any compliance or reporting requirements on small businesses nor are any design or operational standards contained in the rule. The rules will be enforced by Conservation Wardens who have arrest powers and may use citations.

SECTION 164. NR 20.35(3) is amended to read:

NR 20.35(3) ALTERNATE LIMIT.

(a) Size limits. If the department finds under sub. (2) that one or more of the following conditions exists in a particular water, the corresponding alternate size limit shall apply to the named species of fish in that water.

1. No size limit shall apply to walleye, largemouth bass or smallmouth bass if, for the particular species in a particular water, the department finds that at least one of the following conditions exist:

~~1-~~ a. Angler exploitation of the species is less than 15% of the population of fish larger than the original size limit.

~~2-~~ b. Total adult mortality for that species is less than 30% of the population.

~~3-~~ c. More than 10% of the fish tested of that species in the size range from the originally applicable size limit to 3 inches larger than the originally applicable size limit, in fillets with the skin on, contain .75 parts per million or more mercury, 2 parts per million or more PCB (polychlorinated biphenyl), 5 parts per million or more DDT (dichloro diphenyl trichloroethane), 5 parts per million or more Toxaphene, 0.3 parts per million or more Chlordane, or 0.3 parts per million or more Dieldrin.

~~4-~~ d. Walleye males do not grow to a length of at least 13 inches in 4 years or largemouth bass or smallmouth bass do not grow to a length of at least 12 inches in 5 years in all inland waters lying ~~north of a line beginning at the state highway 70 bridge over the St. Croix river, then east on state highway 70 to its intersection with state highway 27, then south on highway 27 to its~~ east of a line following STH 13 from where it intersects US 2 in the city of Ashland south to its intersection with state highway 64, then east along highway 64 to its end, then continuing east to the waters of Green Bay or in inland waters of Brown, Kewaunee or Door counties north of a line beginning with the state highway 29 bridge over the Fox river, then east along state highway 29 to its end, then continuing east to Lake Michigan.

~~5-~~ e. Largemouth bass or smallmouth bass do not grow to a length of at least 14 inches in 6 years in inland waters other than those identified in subd. 1. d.

2. Alternate size limits may apply to walleye, largemouth bass, smallmouth bass, muskellunge, catfish, northern pike, or panfish if, for the particular species in a particular water, the department finds that at least one of the following conditions exist:

a. A lake restoration project is in place to reduce detrimental fish species that includes bio-manipulation of a waterbody through increasing the abundance and biomass of predator game fish. The department shall apply the following minimum size limits to particular species: 18-inch walleye, 18-inch largemouth or smallmouth bass, or 32-inch northern pike.

b. Fish have been removed or destroyed as a result of a rehabilitation program to reestablish a good supply of game fish. The department shall apply the following minimum size limits to particular species: 18-inch walleye, 18-inch largemouth or smallmouth bass, or 32-inch northern pike.

c. An inland water has been documented to contain detrimental species, species nonindigenous to the waters of the state, or rough fish. In order to control the population of detrimental, nonindigenous, or rough fish species and protect the native fish populations, the department shall apply the following minimum size limits to particular species: 18-inch walleye, 18-inch largemouth or smallmouth bass, or 32-inch northern pike.

d. The department finds that an evaluation of a size limit could not be completed before a sunset date listed in s. NR 20.20. The department may extend the size limit under sub. (2) and the limit shall remain the same and in full force and effect for 7 years from the date specified in s. NR 20.20 or until a permanent rule change is in place, whichever occurs first. The determination to extend a size limit sunset date under sub. (2) shall be made within two years prior to the sunset date listed in s. NR 20.20.

(b) *Bag limits.* If the department finds under sub. (2) that one or more of the following conditions exists in a particular water, the corresponding alternate bag limit shall apply to the named species of fish in that water.

1. Alternate daily bag limits may apply to walleye, largemouth bass, smallmouth bass, muskellunge, catfish, northern pike, or panfish if, for the particular species in a particular water, the department finds that at least one of the following conditions exist:

a. A lake restoration project is in place to reduce detrimental fish species that includes bio-manipulation of a waterbody through increasing the abundance and biomass of predator gamefish. The department shall apply the following daily bag limits to particular species: 3 walleye, 1 largemouth or smallmouth bass, 1 northern pike, or 10 panfish.

b. Fish have been removed or destroyed as a result of a rehabilitation program to reestablish a good supply of game fish. The following daily bag limits shall apply to particular species: 3 walleye, 1 largemouth or smallmouth bass, 1 northern pike, or 10 panfish.

c. An inland water has been documented to contain detrimental species, species nonindigenous to the waters of the state, or rough fish. In order to control the population of detrimental, nonindigenous, or rough fish species and protect the native fish populations, the department shall apply the following daily

bag limits to particular species: 3 walleye, 1 largemouth or smallmouth bass, 1 northern pike, or 10 panfish.

d. The department finds that an evaluation of a daily bag limit could not be completed before a sunset date listed in s. NR 20.20. The department may extend the daily bag limit under sub. (2) and the limit shall remain the same and in full force and effect for 7 years from the date specified in s. NR 20.20 or until a permanent rule change is in place, whichever occurs first. The determination to extend a daily bag limit sunset date under sub. (2) shall be made within two years prior to the sunset date listed in s. NR 20.20.

SECTION 165. NR 20.36(2) is amended to read:

NR 20.36(2) READJUSTMENT. ~~After the third Monday in May,~~ In response to actual tribal harvest, the secretary may raise the daily bag limit or reduce the minimum size limit to the limit specified as appropriate using the percent of the safe harvest level expected to be harvested through the first Sunday in March of the next year as indicated in sub. (1). If actual harvest subsequently exceeds the expected harvest level, the daily bag limit for walleye may be reduced or the minimum size limit for muskellunge may be increased the following year to reflect actual harvest for that year and harvest goals of the Chippewa bands for the next year. If a new population estimate is made, the safe harvest level shall be changed accordingly and the secretary may adjust the daily bag limit or minimum size limit according to the percentage of the new safe harvest level that is expected to be harvested as indicated in sub. (1), where deemed necessary to remain consistent with the safety factors established under *Lac Courte Oreilles v. State of Wis.*, 707 F. Supp. 1034 (W. D. Wis. 1989). The readjusted daily bag and size limits shall be in effect until ~~March~~ the first Sunday in March of the year following the tribal harvest.

SECTION 166. NR 20.41(4) is created to read:

NR 20.41(4) AUTHORIZED METHODS. No person may fish in Escanaba, Nebish, or Pallette Lakes while possessing fishing line with attached lead-containing jig-heads, sinkers, and weights that weigh less than 1 ounce or that measure less than 1 inch in any dimension.

SECTION 167. NR 23.05(5)(d) is amended to read:

NR 23.05 **Hook and line fishing.** (5) The seasons, size limits and bag and possession limits for hook and line fishing in the Wisconsin–Michigan boundary waters for the species listed in this subsection, except as provided in s. NR 23.06, are as follows:

(d) LARGEMOUTH BASS AND SMALLMOUTH BASS	1. All boundary waters	First Saturday in May to December 31	0, 0 for <u>smallmouth</u> bass, 5 for <u>largemouth</u> bass beginning the first Saturday in May to the Friday preceding the third Saturday in June	<u>14 for</u> <u>largemouth</u> <u>bass only</u>
			5 in total for the third Saturday in June to December 31	14

SECTION 168. NR 23.05(5)(e) is amended to read:

NR 23.05 **Hook and line fishing.** (5) The seasons, size limits and bag and possession limits for hook and line fishing in the Wisconsin–Michigan boundary waters for the species listed in this subsection, except as provided in s. NR 23.06, are as follows:

(e) MUSKELLUNGE	1. Menominee river from the Hattie Street dam in the city of Marinette downstream to the eastern end of the breakwalls in Green Bay	May 15 to November 30	1	50 <u>54</u>
--------------------	---	--------------------------	---	-------------------------

SECTION 169. NR 23.055(2) is amended to read:

NR 23.055(2) **READJUSTMENT.** ~~After the third Monday in May,~~ In response to actual tribal harvest, the secretary may raise the daily bag limit or reduce the minimum size limit to the limit specified as appropriate using the percent of the safe harvest level expected to be harvested as indicated in sub. (1). If a new population estimate is made, the safe harvest level shall be changed accordingly and the daily bag limit or minimum size limit shall be adjusted according to the percentage of the new safe harvest level that is expected to be harvested as indicated in sub. (1). The readjusted daily bag and size limits shall be in effect until the first Sunday in March of the year following the tribal harvest.

SECTION 170. NR 23.08 is amended to read:

NR 23.08 **Motor trolling.** Fishing from a motor-driven boat when the motor is running or from any

boat in tow of a motor-driven boat when the motor is running is authorized on all Wisconsin-Michigan boundary waters ~~except Vilas county waters.~~

SECTION 171. EFFECTIVE DATE. This rule shall take effect April 1, 2014, except Sections 7, 8, 164, 165, and 169 that shall take effect on the first day of the month following publication in the Wisconsin Administrative Register, as provided in s. 227.22(2)(intro.), Stats.

SECTION 172. BOARD ADOPTION. This rule was approved and adopted by the State of Wisconsin Natural Resources Board on _____.
