ANALYSIS

Statutes interpreted:

s. 453.03 (1), Stats.

Statutory authority:

ss. 15.08 (5) (b), 227.11 (2) (a), and 453.03 (1), Stats.

Explanation of agency authority:

Examining boards are generally authorized by ss. 15.08 (5) (b), and 227.11 (2) (a), Stats., to promulgate rules for their own guidance and for guidance within the profession and to promulgate rules interpreting any statute enforced or administered by it. Section 453.03 (1), Stats., specifically authorizes the Veterinary Examining Board to draft rules relating to current practice within the profession. Therefore, the Veterinary Examining Board is authorized both generally and specifically to draft these rules.

Related statute or rule:

Wisconsin Admin. Code ch. 1.02, 7, 8, and 9

Plain language analysis:

The Veterinary Examining Board is mandated by s. 453.03 (1) Stats., to review its rules once every 5 years for the purpose of bringing the rules into conformity with current practices within the Veterinarian profession. In so doing, the Board has taken this opportunity to draft provisions covering various topics in its rules. The topics include defining terms such as surgery and advertising, and delineating the information that should be in a patient's records. With regard to patient records the proposed rule specifically proposes to amend s. VE 7.03 (1), VE 7.03 (2) and VE 7.03 (3) to reflect items required in the patient records for small animals, farm animals, and equine patients. The proposed rule also gives consideration to advertising as a specialist when one is not properly credentialed to do so.

Summary of, and comparison with, existing or proposed federal regulation:

None

Comparison with rules in adjacent states:

Illinois:

Veterinary professionals that fail to maintain medical records in Illinois violate the Standards of Professional Conduct ILL. Admin. Code tit. 68 §1500.50 Medical records may include, but are not limited to: patient identification information, client identification information, dated reason for visit and pertinent history, physical exam findings, and

diagnostic, medical, surgical or therapeutic procedures performed. Medical records must be kept for a minimum of 5 years from the last contact with the patient.

Iowa:

Iowa's statutes and administrative rules are silent as to the requirements for medical records.

Michigan:

Michigan requires medical records must be maintained for a minimum of 3 years from the date of the last veterinarian service. Records may be maintained in written, electronic, audio or photographic format. Mich. Admin. Code r. 338.4921 The required information in the medical records includes, but is not limited to, the following: identification of the species of the patient, date of the last veterinary service, name, address, and telephone number of the client, vaccination history if known, and results of the physical examination. Michigan statutes and administrative rules are silent on advertising requirements for Veterinary professionals.

Minnesota:

Minnesota Veterinarians may generate either a written or computer record which details the name, address, and telephone number of the owner, identity of the animals, including age, sex, and breed, date of examination or treatment and surgery, a brief history of the condition of each animal, herd, or flock, examination findings, laboratory and radiographic reports, tentative diagnosis, treatment plan, and medication and treatment. Records must be kept for 3 years after the last visit. MINN. r. 9100.08000 subp. 4

Summary of factual data and analytical methodologies:

The Veterinary Examining Board ensures the accuracy, integrity, objectivity and consistency of data were used in preparing the proposed rule and related analysis.
