---

**Analysis Prepared by the Department of Agriculture,  
Trade and Consumer Protection**

This rule makes minor technical changes to a number of current rules administered by the department of agriculture, trade and consumer protection (“DATCP”).

***Statutes Interpreted***

Statutes Interpreted: ss. 91.02, 92.05, 93.48, 94.01(1), 94.64, 94.65, 94.69, 94.72, 94.73, 97.27, 98.07, 100.20 and 100.30, and ch. 168, Stats.

***Statutory Authority***

Statutory Authority: ss. 91.02, 92.05 (3) (c), 93.07 (1), 93.48 (1), 94.01(1), 94.64 (9), 94.65 (9), 94.69 (1), 94.72 (13), 94.73 (11), 97.27 (5), 98.07 (4), 100.20 (2) (a), 100.30 and ch. 168, Stats.

***Explanation of Statutory Authority***

DATCP has general authority, under s. 93.07(1), Stats., to adopt rules to interpret laws under its jurisdiction. It also has specific rulemaking authority related to various matters addressed by this rule (see above). This rule makes minor changes to a number of different rules administered by DATCP. The changes are adopted under essentially the same authority used to adopt the original rules.

### ***Related Rules or Statutes***

This rule is not substantially affected by statutes or rules other than those identified in this rule.

### ***Plain Language Analysis***

This rule makes minor or technical changes to a number of current DATCP rules. This rule does all of the following:

#### **Plant Inspection and Pest Control**

Makes a small change indicating that a responsible state agency, rather than a U.S. department of agriculture official, may now declare an area to be infested with thousand cankers disease.

#### **Pesticide Use and Control**

- Decreases licensing fees and surcharges to be consistent with recent statutory changes.
- Corrects spelling and capitalization errors.
- Changes several notes to provide online resources for certification, training and examination materials.

#### **Pesticide Product Restrictions**

- Corrects incorrect references to subsections and the misspelling of “strychnine.”
- Amends notes to update website addresses.
- Removes outdated reference to treatment of aldicarb from the 1980s.
- Incorporates by reference the most recent edition of the current rule standard concerning pesticide poisonings.
- Modifies the record keeping provision relating to chloropicrin to reflect that soil temperature at the time of application is not required to be kept.

#### **Fertilizer and Pesticide Bulk Storage**

- Incorporates by reference the most recent edition of minimum design standards for concrete agrichemical containment.
- Updates sections relating to the use of tarps for dry fertilizer unloading from railway cars and sections relating to asphalt and concrete block structures.

#### **Agricultural Chemical Cleanup Program**

Amends references required by the renumbering of an administrative code chapter relating to the department of natural resources and corrects a statutory reference to “hazardous substance.”

#### **Fertilizer and Related Products**

- Decreases various license and tonnage fees and surcharges to be consistent with recent statutory changes.
- Incorporates by reference the most recent edition of the current rule standard concerning fertilizers.

### **Commercial Feed**

Updates the technical standards in the current rule to the most recent versions. Several notes have been modified to add more information about obtaining electronic copies of those publications.

### **Farmland Preservation**

Makes a small change to add language into the zoning section to match language used in the planning section.

### **Soil and Water Resource Management Program**

Updates several sections to reference the current versions of technical standards.

### **Food Warehouse and Bulk Milk Distributors**

Corrects an outdated fee structure relating to the re-inspection of small warehouses which hold non-potentially hazardous foods versus those that hold potentially hazardous foods.

### **Fair Packaging and Labeling; Selling Commodities by Weight, Measure or Count; Weights and Measures; Petroleum and Other Liquid Fuel Products**

Corrects small grammatical errors and updates the technical references to cite the current NIST Handbook and ATSM fuel standards.

### **Sales Below Cost**

Corrects a grammatical error.

### **Electronic Communications Services**

Aligns the rule with recent legislature changes.

### **Direct Marketing**

Deletes a note no longer necessary in that section.

### **Agricultural Development and Market Promotion**

Amends the “Buy Local” section to reflect a statute change that directs the matching requirement to be an amount at least equal to the grant amount.

### ***Standards Incorporated by Reference***

Pursuant to s. 227.21, Stats., DATCP has received permission from the Department of Justice to incorporate the updated technical standards incorporated by reference in this rule. Copies of the updated standards will be kept on file with DATCP and the Legislative Reference Bureau.

### ***Summary of, and Comparison with, Existing or Proposed Federal Statutes and Regulations***

The technical rule changes proposed in this rule will not create any disparities between Wisconsin rules and federal statutes and regulations.

### ***Comparison with Rules in Adjacent States***

The technical rule changes proposed in this rule will not create any disparities between Wisconsin and the adjacent states.

### ***Summary of Factual Data and Analytical Methodologies***

This rule does not depend on any complex analysis of data. This rule merely makes minor technical changes to current rules.

### ***Analysis and Supporting Documents Used to Determine Effect on Small Business***

Because this rule makes minor technical changes, no significant analysis or documentation was required to determine that the proposed rule will have no impact on small businesses.

### ***Effect on Business Impact***

This rule will not have any impact on small businesses or other business. This rule makes minor technical changes that will not have any impact on business standards, costs or operations. See the complete *Final Regulatory Flexibility Analysis* that accompanies this rule.

### ***Environmental Impact***

This “housekeeping” rule will have no significant impact on the environment.
