17. Compare With Approaches Being Used by Federal Government

42 USC 9858c (c) (2) (S) requires that the payment practices of child care providers that serve children who receive assistance reflect generally accepted payment practices of child care providers that serve children who do not receive assistance, so as to provide stability of funding and encourage more child care providers to serve children who receive assistance.

A State Plan shall include a description of how the Lead Agency will prevent, reduce, and collect improper payments, including a process to investigate and recover fraudulent payments and to impose sanctions on clients or providers in response to fraud.

Lead Agencies must have systems in place to document that CCDF funds are spent in compliance with the law and the approved plan. Expenditures not made in accordance with the Child Care Development Block Grant Act, implementing regulations, or the approved CCDF Plan are subject to disallowance, pursuant to 45 CFR 98.66(a).

Lead agencies must ensure that child care providers receive payment for any services in accordance with a written payment agreement or authorization for services that includes, at a minimum, information regarding provider payment policies, including rates, schedules, any fees charged to the providers, and dispute resolution process

18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)
