17. Compare With Approaches Being Used by Federal Government
None.

18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)
Illinois:

The Illinois Department of Financial and Professional Regulation licenses clinical psychologists, prescribing psychologists, prescribing psychologists controlled substance, and prescribing psychologists clinical rotation program. Random audits of continuing education are performed. Additionally, Illinois offers “restoration” of an inactive license requiring verification of active practice is another jurisdiction, one year in an approved education program, six months in a supervised experience, or passing the examination.

Iowa:

The Iowa Board of Psychology is in the Bureau of Professional Licensure in the Department of Public Health. Random audits of continuing education are performed each renewal cycle. Additionally, Iowa offers “reactivation” of an inactive license, requiring an application, fee, verification of competence through a current license in another jurisdiction, and evidence of having completed 40 hours of continuing education, or, if the license has been inactive for more than five years, evidence of having completed 80 hours of continuing education.

Michigan:

The Michigan Board of Psychology is in the Department of Licensing and Regulatory Affairs. Continuing education is required for renewal starting in September 2019, and the department may audit licensees. Additionally, Michigan offers “relicensure.” If a license expired less than three years ago, the licensee is required to complete 40 hours of continuing education. If it has been more than three years, complete 40 hours of continuing education and provide evidence of a current license in another jurisdiction or, if no current license, complete the examination.

Minnesota:

The Minnesota Board of Psychology is a stand-alone agency. Random audits of continuing education are performed each month. Additionally, the Board offers “relicensure” after a voluntary or board termination if the licensee has not practiced without a license and complied with the requirements for examination and licensure in effect at the time of application for relicensure.
