ADMINISTRATIVE RULES Fiscal Estimate & Economic Impact Analysis

17. Compare With Approaches Being Used by Federal Government The federal regulations that govern the U.S. armed forces are included under Title 32 of Us. Code of Federal Regulations.

18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota) Illinois: Neither the Illinois statutes nor the administrative rules for medical practice include requirements for military medical personnel. The Illinois Service Member Employment and Reemployment Rights Acts includes general provisions for employment for all military personnel, but none are specific to medical or healthcare practice [330 Illinois Compiled Statutes ch. 61].

Iowa: The Iowa Administrative Code includes rules relating to medical practice. These requirements also include rules on military service and veteran reciprocity. Military service members can apply to have their service and training counted for credit toward licensure as a medical physician or surgeon, osteopathic physician or surgeon, or licensed acupuncturist. Veterans can apply for provisional licensure to service members who are licensed in another jurisdiction with a credential that is not substantially equivalent to an Iowa license. This provisional license allows for that Veteran to obtain the additional experience or education needed for a regular Iowa license. Iowa also has rules for reciprocal licensure for veterans and their spouses that are licensed in other jurisdictions and that license is substantially equivalent to an Iowa license [653 Iowa Administrative Code ch. 18]. The Iowa statutes and rules for medicine and surgery do not include requirements specifically for military medical personnel supervision and practice.

Michigan: The Michigan rules for medicine do not include requirements specifically for military medical personnel supervision and practice.

Minnesota: Chapter 197 of the Minnesota Statutes includes requirements for expedited licensing processing and temporary licensure for former and current military personnel. The expedited licensing process is for those service members who are otherwise qualified to obtain licensure in an efficient manner. The temporary license process allows certain qualified service members who are licensed in another state to practice while waiting for a regular license to be granted [Minnesota Statutes ch. 197]. The Minnesota statutes and rules for medicine do not include requirements specifically for military medical personnel supervision and practice.
