11. Policy Problem Addressed by the Rule Wisconsin Administrative Code Chapter Chir 3 currently includes a requirement for CPR certification every two years. Every renewal period, licensees are required to also file evidence with the Department that they are certified in CPR or have been granted a waiver from the Chiropractic Examining Board. The CPR requirement is not required by Wisconsin statutes; however, it has been considered beneficial to the practice of Chiropractic for many years as a licensure requirement. The Board conducted an evaluation of ch. Chir 3 and has determined to remove the requirements relating to cardiopulmonary resuscitation (CPR) in Wisconsin Administrative Code.

DSPS estimates a total of \$5,900 in one-time costs and \$400 in annual costs for staffing and an indeterminate one-time IT impact to implement the rule. The estimated need for 0.1 limited term employees (LTE) is attributed to rule promulgation, staff training, and website and forms updates. The estimated annual staffing need accounts for staff tasks associated with customer service and communication with license applicants. The estimated costs cannot be absorbed in the currently appropriated agency budget.	
15. Benefits of Implementing the Rule and Alternative(s) to Implementing the Rule The benefits of implementing this rule are that chiropractors would not have a renewal requirement that is not consistent with the Statutes.
