PROPOSED ORDER

An order of the Medical Examining Board to amend Med 10.02 (2) (s) (intro.) and (zb) (intro.), relating to prescribing or dispensing schedule II amphetamines or schedule II anorectics.

Analysis prepared by the Department of Regulation and Licensing.

ANALYSIS

Statutes authorizing promulgation: ss. 15.08 (5) (b), 227.11 (2) and 448.40 (1), Stats.

Statutes interpreted: s. 961.16 (5), Stats.

In this proposed rule-making order the Medical Examining Board clarifies the conflict between prohibiting the prescribing or dispensing of Schedule II amphetamines except for certain specified purposes, and permitting the prescribing or dispensing of Schedule II anorectics for weight control if certain conditions are met. The board eliminates the reference to Schedule II anorectics in s. Med 10.02 (2) (zb), in order to clarify the situation, because there is no Schedule II anorectic that is not an amphetamine or sympathomimetic amine. Stimulants currently listed in ch. 961, Stats., as Schedule II substances include amphetamine, methamphetamine, pentobarbital and methylphenidate. Amphetamine and methamphetamine are amphetamines, and pentobarbital is a sympathomimetic amine. Accordingly, methamphetamine (Ritalin®) is the only Schedule II stimulant which is not also an amphetamine or sympathomimetic amine, and methylphenidate is not classified as an anorectic. As to the question whether anorectic stimulant drugs currently listed in Schedule III or IV may be elevated to Schedule II, there are not any sympathomimetic amines so as to fall within the requirements of the amphetamine rule if raised to Schedule II.

TEXT OF RULE

SECTION 1. Med 10.02 (2) (s) (intro.) and (zb) (intro.) are amended to read:

Med 10.02 (2) (s) (intro.) Prescribing, ordering, dispensing, administering, supplying, selling, or giving any amphetamine, or sympathomimetic amine drug or compound designated as a schedule II controlled substance pursuant to the provisions of s. 961.16 (5), Stats., to or for any person except for any of the following:

(zb) (intro.) Prescribing, ordering, dispensing, administering, supplying, selling or giving any anorectic drug designated as a schedule II, III, IV or V controlled substance for the purpose of weight reduction or control in the treatment of obesity unless each of the following conditions is met:
