ANALYSIS PREPARED BY THE OFFICE OF THE COMMISSIONER OF INSURANCE (OCI)

1. Statutes interpreted:

ss. 185.983 (1m), 600.03, 601.01 (2), 609.01 (1g) (b), 625.16, 628.34 (12), 628.38, 631.20 (2), 632.73 (2m), 632.76 (2) (b) and 632.81, 632.895 (6) and (9), Wis. Stats.

2. Statutory authority:

ss. 601.41, 625.16, 628.34, 628.38, 632.73, 632.76, 632.81, Wis. Stats.

3. Explanation of the OCI's authority to promulgate the proposed rule under these statutes:

The statutes all relate to the commissioner's authority to promulgate rules regulating the business of insurance as it relates to Medicare supplement and Medicare replacement insurance products. Specifically, ss. 601.41, 625.16, 628.38, 632.73, 632.76, and 632.81, Wis. Stats., permit the commissioner to promulgate rules regulating various aspects of Medicare supplement and Medicare replacement products while ss. 628.34, and 628.38, Wis. Stats.,

authorize the commissioner to promulgate rules governing disclosure requirements and unfair marketing practices for disability policies, which includes Medicare supplement and Medicare replacement products.

4. Related Statutes or rules:

The Centers For Medicare & Medicaid Services (CMS) has delegated to the National Association of Insurance Commissioners, (NAIC) the function implementing the Medicare Prescription Drugs, Improvement and Modernization Act (MMA) of 2003. CMS delegates enforcement of MMA and the underlying Medicare supplement and Medicare replacement insurance products to the states that have incorporated into the states insurance regulations, the NAIC Model Act. To date Wisconsin has passed through statute and most frequently administrative rule, NAIC Model Act governing the Medicare supplement and Medicare replacement products. In Wisconsin Medicare supplement and Medicare replacement products are currently regulated through s. Ins 3.39, Wis. Adm. Code, inclusive of the appendices. The proposed rule modifies s. Ins 3.39, Wis. Adm. Code, and several appendices in order to comply with the MMA and NAIC requirements, to the extent necessary, and updates the appendices to reflect current requirements.

5. The plain language analysis and summary of the proposed rule:

The proposed rule implements modifications required by the NAIC Medicare Supplement Insurance Minimum Standards Model Act. The rule broadens and clarifies guarantee issue rights for persons who are also Medicaid eligible or who are or were insured by an employer sponsored health insurance plan. The MMA also created Medicare Part D for outpatient prescription drug coverage and requires the states to mandate modifications in Medicare supplement and Medicare replacement policies to ensure that benefits are not duplicated. The rule preserves the regulatory oversight of products primarily sold to Wisconsin seniors and maintains rigorous standards for disclosures benefits, consumer rights and marketing practices.

Medigap policies are policies purchased by Medicare beneficiaries to cover Medicare deductibles, co-insurance and selected services that Medicare does not cover. Medicare establishes eligibility rules, benefits and coverage limits. The proposed rule incorporates the NAIC Model Act into Wisconsin's current Medicare supplement and Medicare replacement rules. In compliance with the MMA, the rule proposes to create two cost-sharing Medicare supplement policies and two cost-sharing Medicare select policies and rename Medicare + Choice to Medicare Advantage. As a result of the additional new cost-sharing plans, the existing Medicare supplement insurance high deductible plan and high deductible drug plan will no longer be permitted to be sold after December 31, 2005. The rule revises the standards for Medicare supplement and Medicare replacement plans to eliminate outpatient prescription drug coverage for those who enroll in Medicare Part D; and prohibits the sale of outpatient prescription drug coverage in Medigap policies after December 31, 2005, when Medicare Part D comes into effect.

The proposed rule allows individuals currently covered by Medicare supplement and Medicare replacement policies that provide outpatient prescription drug coverage the opportunity to maintain their current coverage. However, the federal MMA states that insured individuals who choose to maintain existing coverage with the drug benefit will be subject to a penalty if they decide to apply for Medicare Part D coverage after January 1, 2006. This modification is significant as current Wisconsin regulation requires Medicare supplement and Medicare replacement policies to include a catastrophic coverage for 80% of outpatient prescription drug charges that exceed $6,250 per calendar year and provides that plans may offer an option outpatient prescription drug rider. The removal of the drug benefit is required so as not to duplicate the benefit offered through the newly created Medicare Part D.

Additionally, Wisconsin issuers of Medicare supplement and Medicare replacement policies are currently required to cover as basic benefits several state mandated benefits

including but not limited to diabetic supplies and equipment, skilled nursing home stays, and HIV prescription drugs. In order to comply with MMA, some of these benefits are amended in the proposed rule and the mandate for covering outpatient prescription medications is deleted.

The proposed rule repeals and recreates the requirements for Medicare cost plans due to a change of enforcement position by CMS. The proposed rule revises the basic benefit requirements for Medicare cost plans by removing all requirements that would add benefits beyond what is covered by Medicare. Medicare cost plans may continue to offer "enhanced" plans, but most also offer the option of purchasing a Medicare cost "basic" product.

The proposed rule clarifies for Medicare supplement, Medicare select and enhanced Medicare cost plans that OCI requires issuers to pay for inpatient hospitalization expenses (under Medicare Part A) at the Medicare reimbursement rate, a change that will limit issuers financial exposure on prolonged hospitalizations. Additionally, the proposed rule clarifies that the skilled nursing home benefit mandated by Wisconsin statute is an additional benefit and that an issuer cannot count as meeting the mandate the co-payment required under Medicare Part B. Rather, the proposed rule clarifies that the Wisconsin mandate is a separate additional benefit to insureds. Other modifications to Ins. 3.39, Wis. Adm. Code, include the addition of specific reference to Medicare select and Medicare cost plans where appropriate. Due to heightened concern for seniors, the rule also clarifies that it is improper and unnecessary for a senior to have more than one Medicare supplement, Medicare select, Medicare cost or Medicare Advantage plan at any one time.

Finally, the rule includes modifications to several appendices. With the addition of four cost-sharing plans and the change to basic Medicare cost plans, the current outline of coverage contained in Appendix 1 was inadequate to sufficiently and accurately represent the benefits and describe to seniors what the various types of Medicare supplement or Medicare

replacement products offer. Although proposed the outlines of coverage are presented now in four subparts, Appendix 1 will provide issuers and consumers clear information and disclosures regarding the products. Five additional appendices -- Appendix 3, 4, 5, 6 and 8 – are revised to reflect changes in the NAIC Model Act or to reflect current reporting requirements of the commissioner.

6. Summary of and preliminary comparison with any existing or proposed federal regulation that is intended to address the activities to be regulated by the proposed rule:

The NAIC Model Act implements MMA and previous federal Medicare supplement and Medicare replacement regulations. CMS delegated to the states through NAIC regulation of insurers offering Medicare supplement and Medicare replacement plans. Currently states are preempted from regulating Medicare + Choice plans and will be prohibited from requiring state mandated benefits in the Medicare cost basic product.

7. Comparison of similar rules in adjacent states as found by OCI:

Iowa: Iowa makes available to its Medicare beneficiaries Medigap policies A through J as required by the Medicare reform provisions under OBRA 1990 and the prior NAIC Model Regulation. Iowa will have to amend its regulations to create new Medigap plans K and L, and to eliminate prescription drug coverage under its standard H, I and J Medigap policies for those who enroll in Medicare Part D. It also will have to amend its regulations to include the prohibitions and other changes under MMA.

Illinois: Illinois makes available to its Medicare beneficiaries Medigap policies A through J as required by the Medicare reform provisions under OBRA 1990, and the prior NAIC Model Regulation. Illinois will have to amend its regulations to create new Medigap plans K and L, and to eliminate prescription drug coverage under its standard H, I and J Medigap policies for those who enroll in Medicare Part D. It

also will have to amend its regulations to include the prohibitions and other changes under MMA.

Minnesota: Minnesota, like Wisconsin, received a waiver from the federal standardization regulations. Minnesota makes available to its Medicare beneficiaries two standardized policies (basic and extended basic), both of which may include optional riders to cover prescription drugs. Minnesota will have to amend its Medicare supplement regulations to create two cost-sharing plans, and eliminate the optional riders that cover prescription drugs. It also will have to amend its regulations to include the prohibitions and other changes under MMA.

Michigan: Michigan makes available to its Medicare beneficiaries Medigap policies A through J as required by the Medicare reform provisions under OBRA 1990, and the prior NAIC Model Regulation. Michigan will have to amend its regulations to create new Medigap plans K and L, and to eliminate prescription drug coverage under its standard H, I and J Medigap policies for those who enroll in Medicare Part D. It also will have to amend its regulations to include the prohibitions and other changes under MMA.

8. A summary of the factual data and analytical methodologies that OCI used in support of the proposed rule and how any related findings support the regulatory approach chosen for the proposed rule:

CMS data indicates that Medicare currently covers 40 million Americans, 806,000 of whom are Wisconsin residents. An estimated 27 percent of Medicare beneficiaries are covered by Medigap policies.

Information collected by the OCI indicates that 40 insurance companies offer Medicare supplement, Medicare cost and Medicare select (Medigap) policies to Wisconsin consumers

eligible for Medicare due to age or disability. In addition, there are 25 insurance companies that have Medigap policyholders although the companies no longer market Medigap coverage in Wisconsin. At year end 2003, there were 308,875 Wisconsin Medicare beneficiaries with Medigap policies. The majority of these Wisconsin Medicare beneficiaries have Medigap policies that will be affected by the Medigap reforms under the MMA.

A 2000 report by CMS, Office of Research, Development, and Information, based on 1999 Medicare data indicates that Medicare paid 53% of the health care expenses of persons 65 or over, and private health insurance, including Medicare supplement policies paid 12% of these health care expenses. The report indicated that overall annual medical expenses per Medicare beneficiaries equaled $9,573.

9. Any analysis and supporting documentation that OCI used in support of OCI's determination of the rule's effect on small businesses under s. 227.114:

OCI reviewed financial statements and other reports filed by life, accident and health insurers and determined that none qualifies as a small business. Wisconsin currently has 40 insurance companies offering Medicare supplement, Medicare cost and Medicare select insurance plans. None of these insurers meet the definition of a small business under s. 227.114, Wis. Stats.

10. If these changes may have a significant fiscal effect on the private sector, the anticipated costs that will be incurred by private sector in complying with the rule:

The proposed rule will not significantly impact the private sector. Insurers offering Medigap policies (Medicare supplement, Medicare cost, and Medicare select policies) will incur costs associated with developing new Medigap policies and marketing materials, mailing riders and explanatory materials to existing policyholders and reprogramming claim processing systems. However, these costs are offset by the insurers' ability to continue offering Medigap policies to Wisconsin consumers.

The MMA prohibits insurance companies and insurance agents from marketing in Wisconsin current Medigap policies after December 31, 2005. Failure to amend s. Ins 3.39, Wis. Adm. Code, will mean that Wisconsin Medicare beneficiaries will not have access to coverage that supplements Medicare benefits.

11. A description of the Effect on Small Business:

This rule does not have a significant impact on regulated small businesses as defined in s. 227.114 (1), Wis. Stat. OCI maintains a database of all licensed insurers in Wisconsin. The database includes information submitted by the companies related to premium revenue and employment. In an examination of this database, OCI identified that 40 insurance companies offer Medicare supplement, Medicare cost and Medicare select (Medigap) policies to Wisconsin consumers eligible for Medicare due to age or disability and none of those companies qualify by definition as a small business. In addition, there are 25 insurance companies that have Medigap policyholders although the companies no longer market Medigap coverage in Wisconsin. Again, none of these 25 companies qualifies by definition as a small business.

NOTICE TO APPLICANT REGARDING REPLACEMENT OF MEDICARE SUPPLEMENT, MEDICARE COST, MEDICARE SELECT, MEDICARE ADVANTAGE OR EXISTING ACCIDENT AND SICKNESS INSURANCE

(Insurance company's name and address)

SAVE THIS NOTICE! IT MAY BE IMPORTANT TO YOU IN THE FUTURE

According to [your application] [information you have furnished], you intend to terminate existing ~~medicare~~Medicare supplement, Medicare cost, Medicare select or Medicare Advantage insurance ~~or other health insurance~~ and replace it with a policy to be issued by [Company

Name] Insurance Company. Your new policy will provide thirty (30) days within which you may decide without cost whether you desire to keep the policy.

You should review this new coverage carefully. Compare it with all accident and sickness coverage you now have. If, after due consideration, you find that the purchase of this Medicare supplement, Medicare cost, Medicare select or Medicare Advantage coverage is a wise decision, you should terminate your present Medicare supplement, Medicare cost, Medicare select, or Medicare Advantage coverage. You should evaluate the need for other accident and sickness coverage you have that may duplicate this policy.

STATEMENT TO APPLICANT BY ISSUER, AGENT [BROKER OR OTHER REPRESENTATIVE]:

I have reviewed your current medical or health insurance coverage. To the best of my knowledge, this Medicare supplement, Medicare cost, Medicare select or Medicare Advantage policy will not duplicate your existing Medicare supplement, Medicare cost, Medicare select or, if applicable, Medicare Advantage coverage because you intend to terminate your existing Medicare supplement, Medicare cost, Medicare select coverage or leave your Medicare Advantage plan. The replacement policy is being purchased for the following reason(s):

____________Additional benefits.
____________No change in benefits, ~~and~~but lower premiums.
____________Fewer benefits and lower premiums.
______ My plan has prescription drug coverage and I am enrolling in Medicare Part D.
______ Disenrollment from a Medicare Advantage plan. Please explain reason for disenrollment. [optional only for Direct Mailers.]

1. Note: If the issuer of the Medicare supplement policy being applied for does not, or is otherwise prohibited from imposing pre-existing condition limitations, please skip to statement 2 below. Health conditions ~~which~~that you may presently have (pre–existing conditions) may not be immediately or fully covered under the new policy. This could result in denial or delay of a claim for benefits under the new policy, whereas a similar claim might have been payable under your present policy.

2. State law provides that your replacement policy or certificate, may not contain new preexisting condition waiting periods. The insurer will waive any time periods applicable to preexisting conditions waiting periods in the new policy (or coverage) for similar benefits to the extent such time was satisfied under the Medicare supplement policy.

3. If, you still wish to terminate your present policy and replace it with new coverage, be certain to truthfully and completely answer all questions on the application concerning your ~~medical/health~~medical and health history. Failure to include all requested material medical information on an application may provide a basis for the company to deny any future claims and to refund your premium as though your policy had never been in force. After the application has been completed and before you sign it, review it carefully to be certain that all requested

information has been properly reported. [If the policy or certificate is guaranteed issue, this paragraph need not appear.]

Do not cancel your present policy until you have received your new policy and are sure you want to keep it.

Office of the Commissioner of Insurance
Private Sector Fiscal Analysis

for Rule Ins 339 relating to Medicare supplement, Medicare replacement, Medicare cost, Medicare select, Advantage and Medicare Part D prescription drug plans

This rule change will have no significant effect on the private sector regulated by OCI. Insurers offering Medigap policies (basic Medicare supplement, Medicare replacement, and Medicare select policies) will incur costs associated with developing new Medigap policies and marketing materials, mailing riders and explanatory materials to existing policyholders and reprogramming claim processing systems. However, these costs are offset by the insurers' ability to continue offering Medigap policies to Wisconsin consumers.

The MMA prohibits insurance companies and insurance agents from marketing in Wisconsin current Medigap policies after December 31, 2005. Failure to amend s. Ins 3.39, Wis. Adm. Code, will mean that Wisconsin Medicare beneficiaries will not have access to coverage that supplements Medicare benefits.
