**ORDER OF THE STATE OF WISCONSIN
DEPARTMENT OF TRANSPORTATION
ADOPTING RULES**

The Wisconsin Department of Transportation adopts an order to renumber TRANS 512.06; renumber and amend TRANS 510.08(1) and (3); amend TRANS 510.08(2)(b); and create TRANS 510.08(1)(a) and (b), (3)(a) to (c), and 512.06(2) and (3), relating to the transportation facilities economic assistance and development program, and the transportation infrastructure loan program.

Analysis Prepared by the Wisconsin Department of Transportation

Statutes interpreted: s. 84.01(6m)(b)3., 6. and 7., Stats., as created by 2007 Wis. Act 125

Statutory authority: ss. 84.01(6m)(b)3., 6. and 7., Stats., as created by 2007 Wis. Act 125, and 227.11(2)(a), Stats.

Explanation of agency authority: Presently, chs. Trans 510 and 512 do not include a requirement for the submittal of a verified statement signed by both an independent certified accountant and the director or principal officer of the recipient of an economic development grant or loan as required under 2007 Wis. Act 125. Also, these rules do not specify what actions the Department is permitted to take in the event of the submittal of false or misleading information or noncompliance with the contract. Ch. Trans 510 includes no specific guidelines requiring that grant or loan recipients submit a report to the Department, as required under 2007 Wis. Act 125.

Related statute or rule: ss. 84.185(4) and 85.52, Stats.

Plain language analysis: This rule making will implement the provisions of 2007 Wis. Act 125 that relate to: (1) providing verified statements from an independent certified accountant and the director or principal officer of the recipient of a grant or loan, (2) permitting the Department to recoup payments made, withhold payments due, or impose a forfeiture on a noncompliant recipient of a grant or loan, and (3) including contract provisions into project agreements specifying the format and frequency of the report to be submitted by the recipient to the Department. These rule changes will affect the reporting and evaluation of performance measures for each economic development program administered by the Department.

Summary of, and preliminary comparison with, existing or proposed federal regulation: No federal regulation applies to other DOT programs defined as an “economic development program” under 2007 Wis. Act 125. The Act defines economic

development program as a program or activity having the primary purpose of encouraging the establishment and growth of business in the state, including the creation and retention of jobs. Department programs are transportation infrastructure projects that contribute to the mobility, safety and transportation efficiency for transporting freight and the traveling public.

Comparison with Rules in the Following States:

Michigan: Economic grants and loans to businesses are administered through the Michigan Economic Development Corporation, formed in 1999 through an alliance between the State of Michigan and several local communities. The Corporation is the successor to the Michigan Jobs Commission, the state's economic development department. The corporation maintains the database regarding the grant and loan awards and conducts audits regarding the performance of the financial programs. Travel Michigan, a division of the Corporation, provides the tourism promotional functions for the state. There is no online website or annual reports available via the website with a listing for the grant and loan recipients.

Minnesota: s. 116J.994, creation of a Business Assistance Report with a list of businesses receiving state assistance, amount of subsidy, number of jobs, hourly wages, and cost of health insurance broken down by wage level. Information on companies receiving assistance is posted online.

Illinois: Public Act 552-93 of 2003, annual progress reports required as to the amount and type of assistance, job creation/retention, job classifications and average wages. Progress reports are available online in searchable database by year and program type.

Iowa: Iowa Code s. 15.113 and other statutes require mandatory reports regarding the financial assistance provided to private businesses. The Iowa Department of Economic Development administers and provides oversight for the assistance programs. The development agency adopted rules on June 15, 2007, to implement a new job counting and tracking method. Under this Department, there is a legal and compliance team responsible for conducting onsite monitoring at project completion, job maintenance, contract amendments, and the preparation of progress reports. These reports are published periodically and are available online.

Summary of factual data and analytical methodologies used and how the related findings support the regulatory approach chosen: The amendments to ss. Trans 510.08 and 512.06 were proposed to bring the Department's economic development programs in compliance with the specific reporting and evaluation requirements of s. 84.01(6m)(b)6. and 7., as created by 2007 Wis. Act 125.

Analysis and supporting documentation used to determine effect on small businesses: A database of 296 previous and current TEA grant awards were analyzed for impacts to small businesses

Effect on small business: Since TEA grants provide transportation infrastructure necessary for newly-created or expanded businesses in the state, the analysis revealed that the kind of businesses in the program will have little or no difficulty in complying with the jobs reporting requirement. Job numbers are also reported as part of the unemployment compensation program under the Department of Workforce Development. The sponsoring community receiving the grant award will be asked to provide a jobs information report compiled by an independent certified accountant and a public official of the recipient community for each business as specified in the jobs guarantee agreement that benefited from the transportation infrastructure improvement. The annual jobs report will be provided to the TEA grant manager annually for seven years or for a duration as specified in the jobs guarantee agreement. Failure to provide annual reports could result in the reimbursement of the grant to the Department of Transportation. The Department's Regulatory Review Coordinator may be contacted by e-mail at ralph.sanders@dot.state.wi.us, or by calling (414) 438-4585.

Fiscal effect: The Department estimates that there will be no fiscal impact on the liabilities or revenues of any county, city, village, town, school district, vocational, technical and adult education district, sewerage district, or federally-recognized tribes or bands.

Anticipated costs incurred by private sector: The Department estimates that there will be no fiscal impact on state or private sector revenues or liabilities.
