***Medicaid Reimbursement for Outpatient Hospital Services:
Acute Care, Children's, Rehabilitation, and Critical Access Hospitals
State of Wisconsin Medicaid Payment Plan for State Fiscal Year 2017***

The State of Wisconsin reimburses hospitals for outpatient services provided to Medical Assistance recipients under the authority of Title XIX of the Social Security Act and Chapter 49 of the Wisconsin Statutes. This program, administered by the State's Department of Health Services (the Department), is called Medical Assistance or Medicaid. In addition, Wisconsin has expanded this program to create the BadgerCare Plus program under the authority of Title XIX and Title XXI of the Social Security Act and Chapter 49 of the Wisconsin Statutes. Collectively, these programs are herein referred to as the Wisconsin Medicaid Program (WMP). Federal statutes and regulations require that a State Plan be developed that provides the methods and standards for reimbursement of covered services. Such a plan is currently in effect.

The WMP uses a reimbursement system for outpatient hospital services which is based on Enhanced Ambulatory Patient Groupings. This methodology is used to provide hospital "base payments" to providers which serve WMP members. To promote WMP member access to these hospitals throughout the state, the WMP additionally provides hospital "access payments" per eligible WMP outpatient claim. The amount of the hospital access payment per claim is based on an available funding pool appropriated in the state budget and aggregate hospital upper payment limits. Critical access hospitals receive a different access payment per claim than do acute care, children's, and rehabilitation hospitals. Effective July 1, 2016, the Department is updating the outpatient access payment amounts for state fiscal year 2017 (July 1, 2016 – June 30, 2017).

The following changes will be contained in the July 1, 2016 outpatient hospital state plan amendment:

- Access Payments for Acute Care Hospitals, Children's Hospitals, and Rehabilitation Hospitals will be updated and made in addition to the base payments.
- Access Payments for Critical Access Hospitals will be updated and made in addition to the base payments.

This notification is intended to provide notice of the type of changes that are included in the amendment. Interested parties should obtain a copy of the actual proposed plan amendment to comprehensively review the scope of all changes.

Proposed Change

It is estimated that these changes will have no material impact on projected annual aggregate Medicaid expenditures in state fiscal year 2017. The Department maintains the same hospital and assessment budgets approved by the Legislature.

The Department's proposal involves no change in the definition of those eligible to receive benefits under Medicaid, and the benefits available to eligible recipients remains the same. The effective date for these proposed changes is July 1, 2016.

Copies of the Proposed Change

A copy of the proposed change may be obtained free of charge at your local county agency or by calling or writing as follows:
