16. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)

Illinois:

Rules of the Illinois Department of Financial and Professional Regulation establish practice experience requirements for licensure as a dietitian nutritionist in Illinois (68 Ill. Adm. Code 1245.140). The rules require 900 hours of practice experience in dietetics or nutrition. Internships approved by the Accreditation Council for Education in Nutrition and Dietetics, American Clinical Board of Nutrition, Board for Certification of Nutrition Specialists, and Clinical Nutrition Certification Board meet the experience requirements.

Iowa:

Rules of the Iowa Board of Dietetics establish supervised experience requirements for licensure as a dietitian in Iowa (645 IAC 81.6). The rules require completion of an accredited competency-based supervised experience program approved by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics.

Michigan:

On July 1, 2014, Public Act 267 of 2014 was signed into law, which repealed Michigan's licensure requirements for dietitians and nutritionists and eliminated the Michigan Board of Dietetics and Nutrition.

Minnesota:

Rules of the Minnesota Board of Dietetics and Nutrition Practice establish experience requirements for licensure as a dietitian in Minnesota (Minnesota Rules, Part 3250.0010). The rules require completion of a supervised preprofessional practice experience component in nutrition practice of at least 900 hours under the supervision of a registered dietitian, a state licensed nutrition professional, or an individual with a doctoral degree conferred by a United States regionally accredited college or university who has completed a major course of study in human nutrition, nutrition education, food and nutrition, dietetics, or food system management.
