ANALYSIS

Statutes interpreted:

s. 443.015 (1), Stats.

Statutory authority:

ss. 15.08 (5) (b), 227.11 (2) (a), and 443.015 (1), Stats.

Explanation of agency authority:

Section 15.08 (5) (b), Stats., provides examining boards, “shall promulgate rules for its own guidance and for the guidance of the trade or profession to which it pertains...”

Section 227.11 (2) (a), Stats., sets forth the parameters of an agency’s rule-making authority, stating an agency, “may promulgate rules interpreting provisions of any statute enforced or administered by the agency. . .but a rule is not valid if the rule exceeds the bounds of correct interpretation.”

Section 443.015 (1), Stats., provides that each section of the examining board “may establish continuing education requirements for renewal of a credential issued by that section under this chapter.”

Related statute or rule:

Chapter A-E 10 provides continuing education requirements for professional land surveyors. Chapter A-E 11 provides continuing education requirements for landscape architects. Chapter A-E 12 provides continuing education requirements for architects.

Plain language analysis:

The proposed rules specify approved providers of continuing education, which will result in more transparent and consistent approval of continuing education. This change also will provide professional engineers greater assurance that the time and money spent on obtaining continuing education will satisfy the requirements set in administrative code.

Current rules require late renewal applicants to submit a record with information providing proof of compliance with the continuing education requirements. The proposed rules require late renewal applicants to follow the same procedures as those applicants who renew prior to the established renewal date. The change would require late renewal applicants to 1) certify on the application full compliance with the continuing education requirements and 2) maintain records of completed continuing education.

There are other proposed amendments for drafting preferences to provide clarity and consistency with related chapters.

Summary of, and comparison with, existing or proposed federal regulation:
