State Patrols from Wisconsin through Montana stepping up enforcement on I-94 *Goal is to keep motorists safe as we head into the busy Labor Day travel weekend*

To enhance public safety as we approach a busy holiday travel period, the Wisconsin State Patrol will join their counterparts in Minnesota, North Dakota and Montana to step-up law enforcement efforts along the I-94 corridor.

Beginning today and continuing through Labor Day, State Patrol officers will focus enforcement efforts along I-94 throughout the four states watching for aggressive driving behaviors such as speeding, following too closely, lane change violations and distracted driving.

"We routinely work with federal, state and local law enforcement agencies on traffic safety initiatives because we share a common goal of helping travelers reach their destinations safely," said Wisconsin State Patrol Superintendent Tony Burrell. "Public education is an important part of this effort. We hope to raise public awareness about this multi-state law enforcement effort because our primary goal is voluntary compliance with traffic laws – not to stop or cite motorists."

To help ensure a safe trip, the State Patrol offers the following travel tips:

- Buckle up, be alert and watch your speed;
- Keep to the right when possible. Drivers who linger in the passing lane can generate tailgating and other traffic safety problems;
- Watch for merging traffic. Move over a lane if possible or adjust your speed slightly to accommodate merging vehicles;
- When changing lanes, allow adequate distance to avoid cutting off other traffic. Keep in mind that commercial motor vehicles require more time and distance to slow or stop.
- Scan the road ahead. Move over or slow down when approaching stopped emergency vehicles that have their warning lights activated.
