Schedule B: Agricultural Mixed Fertilizers

Use this schedule to report ONLY mixed fertilizer or custom blended fertilizer (with N-P-K grade or 0-0-0) intended for agricultural use *for which you owe tonnage fees*.

For non-agricultural fertilizer use Schedule C instead; do not enter tonnage twice. (Please see description of a non-agricultural fertilizer in Schedule C.)

If you report an agricultural mixed fertilizer (with N-P-K grade or 0-0-0) with a secondary or micro nutrient, you must specify which elements are included and the percent guarantee. For example, 24-0-15-2Fe; where Fe stands for iron at 2%. Please refer to abbreviations and examples given below.

Abbreviations: B Boron Fe Iron Mo Molybdenum

Ca Calcium Mg Magnesium S Sulfur Cu Copper Mn Manganese Zn Zinc

For agricultural fertilizer (one that does not fit the description above) use Schedule B instead; do not enter tonnage twice.

Note: Lawncare companies that apply liquid lawn fertilizer must report the <u>total tonnage including water</u> listing the final diluted grade of the fertilizer as listed on the nonagricultural permits issued to you.
