Statutes interpreted: Sections 48.65 to 48.74, Stats.; s. 48.78, Stats.; s. 49.155, Stats.

Related statutes and rules: Sections 49.137 (4m), and 120.13 (14), Stats.; ch. DCF 201

Explanation of Agency Authority

Section 48.651 (1d), Stats., as affected by 2017 Wisconsin Act 59, provides that the department shall promulgate rules establishing standards for the certification of child care providers. The rules shall include a requirement that a Level I certified child care provider successfully complete department-approved preservice health and safety training by no later than the date of certification. A Level II certified child care provider shall successfully complete the required training by no later than the end of the orientation period available under 42 USC 9858c (c) (2) (I) (i) (XI).

Employees and volunteers of a Level I or Level II certified child care provider must also complete the required training by the end of the orientation period. Section 48.651 (1d) (b) 1. a. to j., Stats., specifies topics that must be included in the required preservice or orientation training. Subdivision 2. provides that a child care provider or employee or volunteer of a child care provider shall also complete ongoing in-service training on an annual basis, including training on the topics listed in subd. 1. a. to j.

Section 48.685 (9), Stats., provides that the department may promulgate any rules necessary for the administration of the section.

Section 48.686 (9), Stats., provides that the department may promulgate any rules necessary for the administration of the section.

Section 48.67 (intro.), Stats., provides that the department shall promulgate rules establishing minimum requirements for the issuance of licenses to, and establishing standards for the operation of, child welfare agencies, child care centers, foster homes, group homes, shelter care facilities, and county departments. Those rules shall be designed to protect and promote the health, safety, and welfare of the children in the care of all licensees.

Section 227.11 (2) (a) (intro.), Stats., expressly confers rule-making authority on each agency to promulgate rules interpreting the provisions of any statute enforced or administered by the agency.

Summary of the Proposed Rules

The primary purpose of the proposed rules is to ensure that the department's rules affecting child care certification and licensing comply with the health and safety requirements in federal regulations based on the Child Care Development Block Grant (CCDBG) Act of 2014. The proposed rules also regroup the department's child care certification and licensing rules that address the same topics in different places, eliminate duplicative provisions, correct errors, and clarify language where needed to ensure proper implementation and administration of the health and safety requirements.

Chapters DCF 12, 13, and 40, Background Checks

The CCDBG creates a new federal background check affecting child care programs. For child care programs in Wisconsin, the most significant change is the requirement that the state agency conduct the background checks. Before this change, child care and child welfare licensees conducted the background checks of prospective and existing employees and contractors under s. 48.685, Stats. **To comply with federal requirements, a new state background check statute** for child care programs was created at s. 48.686, Stats., and s. 48.685, Stats., continues to apply to child welfare providers. Section 48.686, Stats., also creates a new appeal process for persons subject to the background check in child care programs.

The department's current rule on caregiver background checks under s. 48.685, Stats., is in ch. DCF 12. The proposed rules **create ch. DCF 13 based on the requirements under s. 48.686, Stats., and amend ch. DCF 12 based on the removal of child care programs from the requirements under s. 48.685, Stats.** The new ch. DCF 13 includes provisions on submitting a background check request to the department and the required appeal process. Under the new appeal process, a person who is determined ineligible may file an appeal with the department's Child Care Background Unit. If denied, the person may request a department review by the department's Assistant Secretary. If denied, the person may request a reconsideration by the department Secretary. If denied, the person may request a contested case hearing before the Division of Hearings and Appeals under ch. 227, Stats.

Chapter DCF 13 also includes provisions similar to ch. DCF 12 on determining whether an offense is substantially related to the care of a child or the activities of a child care program and the process for determining whether a person has been rehabilitated from certain offenses and is eligible to hold a license or certification to operate, to work in, or to reside in a child care program.

In addition, the proposed rules amend ch. DCF 40, Review of a Determination of Abuse or Neglect, to include cross-references to s. 48.686, Stats. A final determination that a person has abused or neglected a child is a bar to eligibility under both ss. 48.685 and 48.686, Stats.

Chapter DCF 202, Child Care Certification

The proposed rules revise ch. DCF 202, Child Care Certification, to do the following:

- Incorporate the **preservice or orientation training and continuing education requirements** in 45 CFR 98.44 and s. 48.651 (1d), Stats., as affected by 2017 Wisconsin Act 59.
 - By 3 months after certification or beginning to work with children in care, the following new preservice or orientation training is required:
 - At least 2 credits in early childhood education or a department-approved noncredit course in caring for child,
 - A department-approved noncredit course in operating a child care business or an equivalent.
 - Training in child abuse and neglect laws and identifying, documenting, and reporting child abuse and neglect.
 - Certification in infant and child cardiopulmonary resuscitation (CPR).
 - Each year 5 hours of continuing education is required in topics specified in s. 48.651 (1d), Stats., and 45 CFR 98.41 (a) (1). Previously, each certification agency had discretion to impose an annual continuing education requirement of up to 5 hours.
- Incorporate the requirements in 45 CFR 98.41 on **emergency preparedness and response planning** for an emergency resulting from a natural disaster or a human-caused event, such as violence in the child care home. A certified operator is required to have a written plan that includes procedures for evacuation, relocation, shelter-in-place, and lock down; communication and reunification with families; continuity of operations; and accommodation of infants and toddlers, children with disabilities, and children with chronic medical conditions.
- **Ensure appropriate precautions when transporting children** by clarifying the current transportation rules and creating the following provisions:
 - A driver transporting children in care may not use a cell phone and other wireless device, unless the vehicle is out of traffic, not in operation, and the phone or device is used to communicate regarding an emergency.
 - Prior to the day a driver first transports children in care, the operator shall submit to the certification agency a copy of the driving record for the driver and obtain approval of the driver from the certification agency.
 - Prior to a driver transporting children in care for the first time, the certified child care operator shall review various safety-related requirements with the driver.
 - A driver shall be at least 18 years of age and have at least one year of experience as a licensed driver.
 - A child's emergency contact information shall be carried in the vehicle when the child is being transported.
 - Smoking is prohibited in a child care vehicle while children are being transported.
 - The vehicle shall be clean, uncluttered, and enclosed. No children may be transported in a truck, except in the cab.
 - Passenger doors shall be locked at all times when the vehicle is moving.
- Reorganize and clarify rules regarding the **process for certification agencies administering** certification, including sections related to applications, background checks, monitoring, enforcements, and complaints. Background check provisions are updated to include the CCDBG requirements.
- Incorporate the federal requirement that agencies conduct **annual unannounced monitoring visits** of certified family child care operators during hours of operation. Monitoring visits of operators that are providing care in the child's home may be planned in advance and are not required to be during hours of operation.

- **Require that a certified child care operator be an individual** and not a corporation, partnership, limited liability company, non-incorporated association, or cooperative. No corporation, partnership, limited liability company, non-incorporated association, or cooperative that is a certified child care operator will be allowed to apply for recertification. An individual may apply or reapply for certification.
 - This requirement prevents an ineligible person from setting up a “strawman” or “shell corporation” and fraudulently obtaining certification.
 - This provision does not affect an operator’s ability to incorporate or otherwise form a business entity for other legal or tax reasons.
- Repeal a certification agency’s discretion to limit certification to operators that have a high school diploma or GED.
- Repeal the requirement that an operator in a rental property obtain permission from the landlord as a condition of certification.
- Repeal school-age certification under s. DCF 202.09. There are currently 4 school-age certified programs in the state, and only 3 of the programs are active. An operator of an existing school-age program may apply for licensure to continue eligibility for child care subsidy payments.
- Consolidate requirements related to health into one section.
- Consolidate requirements related to equipment and furnishings into one section.
- Incorporate the state statutory requirements for vehicle liability insurance under s. 344.62, Stats., and carbon monoxide detectors under s. 101.149, Stats.

Changes Affecting Chapters DCF 250, Family Child Care Centers; DCF 251, Group Child Care Centers; and DCF 252, Day Camps for Children

The proposed rules revise chs. DCF 250, 251, and 252 to do the following:

- Update background check provisions to conform to CCDBG requirements and s. 48.686, Stats.
- Amend the existing **emergency preparedness and response planning** rule to comply with 45 CFR 98.41 and require that a licensee’s written emergency plan includes procedures for evacuation, relocation, shelter-in-place, and lock down; communication and reunification with families; continuity of operations; and accommodation of infants and toddlers, children with disabilities, and children with chronic medical conditions.
- Ensure appropriate **precautions when transporting children** by clarifying the current transportation rules and creating the following provisions:
 - A driver transporting children in care may not use a cell phone and other wireless device, unless the vehicle is out of traffic, not in operation, and the phone or device is used to communicate regarding an emergency.
 - Before a driver transports children in care for the first time, the licensee shall review various safety-related requirements with the driver.

- Consolidate all rules on supervision of children and staff-to-child ratios and maximum group size into one section. No change is made to the current staff-to-child ratios or maximum group size requirements.
- Eliminate duplicative provisions and consolidate rules on the following topics:
 - Personal hygiene requirements, especially handwashing.
 - Medical logs books.

DCF 250, Licensing Rules for Family Child Care Centers

The proposed rules revise ch. DCF 250, Family Child Care Centers, to do the following:

- Amend the existing preservice or orientation training and continuing education requirements to comply with 45 CFR 98.44 as follows:
 - Within 3 months after obtaining a license or beginning to work with children in care, providers must obtain certification in infant and child cardiopulmonary resuscitation (CPR). CPR certification is currently required within 6 months after licensure or beginning work.
 - Add continuing education topics to correspond to the list of health and safety standards that providers are required to maintain and update under 45 CFR 98.44 (b) (2) (i) and 45 CFR 98.41 (a) (1).
 - Consolidate all requirements for staff into one section, including staff files, qualifications, and professional development requirements, and create alternative ways to meet the qualifications with the Wisconsin Family Child Care Credential or a child development associate credential in family child care.
- Require that a family child care licensee be an individual and not a corporation, partnership, limited liability company, non-incorporated association, or cooperative. No corporation, partnership, limited liability company, non-incorporated association, or cooperative will be allowed to apply for continuation of a license. When the current licensing period ends for the corporation, partnership, limited liability company, non-incorporated association, or cooperative that is a licensee, an individual may apply for licensure.
 - This provision is needed because individuals who were ineligible for licensure due to fraud in the child care subsidy program or convictions for other barred crimes have set up “strawmen” or “shell corporations” in the name of a friend or relative and fraudulently obtained a license, operated a child care center, and received child care subsidy payments.
 - This provision does not affect a licensee’s ability to incorporate or otherwise form a business entity for other legal or tax reasons. It merely requires the individual actually responsible for the center to be the licensee.
- Increase the number of hours that an individual provider in a family child care center may provide care for children from 12 hours to 16 hours in a 24-hour period and no longer allow a licensed family child care center under ch. DCF 250 and a certified family child care home under ch. DCF 202 to operate on the same premises.
 - Currently, a certified provider may care for children for up to 16 hours in 24-hour period, while a licensed provider may only care for children for up to 12 hours in a 24-hour period.
 - There are almost 80 providers that are both licensed and certified. These providers care for children as a licensed provider for 12 hours and as a certified provider for an additional 4 hours.
 - This dual regulation creates overlapping roles and responsibilities for certification agencies and the department, as well as complex compliance and enforcement issues and costly automation needs.

- Allowing licensed providers to care for children for up to 16 hours in a 24-hour period will provide continuity under the more stringent health and safety rules of licensure and meet parents' needs for child care during standard and nonstandard hours.
- The department will be contacting the dually-regulated providers during the summer of 2019 to inform them of this upcoming change. Licensees will be able to expand their licensed hours of operation to 16 hours in a 24-hour period effective September 30, 2019, when the department's corresponding emergency rule including this provision is expected to be effective.
- Consolidate the rules on information required to be in a child's file.
- Incorporate the state statutory requirements for vehicle liability insurance under s. 344.62, Stats., and carbon monoxide detectors under s. 101.149, Stats.

DCF 251, Licensing Rules for Group Child Care Centers

The proposed rules revise ch. DCF 251, Group Child Care Centers, to do the following:

- Amend the existing preservice or orientation **training and continuing education requirements** to comply with 45 CFR 98.44 as follows:
 - Within 3 months after obtaining a license or beginning to work with children in care, providers must obtain certification in infant and child cardiopulmonary resuscitation (CPR). CPR certification is currently required within 6 months after licensure or beginning work.
 - Additional continuing education topics are added to correspond to the list of health and safety standards that providers are required to maintain and update under 45 CFR 98.44 (b) (2) (i) and 45 CFR 98.41 (a) (1).
- Allow centers to **move infants and toddlers between groups of children** to accommodate staffing needs. Infants and toddlers are still required to have a consistent caregiver in a consistent room, but a center may move children to accommodate staffing needs.
- Consolidate all requirements for staff into one section, including **staff files, qualifications, and professional development** and do the following:
 - Add alternative ways to meet the qualifications without creating additional minimum qualifications for a center administrator, director, teacher, or assistant teacher.
 - Repeal the requirement that a center director work a specified number of hours per week exclusively carrying out director duties.
 - Expand the ways that staff may qualify for work exclusively with school-age children, including the Wisconsin Afterschool and Youth Development Credential.
- Create **exceptions** for centers serving only **school-age children** to the following:
 - The requirement regarding screens on doors and windows used for ventilation.
 - The requirement for an energy absorbing surface at least 9 inches deep on playgrounds.
- Move provisions related to **child care programs established or contracted for by school boards** from ch. DCF 252, Subchapter II, to **ch. DCF 251**. These programs are required to comply with the group child care center licensing rules. The department will conduct an annual inspection of the programs to monitor compliance with the rules.

DCF 252, Licensing Rules for Day Camps

The proposed rules revise ch. DCF 252, Day Camps, to do the following:

- Consolidate requirements on staff records and qualifications into one section and allow the Wisconsin Afterschool and Youth Development Credential as an educational qualification for camp directors.
- Consolidate rules on the condition of the premises, including buildings and other spaces used by children.

Summary of Data and Analytical Methodologies

The primary purpose of the proposed rules is to ensure that the department's rules affecting child care certification and licensing comply with the health and safety requirements in federal regulations based on the Child Care Development Block Grant (CCDBG) Act of 2014. The rules are also reorganized and "streamlined" to clarify requirements for child care providers.

Summary of Related Federal Law

45 CFR 98.41 Health and safety requirements

Each state shall have statutes or rules applicable to child care providers that include requirements designed to protect the health and safety of children on, at a minimum, all of the following topics:

- The prevention and control of infectious diseases, including immunizations.

45 CFR 98.42 Enforcement of licensing and health and safety requirements

Each state shall have monitoring policies and practices to ensure that child care providers comply with applicable health and safety requirements. Compliance monitoring for licensed child care must include at

least one inspection before a license is issued and an unannounced inspection at least annually. Compliance monitoring for license-exempt child care must include an annual inspection.

45 CFR 98.43 Criminal background checks

Each state is required to have in effect requirements, policies, and procedures to require and conduct criminal background checks for employees of child care facilities including prospective staff members and any individual residing in a family child care program who is age 18 and above.

45 CFR 98.44 Training and professional development

Framework

Each state must establish a framework for training, professional development, and postsecondary education for child care providers, teachers, and directors that is developed in consultation with the state advisory council and addresses professional standards and competencies, career pathways, and workforce information and financing. A state's framework for training, professional development, and postsecondary education for child care providers, teachers, and directors shall also do all of the following:

- Establish qualifications for providers in different child care settings.
- Reflect current research and best practices, including culturally and linguistically appropriate practices.
- Improve the quality, diversity, stability, and retention of providers, teachers, and directors.

Preservice or Orientation Training

Each state shall require child care providers, teachers, and directors to complete a preservice or orientation training within their first 3 months in the position. The training shall include all of the following topics:

- The health and safety topics in 45 CFR 98.41.
- Child development, including the major domains (cognitive, social, emotional, and physical and approaches to learning).

Ongoing professional development

Each state shall establish the number of hours of ongoing professional development that child care providers, teachers, and directors must complete annually. The required training shall be aligned to a progression of professional development and shall update health and safety standards, incorporate knowledge and application of the state's early learning and developmental guidelines for children from birth to kindergarten, and incorporate social-emotional behavior intervention models.

Comparison to Adjacent States

All states have been amending statutes and rules to comply with CCDBG requirements.

Minnesota –New requirements will be effective 9/30/19, including additional staff orientation health and safety training, handling and disposal of bodily fluids, emergency preparedness and response training, and unannounced annual inspections.

Michigan –Michigan now requires that child care homes be licensed instead of registered. Annual licensing visits will be made to all child care sites. Emergency plans for centers will include a plan for what to do if there is violence at the center. Training requirements have broadened, including the requirement that all staff must have a current CPR/First Aid card. Temporary operation of a child care center at a different location in case of a disaster will now be allowed under certain circumstances.

Illinois –Illinois rules have been amended to incorporate additional training requirements for licensees and assistants and additional documentation for emergency preparedness plans. Changes to the background check process are pending.

Iowa – Changes include preservice/orientation for child care providers and CPR and professional development and a new background check process.

Effect on Small Businesses

The proposed rules will affect small businesses that are child care operators or licensees. The rules will have minimal or no economic impact on these small businesses.

Analysis Used to Determine Effect on Small Businesses

Most of the substantive changes in the rule are required by federal law. Several other changes are less restrictive than the current rule.
