

# STATEMENT OF SCOPE

## Medical Examining Board

**Rule No.:** Med 13

**Relating to:** Continuing Medical Education Requirements

**Rule Type:** Permanent

**1. Finding/nature of emergency (Emergency Rule only):**

N/A

**2. Detailed description of the objective of the proposed rule:**

The objective of the proposed rule is to continue to promote best practices for prescribing controlled substances. The proposed rule would define the requirements for the completion of continuing education hours relating to prescribing controlled substances as a portion of the biennial training requirements for physicians.

**3. Description of the existing policies relevant to the rule, new policies proposed to be included in the rule, and an analysis of policy alternatives:**

Section 448.13, Stats., requires the completion of at least 30 hours of continuing medical education for biennial registration. Chapter Med 13 more precisely defines the requirements for continuing medical education. The chapter lists acceptable sources of continuing education, sets the standards for evidence of compliance with the requirements, and allows the Board to waive and audit the completion of continuing education requirements.

Current rules require a physician who holds a U.S. Drug Enforcement Administration number to complete 2 of the 30 required hours of continuing medical education from a Board-approved educational course or program related to opioid prescribing. As this requirement expires after the current biennium, the proposed rule would define future requirements for the completion of continuing education hours related to prescribing controlled substances. The alternative to this rule change is to leave ch. Med 13 as written, which will not address the continued concern with prescription drug abuse.

**4. Detailed explanation of statutory authority for the rule (including the statutory citation and language):**

Section 15.08 (5) (b), Stats., provides examining boards, “shall promulgate rules for its own guidance and for the guidance of the trade or profession to which it pertains. . . .”

Section 448.40 (1), Stats., provides that the Medical Examining Board “may promulgate rules to carry out the purposes of this subchapter, including rules requiring the completion of continuing education, professional development, and maintenance of certification or performance improvement or continuing medical education programs for renewal of a license to practice medicine and surgery.”

**5. Estimate of amount of time that state employees will spend developing the rule and of other resources necessary to develop the rule:**

60 hours

**6. List with description of all entities that may be affected by the proposed rule:**

Wisconsin licensed physicians

**7. Summary and preliminary comparison with any existing or proposed federal regulation that is intended to address the activities to be regulated by the proposed rule:**

None.

**8. Anticipated economic impact of implementing the rule (note if the rule is likely to have a significant economic impact on small businesses):**

The proposed rule will have minimal to no economic impact on small businesses and the state's economy as a whole.
