ANALYSIS

Statutes interpreted:

Sections 440.035 (2) and 446.028, Stats.

Statutory authority:

Sections 15.08 (5) (b), 446.025 (3) (b), and 446.026 (3) (b), Stats.

Explanation of agency authority:

Section 15.08 (5) (b), Stats., provides that examining boards, such as the Chiropractic Examining Board, “[s]hall promulgate rules for its own guidance and for the guidance of the trade or profession to which it pertains . . .”

Section 446.025 (3) (b), Stats., provides “[a] chiropractic radiological technician shall, at the time that he or she applies for renewal of a certificate . . .submit evidence satisfactory to the examining board that he or she has completed at least 12 continuing educational credit hours in programs established by rules promulgated by the examining board.”

Section 446.026 (3) (b), Stats., provides “[a] chiropractic technician shall, at the time that he or she applies for renewal of a certificate . . .submit evidence satisfactory to the examining board that he or she has completed at least 6 continuing educational credit hours in programs established by rules promulgated by the examining board.”

Related statute or rule:

Chapter Chir 3 provides the requirements for license renewal, which include the completion of continuing education.

Plain language analysis:

The Chiropractic Examining Board conducted a comprehensive review of ch. Chir 5, including 1) the requirements for approval of continuing education programs, 2) circumstances under which online continuing education may be permitted, and 3) the current process of reviewing and approving continuing education programs and how that process may be expedited. As a result of this review, the following updates have been made:

-Chiropractors, chiropractic technicians, and chiropractic radiological technicians will be able to acquire a portion of their required continuing education credit hours through participation in online continuing education programs approved by the Board.

-Continuing education hours may be counted for teaching an approved continuing education program. An instructor is eligible for continuing education hours to the same extent as a participant in the program, except continuing education hours may not be counted for subsequent presentations of the same content.

-A provision under s. Chir 5.01 (3) concerning the Board's ability to request verification of attendance at a continuing education program has been revised to reflect s. 440.035 (2), Stats., as created by 2017 Wisconsin Act 59, which specifies that, except as otherwise permitted in chs. 440 to 480, Stats., an examining board may require a credential holder to submit proof of completion of continuing education programs or courses only if a complaint is made against the credential holder.

-The American Chiropractic Association (ACA) has been removed from s. Chir 5.02 (1) (a) as an allowable continuing education program sponsor, as the ACA is not one of the allowable program sponsors enumerated in s. 446.028, Stats.

-An additional requirement has been added in order for a college of chiropractic, medicine, or osteopathy to be considered an approved continuing education program sponsor under s. Chir 5.02 (1) (a). Specifically, the college must have accreditation that is in good standing from an accrediting agency whose recognition by the United States Department of Education is current.

-The requirement under s. Chir 5.02 (1) (b) that program subject matter be generally taught at the undergraduate or postgraduate level of a chiropractic college and relate to improving the clinical skills of a chiropractor is revised. The revised requirement is that program subject matter contributes to the advancement, extension, and enhancement of the clinical skills of a chiropractor and fosters the enhancement of general or specialized practice and values.

-Requirements that specifically pertain to online continuing education programs have been created under s. Chir 5.02 (1) (cm). Specifically, an online continuing education program must require two-way real-time interactive communication between the participant and the instructor, and include a written assessment instrument and means to furnish each participant with evidence of having attended the program.

-Provisions from ss. Chir 5.02 and 5.03 concerning an application for approval of a continuing education program have been removed and consolidated into a new s. Chir 5.04. Section Chir 5.04 as created reduces the lead time required for submission of an application from 75 days to 60 days.

-Section 5.05 is created to provide an expedited approval process for certain program sponsors who successfully complete a compliance review of a random sample of continuing education programs that were approved for the previous 2-year registration period.

-Other provisions throughout ch. Chir 5 have been revised to correct references to the registration period end date, provide clarity, and conform to current drafting standards.
