The result shall be half of each tribe's allocation.

(2) MEDICAL ASSISTANCE COSTS. The department shall determine each eligible tribe's percent of total relief to needy Indian persons medical assistance costs for calendar year 1994 and multiply fifty percent of the total available tribal medical relief block grant funds by the resulting percent for each eligible tribe. The result shall be half of each tribe's allocation.

(3) REALLOCATION. If the department determines that a tribal governing body's existing allocation will not be exhausted before the end of the contract year ending September 30, the department may reallocate the funds in a manner consistent with the formula stated under subs. (1) and (2).

(4) FUTURE ALLOCATIONS. (a) After the tribal governing body contract year ending September 30, 1996, the department may distribute tribal medical relief block grant funds based upon each eligible tribal governing body's medical relief block grant expenditures for the year prior to the year of the allocation, expressed as a percentage of the total medical relief block grant expenditures of all eligible tribal governing bodies that same year.

(b) A tribal governing body not choosing to be eligible for a relief block grant in a particular contract year ending September 30 that chooses to participate in the program the following year shall be allocated an initial contract year amount based upon the tribe's population as a percentage of the total population of the tribe and all other tribes represented by eligible tribal governing bodies in the previous year.
