

**STATE OF WISCONSIN
DEPARTMENT OF TRANSPORTATION**

PROPOSED ORDER AMENDING PERMANENT RULE

The Wisconsin Department of Transportation proposes an order to:

Create ss. Trans 138.02 (13m) and 138.0225, relating to motor vehicle auction dealers and affecting small businesses.

The Statement of Scope for this Permanent Rule, SS 054-22, was approved by the Governor on June 3, 2022, published in Register No. 799A1 on July 5, 2022, and approved by Secretary of the State of Wisconsin Department of Transportation (Department) Craig Thompson, as required by s. 227.135(2), Stats, on May 27, 2022. The analysis below was prepared by the Department.

ANALYSIS

Statutes Interpreted: s. 218.34, Stats.

Statutory Authority: ss. 218.0111 (1), 218.0114 (1) and (4), 218.0152, 218.34, 227.10 (1), Stats.

Explanation of Agency Authority:

Section 218.0111 (1), Stats., requires that the department be the entity to issue all motor vehicle buyer licenses. Sections 218.0114 (1) and (4), Stats., set forth the licensing requirement the legislature has adopted for entities to engage in business as a motor vehicle dealer in Wisconsin. Section 218.0152 (3), Stats., authorizes the department to promulgate rules necessary for the effective administration and enforcement of permits it issues. Section 218.34, Stats., prohibits motor vehicle auctions from accepting bids from customers who do not possess a valid motor vehicle dealer, motor vehicle wholesaler, or motor vehicle buyer license. Section 227.10 (1), Stats., requires the department is required to promulgate a rule when interpreting an ambiguous statute.

Related Statute or Rule: ch. Trans 138

Plain Language Analysis:

In 2004, the department recognized the need to implement policy consistent with the statutory requirements of s. 218.34, Stats. To this end, the department permitted motor vehicle auctions to accept bids from customers under the following conditions: 1) the auction collected a buyer's license application from the customer; 2) the auction issued a receipt of application to the customer; and 3) the auction forwarded the application to the department. This allowed customers to obtain motor vehicles at auction while the department reviewed their application and issued a license.

Over time, the department observed increases in unlicensed motor vehicle dealer sales and odometer fraud directly connected to the sale of motor vehicles allowed under the 2004 policy. To correct this trend, the department changed policy regarding buyer's licenses in 2018, prohibiting out-of-state customers from bidding at an auction until their application was reviewed and a valid license was issued by the department. In 2021, this policy was further refined to encompass all buyers, regardless of whether they were in Wisconsin or out-of-state.

In 2021, five plaintiffs representing Wisconsin motor vehicle auctions filed an injunction to prevent the department from implementing the 2018 policy. An order from the Jefferson County Circuit Court, in the case, 21CV172, issued January 11, 2022, prohibited the department from implementing the 2018 policy against the named plaintiffs. The department has continued to enforce the 2018 policy against auctions not involved in the injunction. This has created an uneven playing field for auctions and buyers, leading to potential adverse economic impacts to businesses without fully addressing the problem of illegal vehicle sales. Adding to the regulatory uncertainty, on October 31, 2022, 2 additional auto auctions filed a lawsuit against the department in Milwaukee Circuit Court, case 22CV7001, seeking a court order that the pre-2018 policy apply to those plaintiffs as well.

This rulemaking codifies the department's 2021 interpretation of s. 218.34, Stats. The rule clarifies that a license is valid only when the applicant for the license receives written authorization from the department. This is to close the loophole in the licensing process that previously allowed applicants to participate in auctions while the department reviewed their application.

This rulemaking also clarifies the requirements an applicant must meet in order to hold a valid license. The applicant must be employed by a licensed motor vehicle dealer and, if employed by more than one dealer, be licensed by each employer. The applicant must also be at least 18-years-old and pay the required fees to receive the license. Currently, the fee for an out-of-state buyer's license is \$6 and expires on the same date as the person's home state dealer license or 12 months from the date the department receives the application, whichever is sooner. An in-state buyer's license expiring in one year or less is \$6 and an in-state buyer's license expiring in more than a year is \$12. In-state buyer's licenses expires on the same date as the employer's dealer license.

All requirements for buyer's license issuance, the application form, and instructions for renewal can be found on the department's website: <https://wisconsindot.gov/Pages/dmv/dlr-agents/busns-license/buyerslicense.aspx>.

Summary of the Factual Data and Analytical Methodologies:

No data was collected in developing this rule.

Analysis Regarding Rule's Effect on Small Businesses:

The department has continued to enforce its 2018 interpretation of the policy against auctions not involved in the injunction. Buyers who apply for a license at an auction not involved in the injunction must wait until the department issues them a valid license before participating in an auction. The department may not enforce its 2018 interpretation of the policy against buyers who apply for a license with any of the 5 plaintiffs, meaning that buyers may participate in any of the 5 auctions while waiting for the department to issue them a valid license. Auctions whose buyers may bid and purchase vehicles during the department's review of the application are at an economic advantage over all other Wisconsin auctions. This rulemaking will allow the department to uniformly regulate buyer's licenses. The department's practices for enforcing buyer's licenses remain otherwise unchanged.
