Chapter DHS 163

APPENDIX A

OBTAINING APPLICABLE FEDERAL, STATE AND LOCAL GOVERNMENT REQUIREMENTS

- 1. The U.S. Environmental Protection Agency (EPA) regulations under 40 CFR Part 745 Subpart D establish standards for identifying lead-based paint hazards. EPA regulations under 40 CFR Part 745 Subpart F (HUD regulation 24 CFR Part 35) require disclosure of known lead-based paint or lead-based paint hazards in housing at the time of sale or lease. EPA regulations under 40 CFR Part 745 Subpart E require renovator training and certification, lead safe work practices during renovations, and pre-renovation education material distribution to owners and occupants of target housing and child-occupied facilities prior to renovations, other than minor repair and maintenance activities. EPA regulations under 40 CFR Part 745 Subpart L establish training course accreditation requirements, individual and company certification requirements, and work practice standards for persons performing lead-based paint activities. EPA lead regulations are available on the EPA website at "www.epa.gov/lead".
- 2. The U.S. Housing and Urban Development Department (HUD) regulations under 24 CFR Part 35 provide requirements for controlling lead-based paint hazards in federally-assisted or federally-owned housing including training, lead-safe work practices and information distribution to occupants. HUD lead regulations are available on the HUD website at "www.hud.gov/lead".
- 3. The U.S. Occupational Safety and Health Administration (OSHA), under 29 CFR Part 1926, provides requirements for employers involved with lead in construction, such as persons performing renovation activities in pre–1978 buildings. The regulations address issues such as safety training, personal protection and medical monitoring of employees. The full regulation is available on the OSHA website at www.osha.gov.
