Analysis by the Legislative Reference Bureau

This bill implements the Medicaid expansion and increases reimbursement rates under the Medical Assistance program for certain direct care workers.

This bill changes the family income eligibility level to up to 133 percent of the federal poverty line for parents and caretaker relatives under BadgerCare Plus and for childless adults currently covered under BadgerCare Plus Core and who are incorporated into BadgerCare Plus in this bill. BadgerCare Plus and BadgerCare Plus Core are programs under the state's Medical Assistance program, which provides health services to individuals who have limited financial resources. The federal Patient Protection and Affordable Care Act allows a state to receive an enhanced federal medical assistance percentage payment for providing benefits to

certain individuals through a state's Medical Assistance program. The bill requires the Department of Health Services to comply with all federal requirements and to request any amendment to the state Medical Assistance plan, waiver of Medicaid law, or other federal approval necessary to qualify for the highest available enhanced federal medical assistance percentage for childless adults under the BadgerCare Plus program.

Under current law, certain parents and caretaker relatives with incomes of not more than 100 percent of the federal poverty line, before a 5 percent income disregard is applied, are eligible for BadgerCare Plus benefits. Under current law, childless adults who 1) are under age 65; 2) have family incomes that do not exceed 100 percent of the federal poverty line, before a 5 percent income disregard is applied; and 3) are not otherwise eligible for Medical Assistance, including BadgerCare Plus, are eligible for benefits under BadgerCare Plus Core. The bill eliminates the childless adults demonstration project known as BadgerCare Plus Core.

This bill requires DHS to increase the rates paid for direct care to nursing homes, also known as nursing facilities, and intermediate care facilities for persons with an intellectual disability. A portion of the increase is related to an increase in patient acuity in those facilities and an additional increase is designated to support staff in those facilities who perform direct care. This bill also requires DHS to increase the rates paid for direct care to agencies that provide personal care services. A 1.5 percent increase per year is designated to support staff in those agencies who perform direct care.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
