Analysis by the Legislative Reference Bureau

This bill creates grant programs under which the Technical College System Board and Higher Educational Aids Board may award grants of up to \$1,500 to technical college students and tribal college students, respectively, who have undertaken an apprenticeship program in conjunction with their course of instruction at the technical college or tribal college. These grants may be awarded only to pay for the students' actual materials expenses, such as the cost of tools, equipment, and clothing, associated with the apprenticeship program. Among the requirements for a student to be eligible for a grant, the student must be enrolled in the apprenticeship program in the semester in which the grant is made and in the following semester.
