***Analysis by the Legislative Reference Bureau***

This bill creates an income and franchise tax credit equal to approximately 66 percent of the taxes levied on buildings and other improvements, not including residential property, that are located in this state and used exclusively for farming. The credit is limited to \$7,500 for an individual, entity, or married couple filing jointly. In addition, in order to claim the credit, the claimant must have at least \$35,000 in annual gross income from farming. The person will receive a refund if the amount of the credit exceeds the person's tax liability. Under the bill, the credit is part of the farmland preservation credit program under current law.

The bill also allows a taxpayer to claim the credit online in 2020 based on the the 2019 assessed value of the taxpayer's buildings and other improvements, not including residential property, that are located in this state and used exclusively for farming.
