Benefits eligibility screening

This bill directs DCF or a county department (the department) to periodically screen each child under the placement and care of the department in out-of-home care, other than children placed with kinship care providers receiving kinship care payments, to determine if the child is eligible for federal or state benefits (benefits). If the department finds that a child is eligible for benefits, the department must do all of the following:

1. Apply for the benefits for which the child is eligible on behalf of the child.
2. Ensure that the child, the child's guardian ad litem, and the child's parent, guardian, or Indian custodian receive proper and timely notice of any application for benefits, the results of an application for benefits, and any appeal of a denial of benefits that could be or is filed on behalf of the child.
3. Provide the child with training covering financial literacy and maintaining benefit eligibility prior to the child aging out of out-of-home care.

If the department is appointed as representative payee for a child receiving benefits under the bill, the department must conserve the child's benefits in protected accounts that avoid asset limitations for federal and state programs, consistent with the best interests of the child; provide a periodic accounting to the child, the child's attorney or guardian ad litem, and the child's parent, guardian, or Indian custodian regarding the conservation and use of the child's benefits while the child is in the department's care; and work with the child and the appropriate federal agency to return remaining funds to the child or another fiduciary once the child exits the department's care.

The department may contract with a public or private agency to fulfill the requirements of the bill. The department may not use benefits received on behalf of a child to pay for the costs of caring for the child in out-of-home care, but may use the child's federal benefits for the child's unmet needs beyond what the agency is obligated to, is required to, or has agreed to provide.

The bill requires DCF to promulgate rules to implement the bill and

BILL

authorizes DCF to promulgate emergency rules for the period before permanent rules take effect.
