***UW System funding allocations and grant***

Under current law, most GPR appropriated to the UW System is appropriated through a single general program operations appropriation, a biennial appropriation sometimes referred to as the UW block grant appropriation. In the 2023-25 fiscal biennium, more than a billion dollars was appropriated through this appropriation in each year of the fiscal biennium.

This bill requires the UW System to allocate from this appropriation specified amounts for particular purposes in the 2025-27 fiscal biennium. The total amount of these required allocations is approximately \$8.6 million in fiscal year 2025-26 and approximately \$7.5 million in fiscal year 2026-27, and the purposes include the following: increasing assistance to students who are veterans and military personnel; extending eligibility for the Health Care Provider Loan Assistance Program to new categories of health care providers; establishing or continuing foster youth programming for eligible students; funding UW–Madison’s UniverCity Alliance program; supporting journalism programs and fellowships; and funding education, training, research, and technical assistance to support small businesses, economic development, and entrepreneurial activity.

The bill also requires the UW System to award a grant from this appropriation, in the amount of \$450,000 in each fiscal year of the 2025-27 fiscal biennium, to the Institute for Healthy Aging to support programs in fall prevention and recovery training.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
