11. Policy Problem Addressed by the Rule Administrative rules require a physical therapist providing general supervision of a physical therapist assistant to have direct face-to-face contact with the physical therapist assistant at least every 14 calendar days and provide on-site assessment and reevaluation of each patient's treatment a minimum of one time per calendar month or every tenth treatment day, whichever is sooner. The spread of COVID-19 and the resulting safety precautions have severely limited the ability of physical therapists to adhere to these supervision requirements. An expeditious promulgation of the proposed rule is in the best interest of Wisconsin's economy and public welfare, as it will help ensure continuity of care for individuals in need of physical therapy services.

15. Benefits of Implementing the Rule and Alternative(s) to Implementing the Rule Section PT 5.01 contains requirements for supervision of physical therapist assistants, including requirements that a physical therapist providing general supervision of a physical therapist assistant have direct face-to-face contact with the physical therapist assistant at least every 14 calendar days and provide on-site assessment and reevaluation of each patient's treatment a minimum of one time per calendar month or every tenth treatment day, whichever. If the rules are not updated to temporarily suspend these requirements, continuity of care of individuals in need of physical therapy services may be adversely affected.

16. Long Range Implications of Implementing the Rule

The ongoing COVID-19 pandemic, and the resulting safety precautions, have severely limited the ability of physical therapists to adhere to these supervision requirements. An expeditious promulgation of the proposed rule is in the best interest of Wisconsin's economy and public welfare, as it will help ensure continuity of care for individuals in need of physical therapy services.

17. Compare With Approaches Being Used by Federal Government

None

18. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)

Illinois:

The Illinois Statutes require physical therapist assistants to perform patient care activities under the general supervision of a licensed physical therapist. The physical therapist must maintain continual contact with the physical therapist assistant including periodic personal supervision and instruction to ensure the safety and welfare of the patient [225 ILCS 90/2].

Iowa:

The Iowa Administrative Code provides that a supervising physical therapist who delegates the performance of physical therapy services to a physical therapist assistant must provide supervision to the physical therapist assistant at all times when the physical therapist assistant is providing delegated physical therapy services. Supervision means that the physical therapist must be readily available on site or telephonically anytime the physical therapist assistant is providing physical therapy services so that the physical therapist assistant may contact the physical therapist for advice, assistance, or instruction [645 IAC 200.6(1)].

Michigan:

Rules of the Michigan Board of Physical Therapy provide for delegation of acts, tasks, or functions to and supervision of unlicensed persons, including students enrolled in accredited physical therapist or physical therapist assistant educational programs approved by the board. A physical therapist is required to provide "direct supervision" of students, which means the physical therapist is physically present and immediately available for direction and supervision when patients or clients are present at the time the act, task, or function is performed, and the physical therapist has direct contact with the patient or client during each visit [Mich Admin Code, R 338.7139].

Minnesota:

The Minnesota Statutes require a physical therapist must provide on-site observation of treatment and documentation of a patient delegated to a physical therapist assistant, at least every six treatment sessions. The physical therapist does not have to be on-site, but must be easily accessible via telecommunications [Minnesota Statutes, section 148.706].
